

SPONSOR LEJOG CYCLISTS

Michelmersh Brick Holdings PLC were delighted to sponsor the shirts of a valued employee's son and his friend, when they took on the challenge to cycle from Lands End to John O' Groats to raise money for The Motor Neurone Disease Association, an organisation close to the family's heart.

With over 1,000 miles travelled, punctures, wind, rain, broken chains and even a herd of cows to negotiate the two cyclists, Edward and Ben, completed the journey in 13 days.

Frank Hanna, Group Commercial Director commented "It's a great achievement for Edward and Ben who raised £6,621.19 for a great charity. We are always happy to be given the opportunity to sponsor charitable events when our employees and their families are involved."
