WHO IS MICHELMERSH? LIFETIME REVENUE SOURCES

FOUR LIFETIME REVENUE SOURCES:

Brick Manufacturing
Prefabricated Brick Components, Systems & Terra Cotta
Investment Land
New Acres Landfill

Michelmersh Brick Holdings PLC is a business with seven market leading brands: Blockleys, Carlton, FabSpeed, Freshfield Lane, Michelmersh, Floren and Hathern Terra Cotta. These divisions operate within a fully integrated business combining the manufacture of clay bricks, pavers, special shaped bricks and bespoke architectural terra cotta. The Group also includes a landfill operator, New Acres Limited, and seeks to develop future landfill

and development opportunities on ancillary land assets. Established in 1997, the Company has grown through acquisition and organic growth into a profitable and asset rich business, producing over 120 million clay bricks and pavers per annum. Michelmersh currently owns most of the UK's premium manufacturing brick brands and is a leading specification brick and clay paving manufacturer.

Michelmersh strives to be a well-invested, long-term, sustainable, environmentally responsible business. Opportunity, training and security for all employees, whilst meeting the needs of stakeholders are at the forefront of everything we do. We aim to lead the way in producing Britain's premium clay products and enhancing our environment by adding value to the architectural landscape for generations to come.

MICHELMERSH PREMIUM PRODUCTS

Brick & Façade Specialists

THE FULL FAÇADE SOLUTION

Britain's brick specialists producing premium, long-lasting and beautiful clay-facing bricks and pavers.

Specialist, prefabricated brick components dedicated to modern off-site construction and complex masonry design specifications.

Over 100 years of experience with traditional hand-pressed architectural terra cotta and faience.

Leading in sustainable award-winning product innovation, striving for decarbonisation towards net zero.

A commitment to quality

Michelmersh is the leading British manufacturer of premium bricks, pavers, special shaped bricks, hand-pressed architectural terra cotta and prefabricated brick components. Recognised for technical expertise, innovation, unrivalled customer service and a commitment to sustainability.

ENHANCED ROUTES TO MARKET

The enlarged Michelmersh Group will continue to position itself at the forefront of industry innovation with a broader product portfolio and enhanced routes to market, utilising our individual brand expertise to draw on our expanding customer base and distribution channels.

Michelmersh is proud to grow its portfolio, as we continue to be recognised as the most trusted name behind today's prestigious built environments. The Group welcomes the FabSpeed acquisition in 2022, creating a leading combined Group in clay and associated prefabricated products.

The Group strives to continue leading the Industry with a sustainable product offering in demand by the most prestigious architects, housebuilders and developers across the country and throughout Europe.

WHY WE ARE SPECIALISTS

Michelmersh is dedicated to the highest standards of manufacturing and is extremely proud to have received the first three star certification from the Brickmakers Quality Charter by the Brick Development Association. Using modernised production methods that emphasise sustainable building solutions and adhere to the most stringent production requirements, Michelmersh guarantees high-quality product standards with a low ecological footprint.

The Michelmersh Group takes its obligation to act as a responsible corporate citizen very seriously. Michelmersh is playing a crucial role in the renaissance of brick, as it enters a new decade with brands that have evolved to create some of the most popular products and prestigious projects in today's built environment. With materials sourced from its own clay pits, Michelmersh is providing local products for local communities.

Michelmersh is proud to make environmentally friendly, natural, durable, thermally efficient products which will last for hundreds of years and can still be recycled. Britain's Brick Specialists inspire beautiful, comfortable, safe and sustainable architecture that will enhance our built environment for generations to come.

CORE
VALUES

Integrity, Respect, Innovation, Sustainability

Michelmersh strives to be a well-invested, long-term, sustainable and environmentally responsible business, dedicated to delivering quality products. The Group aims to provide optimum training, security and career progression for all of its employees, whilst acting as a responsible corporate citizen and keeping stakeholder value at the forefront of every decision.

Michelmersh actively promotes and reinforces its four Core Company Values at the heart of its stakeholders.

IRIS
INTEGRITY

Retain strong moral principles, mirrored by Michelmersh's employees to act in an ethical manner in all areas of the business and uphold the qualities of being honest and reliable.

IRIS
RESPECT

Michelmersh believes all people should be treated fairly and without fear of discrimination. The Group encourages a culture of consideration and value for each other through respect.

IRIS
INNOVATION

The Group constantly strives to advance and improve through modernising processes, training staff, updating technology or equipment and always being forward thinking.

IRIS
SUSTAINABILITY

Awareness of Michelmersh's social and environmental responsibilities is key to our business, to protect the future for generations to come.

Our culture and values are the guiding principles that define Michelmersh's purpose and objectives. As well as guiding our actions and behaviours internally, we shape our engagement with stakeholders externally on these values so that everyone we do business with, knows what to expect from everyone within the Group.

MICHELMERSH BRICK HOLDINGS PLC

STATEMENT FROM
THE CHAIR

Martin Warner

I am very pleased to report on another successful year for the Group, with the ongoing delivery against our strategy supporting our positive 2022 financial performance despite the challenging economic environment.

We were delighted to announce the acquisition of FabSpeed towards the end of the year and this addition will enable us to strengthen our position as a leading business in both clay and pre-fabricated products.

We remain mindful that there are significant challenges in the broader economy with elevated inflation and a higher interest rate environment potentially impacting demand across the construction industry. We continue to closely monitor these risks, but we believe in the fundamentals of our strategy of maintaining a broad customer base across multiple end markets and continue to see robust levels of order intake as a result.

The Group continues to focus on delivering excellent products and customer service and with the resilient fundamentals of our business, the Board remains confident in the strategic outlook of the business.

Dividend

The Board is pleased to continue to commit to our progressive dividend policy reflecting a balanced approach to generating and returning value to our shareholders, and as such, the Board is recommending a final dividend of 2.95 pence per share (FY21: 2.50 pence per share), which, together with the 1.30 pence per share interim dividend (FY21: 1.15 pence per share), gives a total dividend of 4.25 pence per share (FY21: 3.65 pence per share), up 16.4% on last year. The proposed dividend will be paid on 12 July 2023 to members on the register on 9 June 2023 with shares being marked ex-div on 8 June 2023.

Outlook

We are proud of our track record of consistently delivering against our strategic targets of overseeing well-maintained and efficient operations that manufacture the highest quality premium brick products for our customers. Our resilient medium-term outlook is underpinned by the quality of our product portfolio and the strength of our customer and distributor relationships and, as a result, we enter 2023 with a high-quality forward order book, deliberately covering a breadth of end market channels from RMI (Repair, Maintenance and Improvement), housing to commercial, social and specification projects, now further expanded by FabSpeed.

Despite the ongoing challenging market conditions, we remain well placed at the premium end of the brick market in the UK and Benelux markets. The long-term fundamentals of these markets are positive, with brick continuing to be the façade material of choice due to its longevity, sustainability and energy efficient qualities in use, low cost and broad aesthetic appeal, whilst equally, available brick stocks remain at historic lows.

Importantly, the strength of our balance sheet provides us with financial resilience and also flexibility to pursue further acquisition opportunities where they meet our commercial and financial criteria as we target attractive opportunities that complement our existing portfolio.

As we enter 2023, the ongoing higher inflation environment continues to provide an uncertain backdrop as we look to manage our supply chain and input costs. Given the high energy requirements for brick manufacturing, our energy price hedging policy remains incredibly important to ensure that we are well placed to manage the impact of utility price volatility over the medium term, with our requirements again materially hedged at over 90% for 2023 with further contracts into 2024 and 2025. We remain focused on mitigating these risks through maintaining appropriate portfolio pricing, and in collaboration with our customers we introduced our standard timetabled price increase at the start of January 2023.

Following the acquisition in November, FabSpeed will be earnings accretive in its first full financial year being part of the Group with expected revenue and profit in line with its historic performance before we move into the first phase of our growth strategy commencing with the build-out of the existing space at our Charnwood facility. Given FabSpeed's historically lower profit margins, the Group will see some EBITDA margin percentage dilution over the short term as we work in collaboration with our customers to ensure robust forward demand in our core end markets and move to prioritise targeting earnings growth over the medium term to balance the requirements of our stakeholders.

The Group continues to prioritise a quality forward order book derived from our diverse and broad loyal customer and distributor relationships supported by demand from across the social and specification housing, RMI and commercial sectors. With elevated inflation and higher interest rates potentially impacting demand for our products, we believe the quality fundamentals in our business will provide resilience and we are well placed to continue our strategic progress through 2023 and beyond.

MARTIN WARNER

Chair of the Board

REPORT FROM JOINT CHIEF EXECUTIVES

Frank Hanna & Peter Sharp

OVERVIEW

We are delighted to report on another year of significant progress for the Michelmersh Group. These positive full year results have been achieved despite the ongoing period of challenging economic conditions, with heightened inflation, interest rates and negative sentiment from the conflict in Ukraine driving volatility in the utility markets and greater levels of uncertainty in our principal economies. Once again, we would like to thank all our staff for their support and enduring dedication. It is due to their commitment that we have been able to maintain the highest quality production and despatch operations to support our customers and deliver consistent results throughout the year.

Our strategy has focused on sustainable growth through deliberately targeting and maintaining a diverse range of end customers that cover a broad range of applications and channels within the construction industry. The current steady order intake supports a robust order book, which is broadly spread across our key markets of housing, commercial, social and specification projects and RMI. Our strategic approach and focus in addressing these diverse end markets underpins our view of the resilience in the business to continue delivering growth as each route to market has differing factors to drive supply and demand fundamentals. We remain very grateful for the longevity and depth of our customer relationships which support this approach and our focus is to provide excellent products and services alongside balancing the needs of all our stakeholders.

Despite the more cautious outlook in the UK and European economies, it is important to note that the production capacity of the UK and European brick manufacturing industry remains well balanced when set against wider demand and as an industry we still have record low inventory volumes of bricks. These sector dynamics remain supportive of our medium-term strategy, despite what is a more uncertain outlook. We have significant strength at the premium end of the brick market in the UK and Benelux regions and brick continues to be the façade material of choice due to its longevity, sustainability and energy efficient qualities in use, low cost and broad aesthetic appeal. As such, the Group continues to focus on manufacturing and delivering the highest quality brick, pre-fabricated building products and paver premium-centric products to our customers. This supports our average selling prices to be consistently at a premium to the wider market and our objective to sell all the products we make, underlining our earnings resilience. The ongoing strength and longevity of our customer relationships was also a key factor in successfully introducing the two measured forecast price increases across our portfolio at the start and middle of the year, as we looked to offset the significant increase in our input costs. The benefit of collaboratively working with clear and measured timetabled price changes underpinned consistent demand from across our customer base throughout the year.

*The Directors believe that adjusted measures provide a more useful comparison of business trends and performance. Adjusted results exclude exceptional items, which are costs associated with acquisitions and the amortisation of acquired intangibles. The term adjusted is not defined under IFRS and may not be comparable with similarly titled measures used by other companies. Adjusted performance results are reconciled with statutory results in the table below on page 19.

¹ EBITDA is defined as earnings before interest, tax, depreciation, and amortisation.

To complement our core brick manufacturing business, we have continued to target carefully selected, value enhancing acquisitions and were delighted to announce the acquisition of FabSpeed at the end of November. FabSpeed is a manufacturer of pre-fabricated building products with a significant focus on bespoke, complex and specialist products, including chimneys, arches, canopies and dormers. We believe that the acquisition is another important step in the strategy for the Group to remain Britain's leading specialist brick manufacturer. Combining FabSpeed with our existing clay product manufacturing business will create a leading player in clay and associated pre-fabricated products, including brick cladding systems, brick clad chimneys and arches. Since completion, we have been delighted with the quality of both the people and assets within the business and are excited about the broader product offering, enhanced routes to market, the complementary customer base and distribution channels that FabSpeed has now brought to the enlarged Group.

Alongside the FabSpeed acquisition, we also took the strategic decision to review the brick making operations at Charnwood. This plant contributed less than 3% of our overall volumes and the specialised nature of the handmade brick process meant that we generated margins and returns that are significantly below our Group strategic targets. Following the review, the Board took the decision that it was the appropriate time to cease brick making operations at Charnwood in December 2022 to focus on the core growth opportunities in the Group. Customer retention was a core consideration and importantly many of the customers had already migrated to alternative Michelmersh and Freshfield Lane products prior to the cessation decision. The expertise we have generated at Charnwood is firmly embedded across the Group and we believe that the strength of our core brands means we will be better placed as a Group to continue our success as a premium brick manufacturer across our UK and European markets. Ceasing brick making operations will also release the quarry site to become surplus to requirements and, with the land already included in the local draft housing plans, we believe this represents the best opportunity to realise value for our shareholders. Going forward, we will use the vacant factory space at Charnwood in the first phase of our growth strategy for FabSpeed as we look to repurpose the site and expand the operations and reach of our acquired pre-fabricated portfolio. This build-out will operate alongside the existing manufacturing operations of our Hathern Terra Cotta range, which is set to remain on-site. This is a trusted brand and leading manufacturer of architectural terra cotta products, which we believe has a strong future in this highly specialised market.

Our 2022 financial performance and strong balance sheet have allowed us to deliver on our core business priorities and equally ensure that we can continue to invest in the Group and have highly efficient manufacturing facilities. During the year we completed the addition to our kiln drying capacity at Carlton and invested in our clamp kilns at Freshfield Lane which will

support ongoing production efficiencies at these key sites. At Floren, we completed the construction of a new building to house further automated robot pallet mixing capacity. The Company will continue to invest in projects that address our strategic objectives to expand the manufacturing capacity, support continuous improvements in production efficiency, de-risk processes and deliver long-term sustainability through enhanced reporting and a deliverable sustainability roadmap.

Importantly, our year-end cash position of £10.6m (post the acquisition of FabSpeed) and the undrawn £20m bank facility continue to provide us with both financial resilience and flexibility to continue pursuing and meeting our ongoing strategic objectives.

We remain fully committed to our progressive dividend policy with a full year dividend of 4.25 pence per share underlining our confidence in the positive outlook for the business. All of this leaves us well positioned to deliver further progress in our 2023 financial year and beyond.

Sustainability

As a Group our strategic decision making is focused on the fundamental objective of Michelmersh representing the sustainable face of clay brick manufacturing. Twelve months on from the launch of our Sustainability Report and road map to achieving carbon neutrality, we have had a positive year with the incremental progress we set out in the report, which is monitored and measured by our Sustainability Group.

As we discussed at the half year, we were pleased to win a competitive process to partner with the UK Government on a research project investigating the potential use of hydrogen fuel in the brick manufacturing process. The programme is part of the £1 billion Net Zero Innovation Portfolio ("NZIP") which aims to provide funding for low-carbon technologies by decreasing the costs of decarbonisation. The project represents a flagship study on the feasibility of replacing natural gas with hydrogen in brick manufacturing. The first phase of the project started in the second half of 2022 and was targeted at demonstrating the viability of fuel switching using hydrogen in the clay brick production process at our Freshfield Lane site. The research and development project will continue into 2023 and demonstrates our commitment to investigating a broad range of technological opportunities that target sustainable improvements in our manufacturing processes.

Following the investment in researching the potential for hydrogen alternatives, we were delighted to be awarded the "Decarbonisation Trailblazer" at the Delivering Net Zero for British Ceramics Conference. This sector conference held its inaugural event at the end of November. The event aims to highlight the most effective decarbonisation initiatives, crucial

to delivering the broader ceramic industry's progress toward reaching Net Zero.

Furthermore, during the second half of the year, we commissioned new solar capacity to be added to the new building at Floren, which in addition to the capacity already in use, will deliver over 50% of the site's electricity requirements from the first quarter of 2023. We have also launched a further solar project in the UK at our Blockleys site as we look to investigate the feasibility of adding solar capacity to our existing buildings. This will continue to deliver positive changes in support of our core focus on achieving the Group's sustainability ambitions. As we look to fuel substitutions, we also received our new electric fork-lift trucks through the first half of the year as our UK operations switched from diesel to electric units.

Award Winning

We were delighted that our high-quality product portfolio was once again recognised in 2022 through our successes at the Brick Development Association ("BDA") industry awards. The 46th BDA awards saw the Group win seven awards alongside two commendations.

Among our awards was recognition for Haworth Thompkins' Neptune Wharf at Fish Island Village in the Urban Regeneration category. Neptune Wharf used Freshfield Lane's clay facing bricks to create a group of mid-rise apartments with homes and workspaces, in a major brownfield regeneration project to rejuvenate a 2012 Olympic fringe area.

Further success came for one of our long-term customers, the quality new housing developer Croudace, who won the prestigious Housebuilder Category. Croudace has established itself as a private housebuilder with a long history of producing high-quality homes and first-class customer service. Croudace has used Freshfield Lane's products on several notable projects, including its Halstead and Lindfield developments, and we were delighted for the award recognition.

As Britain's Brick Specialists, the Group aims to inspire beautiful, comfortable, safe and sustainable architecture that will enhance our built environment for generations to come.

Charity

During 2022, we maintained our focus on the importance of our commitment to supporting charities which align with our culture and values and are central to our Corporate and Social Responsibility ("CSR") ethos. We have developed a strong track record of supporting charities that are important to our staff and this was the third year that we asked our staff to nominate two principal charities for the Group to support. The

charities selected were The Lighthouse Construction Project, which is the only charity that provides emotional, physical and financial well-being support to construction workers and their families, and Momentum Children's Charity, which supports families whose children are facing cancer or other life changing conditions. We were delighted to support these two charities, both of whom received donations and were promoted via our social media platform.

Alongside these two staff chosen charities, we also supported six other charities during 2022 that delivered support to organisations and projects in local areas close to our manufacturing facilities.

Supporting Education

Having supported colleges for many years, the Group officially launched its initiative 'Pledge 100' in 2020 to encourage youth training in skill-based occupations and those embarking on careers in the construction industry. With the industry facing a well-publicised shortage of skilled bricklayers, with gaps in funded support across all sectors of construction, additional assistance is vital to encourage the next generation to apply for construction-focused employment.

We have continued this commitment to training the next generation of bricklayers by donating over 100,000 bricks through our "Pledge 100" initiative. Supporting industry education and training, including bricklayers and architectural design courses, remains one of our core commitments.

Throughout 2022 we supported eleven institutions across the UK through the provision of bricks they need to ensure students can learn the appropriate skills necessary to fulfil their training as bricklayers of the future.

In addition to offering product for students to learn with in practical lessons, we also continued to supply hundreds of copies of the 'Guide to Successful Brickwork', to vocational training courses.

FRANK HANNA & PETER SHARP
Joint Chief Executives

FINANCIAL REVIEW

Group Results

As a result of the positive trading performance across the business, the Group delivered strong growth for the 2022 financial year. This was mainly driven by the strength of the organic business, but we also benefited from the five weeks of trading activity following the acquisition of FabSpeed from 23 November 2022.

INCOME STATEMENT

	Year ended 31 Dec 2022	Year ended 31 Dec 2021	Change
Revenue	£68.4m	£59.5m	15.0%
Gross margin	39.4%	40.7%	(1.3%)
Adjusted* EBITDA ¹	£16.7m	£14.7m	13.6%
Adjusted* operating profit	£12.7m	£11.1m	14.4%
Operating profit	£11.6m	£9.9m	17.2%
Adjusted profit before tax	£12.5m	£10.9m	14.7%
Profit before tax	£11.4m	£9.7m	17.5%
Adjusted* basic earnings per share	10.61p	9.33p	13.7%
Basic earnings per share	9.41p	6.50p	44.8%
Dividend per share	4.25p	3.65p	16.4%

*The Directors believe that adjusted measures provide a more useful comparison of business trends and performance. Adjusted results exclude exceptional items which include costs associated with acquisitions and the amortisation of acquired intangibles. The term adjusted is not defined under IFRS and may not be comparable with similarly titled measures used by other companies. Adjusted performance results are reconciled with statutory results in the table on page 19.

¹ EBITDA is defined as earnings before interest, tax, depreciation, and amortisation.

The strong revenue performance over the year was predominantly due to two price increases implemented across the portfolio at the start of the year and in July we looked to offset the significant increase in our input costs, whilst maintaining production volumes in line with our expectations. The acquisition of FabSpeed added £0.7m of revenue and £0.1m of operating profit, which was in line with our expectations and continues to perform as we expected.

As a result of the strong revenue growth, operating profit of £11.6m was up 17.2% on 2021 (FY21: £9.9m), and profit before tax of £11.4m was up 17.5% (FY21: £9.7m). As we highlighted at our half year announcement, the impact of the inflationary environment, and most specifically elevated utility costs, impacted our profit margins by around 200 basis points in the first half but, as expected, we ended the year at 24.4%, in line with 2021. The Group's policy is to manage our input costs on a risk-based approach and this process underpinned the visibility of our input costs with over 90% of our energy requirements fixed for the financial year facilitating our ability to manage our profit expectations. We have continued to secure our expected forecast energy volumes and have entered contracts which are again in place for over 90% of our expected requirements in 2023, with further contracts into 2024 and 2025 in line with this approach. These results and strategy underline the Company's continuing success of managing our operational efficiency to maximise our financial returns, whilst importantly maintaining and prioritising a close relationship with our loyal customers.

Additionally, our positive profit and earnings metrics reflect the increased depreciation costs of £0.3m in FY22, which is a result of the increased value of our well-invested manufacturing facilities and the investment made in new electric fork-lifts across our sites. The benefit of paying down the last of our borrowings, with the final payment of £0.8m in the first half of this financial year, maintained finance costs of £0.2m (FY21: £0.2m) despite the higher interest rate environment across the financial year.

On a reported basis, the results include the impact of the amortisation of acquired intangibles and, on an adjusted basis to remove the impact of these items, adjusted EBITDA of £16.7m (FY21: £14.7m) is ahead by 13.6% against FY21. This was at an adjusted EBITDA margin of 24.4%, reflecting the successful management of the impact from the volatile utility cost environment to deliver a margin in line with 2021.

After a tax charge of £2.5m (FY21: £3.6m), the Group recorded a profit for the year after tax of £8.9m (FY21: £6.1m). The tax rate of 22% (FY21: 36.8%) reflects our blended effective Group tax rate for the full year as we operate in the UK (19%) and Belgium (25%). The reduction from 36.8% from 2021 is as a result of 2021 including the impact from the adjustment of the Group's net deferred tax liabilities following the change announced in the 2021 Budget that will increase the standard rate of UK corporation tax from 19% to 25% effective from 1 April 2023.

Basic earnings per share increased by 44.8% to 9.41p (FY21: 6.50p).

The table below (Adjusted Performance measures) provides a clear reconciliation of the adjusted performance to the reported numbers.

ADJUSTED PERFORMANCE MEASURES:

	Year ended 31 Dec 2022 £000	Year ended 31 Dec 2021 £000	Change
Operating profit	11,609	9,920	17.2%
Adjustments:			
Amortisation of acquired intangibles	1,133	1,198	
Adjusted operating profit ^a	12,742	11,118	14.4%
Depreciation	3,915	3,583	
Adjusted EBITDA ^a	16,657	14,701	13.6%
Finance costs	(214)	(223)	
Depreciation	(3,915)	(3,583)	
Adjusted profit before taxation ^a	12,528	10,895	14.7%
Basic earnings per shares	9.41p	6.50p	44.8%
Adjusted basic earnings per share ^a	10.61p	9.33p	13.7%

^a Includes adjustments to exclude amortisation of acquired intangibles

NET CASH AND WORKING CAPITAL:

Cash generated from operations for the year was £19.7m, compared to £15.8m in 2021, benefiting from the consistent positive trading through the year and maintaining our regular and efficient working capital cycle. Operating cash conversion from adjusted EBITDA was 117.9% compared to 107.5% in 2021 once again reflecting the consistent quality of the fundamental cash generating ability of the business.

	Year ended 31 Dec 2022	Year ended 31 Dec 2021
Net cash generated from operations	£19.7m	£15.8m
Tax paid	(£1.7m)	(£2.3m)
Interest paid	(£0.2m)	(£0.2m)
Purchase of property, plant and equipment	(£3.0m)	(£4.2m)
Debt repaid	(£0.8m)	(£10.7m)
Own shares acquired	(£1.5m)	-
Proceeds from share issue	-	£0.4m
Acquisition of FabSpeed (net of cash)	(£6.1m)	-
Lease payments	(£0.7m)	(£0.5m)
Dividend paid	(£3.3m)	(£1.9m)
Net increase/(decrease) in cash and cash equivalents	£2.4m	(£3.6m)
Net cash before lease liabilities	£10.6m	£7.7m

At the year end the Group had net cash before lease liabilities of £10.6m (2021: £8.5m; debt of £0.8m). As we indicated during our half year results, the Group repaid the remaining Group borrowings with the early repayment of the final £0.8m of debt in Floren which was the remaining portion of debt from the 2019 acquisition. In addition to our growing cash position, our £20.0m Sterling and Euro denominated bank facility remains undrawn (2021: £20.0m) and is committed to 22 December 2025, following the exercise in November of the first of our two 1-year extension options.

As we enter 2023, the cash generating fundamentals of the Group, its net cash position and strong balance sheet provide us with the capacity to continue to invest in the business to support both capital initiatives and our commitment to maintaining our progressive dividend policy. Importantly, the strength of our balance sheet provides us with significant confidence in our financial stability as we continue to trade in a more uncertain economic environment.

Our long-term policy is to maintain a strong financial position and keep the ratio of net debt to adjusted EBITDA comfortably under two times.

PURCHASE OF OWN SHARES

At the end of 2021, we announced our programme to fund the purchase of our own shares, through an ‘Employee Benefit Trust’ (“EBT”), in order to meet the future obligations of the LTIP and SAYE schemes and during the year we have purchased 1,335,114 shares for total consideration of £1.5m. Alongside, we launched a share buyback programme at the end of November to reduce the share capital of the Group in order to return value to shareholders; the scheme will continue on substantively the same terms from 29 March with a maximum aggregated consideration of £3.0 million.

ACQUISITION AND INTEGRATION OF FABSPEED

We completed the acquisition of FabSpeed on 23 November for a total cash consideration of £6.4m, comprised of £6.25m of initial consideration after adjusting for the level of working capital at completion of £0.15m. There is potential for an additional deferred consideration of up to £2m, payable in cash, based on achieving future adjusted EBITDA growth targets over the two financial years following completion.

PROPERTY, PLANT AND EQUIPMENT

Capital expenditure in the year highlights our commitment and focus in maintaining efficient manufacturing facilities whilst focusing on delivering against our sustainable road map. The principal expenditure was focused on the completion of our kiln drying capacity at Carlton which will support ongoing production efficiency at this key site. Alongside, we have invested in our clamp kilns at Freshfield Lane to improve operational efficiency. Additionally, whilst we completed the new road at Telford in 2021 to facilitate the release of the remaining mineral reserves at Blockleys to support the long-term operations, we have completed some ancillary drainage works to enable the release of some of the land for alternative use; selling surplus investment land remains an important pillar of our lifetime revenue sources. At Floren, we completed the construction of a building to house automated robot pallet mixing equipment and importantly, the roof will be utilised to add additional solar capacity at the start of 2023. Reflecting this broader focus on sustainability, we continued to roll-out our new fleet of electric fork-lifts across our sites as we prioritise switching to sustainable solutions where the current available technology provides viable alternatives.

GOING CONCERN

The Group’s business activities, together with the factors likely to affect its future development, performance and position are set out in the Chair’s Statement and the Chief Executives’ Review on pages 12 to 17. In addition, note 20 to the financial statements includes the Group’s objectives, policies and processes for managing its capital, its financial risk management objectives and its exposures to credit risk and liquidity risk.

The Group meets its funding requirements through a combination of cash balances and an undrawn £20m revolving credit facility.

The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

ESG STRATEGY

Environmental, Social and Governance

Sustainability is at the core of Michelmersh's values; and it is committed to playing its part in the move to a lower-carbon economy, helping the government to achieve its target of Net Zero by 2050.

"Our ESG strategy and road map, is intertwined with our core company values (IRIS), showcasing how Michelmersh continues to be the leaders in both Sustainability and Innovation. Our exemplary decarbonisation projects put both the environment and our people as pivotal drivers in making sustainable products for the future, that will enhance our built environment for generations to come", Sarah Le Gresley, Innovation Director and Sustainability Group Lead.

Michelmersh understands the importance of its net zero disclosures to its stakeholders, highlighting its commitment to reducing greenhouse gas (GHG) emissions and its focus on Environmental, Social and Governance (ESG) reporting.

By introducing its ESG strategy into the 2022 Annual Report, the Group has evolved its sustainability reporting process and elevated its importance to those stakeholders interested in Michelmersh's ESG performance. The aims of this strategy report are:

- Highlight the Group's corporate alignment with investment values
- Prove credibility of plans and performance against commitments
- Provide transparent and clear GHG footprint and reporting
- Highlight clear governance and management aims, incentives and accountability

Many of the elements highlighted in this report already form part of Michelmersh's Streamlined Energy and Carbon Reporting (SECR)

requirements and will aim to disclose further methodology and performance data to support the Group's future ambition to include the Task Force on Climate-Related Financial Disclosures (TCFD) as indicated by the strategy and ESG roadmap contained within this report.

In 2022 Michelmersh engaged in an ESG strategy assessment with external, independent advisors. This resulted in a comprehensive ESG strategy and roadmap being created to support the Group with progressive change aligned to its current levels of knowledge and business understanding of ESG.

Implementing this strategy will allow Michelmersh to continue to embed ESG into strategic decision-making, entrench it into core business activities and ultimately provide the ability to publicly disclose ESG performance via additional frameworks. The strategy supports continual improvement methodologies, aligned with Michelmersh's existing environmental and other management systems, so benefits are increasingly embedded into business processes over time, with corresponding improved performance.

BENEFITS OF CLAY BRICK

Think Longer - Cradle-to-Cradle

Low lifetime cost

-  Low cost & strong value
-  Low maintenance
-  Financially underwritten
-  Competitive whole-life cost

Industry preference

-  Matches UK vernacular
-  Favoured by planners
-  Product quality standards
-  Established supply chain
-  Aesthetics
-  Forgiving of tolerance
-  Variety of colours

Sustainability

-  Longevity
-  Durability
-  Recycled content
-  Low operational carbon
-  Adaptability
-  Reusable
-  Climate resilience
-  Locally sourced

High product performance

-  Thermal performance
-  Air quality
-  Flood resilience
-  Overheating
-  Non-combustible
-  Cavity wall construction
-  Class O fire rating above 18m

Michelmersh is proud to make environmentally friendly, natural, durable and thermally efficient products that will last for hundreds of years and can still be recycled or reused. This inherently tactile, natural and non-toxic product has a multitude of aesthetic qualities; colour, tone, texture, finish and size, all of which add to the flexibility of brick. Ever-increasing in popularity for its credible fire-resistant properties and flood resilience, its sense of safety, solidity and security continue to be the reason housebuilders and homeowners trust in brick to add value to their properties. Brick is additionally recognised for its inherent sustainable credentials, boasting impressive longevity, low maintenance, zero operational carbon, thermally efficient qualities and can continue to be reused through the lives of several buildings, shaping our architectural environment for generations to come.

Whole-life cycle analysis is supported by the Michelmersh Group, reflected in the main aim of its 'Think Longer' campaign in 2021. Understanding the full and lasting impact of design choices to encourage architects, housebuilders and wider government initiatives to design homes and spaces in our built environment, that will last for 200 years not 20, using longer-term sustainability goals to improve emissions for the planet and passing down our built assets for generational use. Bricks have been around for many thousands of years. Durable products with extensive longevity such as clay brick will prolong the expected life of a building resulting in a lower carbon footprint for every year of use. The Environmental Product Declarations (EPDs) used by the clay brick industry showcase its low operational carbon and how the product has been evaluated for its whole-life including; manufacture, transportation to site, construction phase, building maintenance, replacement, adaptation and end-of-life, including recycling and reuse (cradle-to-cradle).

MICHELMERSH

GROUP OBJECTIVES

KEY OBJECTIVES

In the past few years, we have experienced: a Covid-19 pandemic, energy fluctuations and economic inflationary pressures. As a responsible business, being able to identify and respond quickly to threats and opportunities will have a positive impact on the environmental, operational and commercial pillars of the business.

This strategy gives Michelmersh a route to build on existing sustainability practices and embeds ESG into core business and strategic decisions, providing a roadmap to enable disclosure to further ESG frameworks.

While Michelmersh is not currently mandated to report on ESG, there are growing expectations to disclose ESG performance, and the Group recognises increased stakeholder scrutiny, developing legislation and ethical procurement drivers, which is why Michelmersh wants to be transparent and clear, continuing to retain its high level of trust and integrity with all its stakeholders.

The ESG strategy is tailored to address ESG risks and opportunities that are of the greatest importance and impact to Michelmersh and its stakeholders. Through the materiality assessment, focused areas included: Heath, Safety and Well-being, GHG/Carbon emissions, Governance Processes, Financial Performance, Material Consumption, Innovation, Biodiversity as well as Climate Change.

Aligned with the Group's IRIS values, the objectives below empower employees to utilise ESG data to adjust the manufacturing, materials and energy process and impacts to contribute towards better performance against ESG metrics.

MISSION

Environment

Social

Governance

- Maintain and improve high standards of Health, Safety and Well-being
- To reduce the energy and carbon intensity of our products
- To reduce our raw material usage and embed circular economy principles
- Continue to increase our support for education and local communities
- Evolve our core offering, delivering lower embodied carbon products through innovative product development, technologies or solutions
- Maintain high standards of environmental compliance whilst improving the biodiversity of our land/ estates
- Continuous improvement of employee skills and development

ENVIRONMENT KPI TARGETS

	KPI	TARGET	2022 DATA	YEAR	METRIC
1	Energy	10% reduction (2025) 15% reduction (2030)	15.82%	2025 & 2030	per kWh/tonne (gas and electric)
2	Carbon	5% reduction	20.14%	2030	kg CO ₂ per tonne, excluding distribution, without reduction in production output
3	Fleet (forklift)	100% to be electric	35.59%	2030	% of vehicles
4	Fleet (car)	100% to be hybrid/electric	76.47%	2025	% of vehicles (UK only)
5	Waste	ZERO non-hazardous waste to landfill	0.48	2025	no. of tonnes. (UK only)
6	Plastic	7% reduction in all plastic use	-0.30%	2030	kg per saleable tonne
7	Paper	100% paper used for packaging to be made from 100% recycled content	100%	2030	% of absolute use
8	Wood	70% reduction of virgin wood pallets. Pallets re-sourced from second hand sources	53.18%	2030	kg per saleable tonne
9	Water	5% reduction in potable mains water	41.97%	2030	use of m ³ per tonne of production
10	Biodiversity	Continued commitment to sustainable land use with restoration and Biodiversity Action Plans		2030	

Ibstock Place School, London - Photo © Jack Hobhouse

SOCIAL & GOVERNANCE KPI TARGETS

	KPI	TARGET	2022 DATA	YEAR	METRIC
11	Donations	100,000 bricks per year	120,600	Annual	no. of products donated
12	Charitable	15% year on year increase of charitable financial donations. (Previously 10%)	44.21%	Annual	% of charitable contributions against annual target
13	Environmental Complaints	ZERO environmental complaints	9	2030	no. of complaints
14	Internal Environmental Incidents	ZERO internal environmental incidents	16	2030	no. of incidents
15	Suppliers	100% of material suppliers/contractors signed up to the Michelmersh Supplier Charter. (UK only by 2025)	0%	2030	% of suppliers
16	Training	60hrs training per employee	38.7hrs	2030	average no. of training hours per employee
17	Mental Health	100% senior managers to be trained in Mental Health Awareness	68.18%	2030	% of senior managers
18	Zero Harm	50% increase in proactive reporting to promote zero harm to employees	145.27%	2030	% increase in reporting frequency
19	Health & Safety	Achieve ISO 45001 Health & Safety Management System (UK only by 2025)	71.79%	2025	% of progress of deliverables/actions

All KPIs cover scope 1 & 2 emissions, measured from a 2016 baseline and were introduced in the 2021 Sustainability Report.

The Michelmersh Group has achieved substantial accomplishments since setting the 2030 KPI targets. The majority has been achieved through steady and continuous implementation of repurposing strategic assets, energy procurement, investments in improvement, efficiency projects and enhanced engagement campaigns.

The Sustainability Group reviews the performance of the KPIs quarterly, including whether the intensity of the targets set should be maintained, reduced or raised depending on the stability of continuous performance. As is evident from the highlights to the right, the Michelmersh Group's performance against many of these targets is extremely encouraging and positive, however, due to the recent acquisition of FabSpeed in late November and the complexity of implementing and integrating data which may have to use different measurement metrics and intensities, the Sustainability Group has decided to take a considered approach to the re-evaluation of its KPI targets over the following year, to maintain the majority of its current targets.

Importantly, donations and charitable targets were raised during 2022, following the governance approval process of the Sustainability Group nominating a higher intensity with our focus for social and community-led benefits both locally and nationwide. The product donation target was revised from a percentage increase to a total number to reflect our current high number of donations. The Board Sustainability Group sponsor, Peter Sharp, supported the increases over the past year and recognised the value of the ongoing pledge to support education and various charities encompassing construction industry-related mental health, cancer support, homeless and many other worthy causes throughout the year.

2022 KPI ACHIEVEMENT HIGHLIGHTS

20.1% reduction in CO₂ per tonne of production
Against 2016 baseline

91.5% of the Group's electricity is from renewable sources
From October 2022

15.8% reduction in energy (gas and electric)
kWh per tonne against 2016 baseline

Our non-hazardous waste to landfill was less than 0.5 tonnes
In 2022 (UK plants only)

We have reduced our potable water usage by 41.9%
m³/tonne of production against 2016 baseline

100% of paper used is from 100% recycled content
In 2022

53.18% reduction in virgin wood pallets
kg/tonne against 2016 baseline

145.27% increase in proactive reporting. 1/4 of workforce are actively engaged in proactive Health & Safety
Against 2016 baseline

> 120,000 Brick donations to education or social projects
In 2022

> 85% of the Group's raw materials are sourced within 2.5 km of our manufacturing plants
In 2022

Our UK products travel on average no more than 60 miles from factory to site
In 2022

ENERGY & CARBON REPORTING

Methodology

ENERGY AND CARBON REPORTING

	2022	2021
Group Energy Use (kWh):	226,832,324	233,009,060
Associated Greenhouse Gas Emissions (tCO ₂):	60,330	61,106
Group Intensity Ratio (tonnes CO ₂ /tonne fired product):	0.219	0.221

METHODOLOGY

Figures are based on all Scope 1 & Scope 2 activities including transport. In line with recommended good practice, Scope 3 transmission & distribution losses have been included in electricity figures.

Activity data is determined using regulatory-approved Emission Trading Scheme methodologies. Calorific values and emissions factors used are those published in relevant national inventories for the reporting year. Fired product tonnage counts only saleable masonry products and does not include any fired production waste, which is sold as an aggregate substitute.

The intensity ratio is chosen to reflect our principal environmental impact and aligns with the Group's wider sustainability performance indicators.

COMMITMENT TO CARBON REDUCTION

Michelmersh has long been committed to the reduction of energy consumption and emissions throughout its operations and will continue to invest in more efficient equipment and lower emission processes.

There was an incremental improvement in the intensity ratio in tonnes CO₂ per tonne for 2022 compared to 2021 of just under 1% and the Group remains 20% below the 2016 baseline intensity value.

CO₂ affects the climate regardless of its emission point and we have chosen to include our Floren works, Belgium, in all Michelmersh SECR reporting data. Reporting this separately would potentially reveal commercially sensitive figures and we believe that every brickworks has a collective responsibility in meeting our energy and carbon performance targets.

On 23rd November 2022, Michelmersh acquired FabSpeed UK, a brick-cutting and brick system pre-fabrication business. Insufficient emissions information and integration of data for the final part of this reporting period were available to produce accurate figures for this division. However, from available data and given the size and activity of this business, we are confident that its exclusion from our annual figures makes a minimal material difference. 100% of their emissions will be included in 2023 data.

With climate change high on the societal and political agenda, and the UK taking the opportunity to be the first major economy to commit to 'net zero' carbon emissions by 2050, the next three decades will see profound changes as the industry continues its decarbonisation journey. Michelmersh is committed to achieving the UK's target of net zero by 2050 and will therefore be looking to introduce further KPI targets in coming years regarding the Group's mid to long-term goals and bridging the gap for the following twenty-year period.

Ceramic manufacturing is by virtue an energy-intensive manufacturing process requiring high temperatures to generate desired product characteristics. Affected by energy, climate and environmental legislation, Michelmersh will keep abreast of the evolving economic and legislative drivers as the UK transitions to net zero. Wider roll-out of more energy and resource-efficient production, alternative new technologies or fuels (such as hydrogen, biomass or electrification), whilst also addressing process emissions (from clays) are all considered, in addition to offsetting schemes towards Michelmersh's roadmap.

Integral to the transition for the industry will be a collaboration with the UK Government and other stakeholders, as well as the availability of financial support for the development and implementation of these technologies. Energy decarbonisation is a key consideration in the long-term business investment decision-making for the Group.

THREE-STAR ACCREDITATION

The Brickmakers Quality Charter (BQC) is a quality mark accreditation scheme by the Brick Development Association. It promotes responsible sourcing of clay bricks and provides the supply chain with assurances of high-quality product, manufacturing and ethical standards. Michelmersh is dedicated to ensuring the highest standards of manufacturing and is extremely proud to be the first UK manufacturer to be awarded the highest, three-star accreditation with corresponding certifications, satisfying all eight critical assessment points (CAPs) for the last two years.

“ Thank you for the delivery of bricks that arrived yesterday. Learners at the prison normally use and reuse bricks on numerous occasions. The new facing bricks will encourage learners to achieve their best brickwork and allow them to achieve a sense of pride in their work. This will also showcase the impact of learning a trade on a learner’s self-esteem, employability and reduction in offending. ”

Dave Heighington, Assistant Manager Vocational Training, HMP Norwich

CULTURE AND SOCIAL SUPPORT

Michelmersh is continuously building its social value by investing in its people, the core company culture and extending its support to local communities to provide a positive impact. Its employees are of utmost importance to the management of the Group and running a sustainable business, taking corporate responsibility very seriously. The Group actively encourages learning and development programmes, positive mental health and the opportunity of being nurtured to develop their careers.

Michelmersh continues to exceed expectations on both charitable financial donations and product donations through the pledge 100, which has seen its social targets exceeded and therefore using the governance structure of the Sustainability Group, the board approved an increase to the two respective KPI targets.

MATERIALITY

Working with independent sustainability consultants on the ESG strategy, a select group of Michelmersh Associate Directors conducted a materiality assessment to identify those issues of most importance to the Group's stakeholders and that had the greatest impact on the Company. The table below is not exhaustive, however, it does illustrate the key priorities. Due to the subjective nature of materiality assessments, the Sustainability Group would like to conduct a more thorough and far-reaching assessment over the coming year with a wider sub-group of stakeholders. The information is based on desktop reviews and people surveys and seeks to best capture the perspectives of all our stakeholders. This has formed the basis of future consideration for the Group's evolving ESG strategy by reducing risks and enabling action on opportunities over the coming years. It is underpinned by the Michelmersh Group's practice of existing responsible business governance:

Environmental materiality

ESG TOPICS

1. Carbon Emissions
2. Climate Change
3. Opportunities (Environmental, Energy, Technical Data etc.)
4. Material Sourcing
5. Investments
6. Biodiversity and Land Use
7. Climate Risk
8. Circularity
9. Natural Resources
10. Material Consumption
11. Water
12. Waste Circularity
13. End of Use
14. WEEE

The Group's most material environmental factors were found to be Carbon and Climate Change. Therefore, recommended objectives within the ESG strategy focus on these themes heavily and are highly considered when choosing the most suitable reporting framework to comply with. Michelmersh's world-leading HyBrick decarbonisation project also aligned with carbon emissions represented higher up on the environmental materiality assessment.

MATERIALITY CONTINUED

Social materiality

ESG TOPICS

1. Health, Wellbeing & Safety
2. Supply Chain Standards
3. Charitable Support
4. External Engagement
5. Training & Development
6. Our People
7. Our Communities
8. Opportunities (Communication, Engagement, Transparency etc.)
9. Diversity & Inclusion
10. Equity & Pay
11. Our Stakeholders
12. Recruitment
13. Healthcare & Benefits

The most material social factors at Michelmersh are health, safety and wellbeing, supply chain standards and charitable support, promoting the ethos of being a good corporate citizen at all levels. External engagement with training and development closely follows. Due to its many social campaigns such as proactive reporting of general safety concerns and the Pledge 100 initiatives, the Group is already on a positive pathway with regard to the wider industry.

Governance materiality

ESG TOPICS

1. Governance Process
2. Financial Performance
3. Opportunities (Transparency, Corporate Behaviour, Ethics, Anti-corruption etc.)
4. KPI Performance
5. Financial Risk
6. Organisational Structure
7. Executive Pay
8. Staff Empowerment
9. Ownership
10. Board Diversity

The Group's most material governance topics highlighted are governance process and financial performance, which is consistent with the business drivers for ESG, to grow the value of the business and the ambition to mature information and data use. All ESG reporting standards require strong governance and a mature approach to collecting data on ESG metrics, which will in turn reduce risk to financial performance, and therefore puts the Group in a strong position for any future non-financial ESG related disclosures.

HYBRICK™ - THE WORLD'S FIRST 100% HYDROGEN-FIRED CLAY BRICKS.

A NEW ERA OF SUSTAINABLE CONSTRUCTION MATERIALS.

Michelmersh announced in 2022 its successful bid to the Department for Business, Energy & Industrial Strategy (BEIS) UK Government, Industrial Fuel Switching competition to conduct a feasibility study to replace natural gas with hydrogen in the brick-making process. The programme is part of the £1 billion Net Zero Innovation Portfolio (NZIP) which aims to provide funding for low-carbon technologies to decrease the costs of decarbonisation. The project represents a global flagship physical study to replace natural gas with hydrogen in brick manufacturing. Phase 1 of the project demonstrated the viability of fuel switching and saw hydrogen used in the clay brick production process at Michelmersh's Freshfield Lane site in an independent brick kiln. The project aimed to inspire radical change across the sector and present opportunities and evidence-based research to support manufacturers on their journey to heavily decarbonise the production processes.

Green electrolytic hydrogen was used for this innovative study, helping to enable a movement toward low-carbon hydrogen and provide a pathway to the net-zero future that our country is aspiring towards. This HyBrick™ study explored the testing of specific infrastructure components to prove hydrogen firing capability and determine any impact on overall quality, brick integrity or aesthetics. Data was collected and analysed to ascertain any effect to process temperatures or stability. The bricks were then compared against control bricks (produced using 100% natural gas) to ensure they meet all technical, aesthetic and characteristic requirements, with independent laboratory testing to determine their durability and structural performance. Of paramount importance and conducted throughout the project were dedicated health and safety risk analysis, assessments and training, alongside air quality performance testing.

As the organisation leading the BEIS 'Deep Decarbonisation of Brick Manufacturing' project, Michelmersh had gone a step further to promote and disseminate the progression and learning of the project through a dedicated brand; HyBrick™ and working alongside a panel of expert partners throughout the project is pleased to announce in this report that the feasibility was a success and the three hydrogen burns showed that it is technically possible to fire bricks. All three hydrogen trials were successful and achieved reductions in the gas carbon emissions of 80 - 84%. This data was verified by the Air Quality Monitoring results, where CO₂ emissions were directly monitored during all hydrogen trials and one natural gas burn.

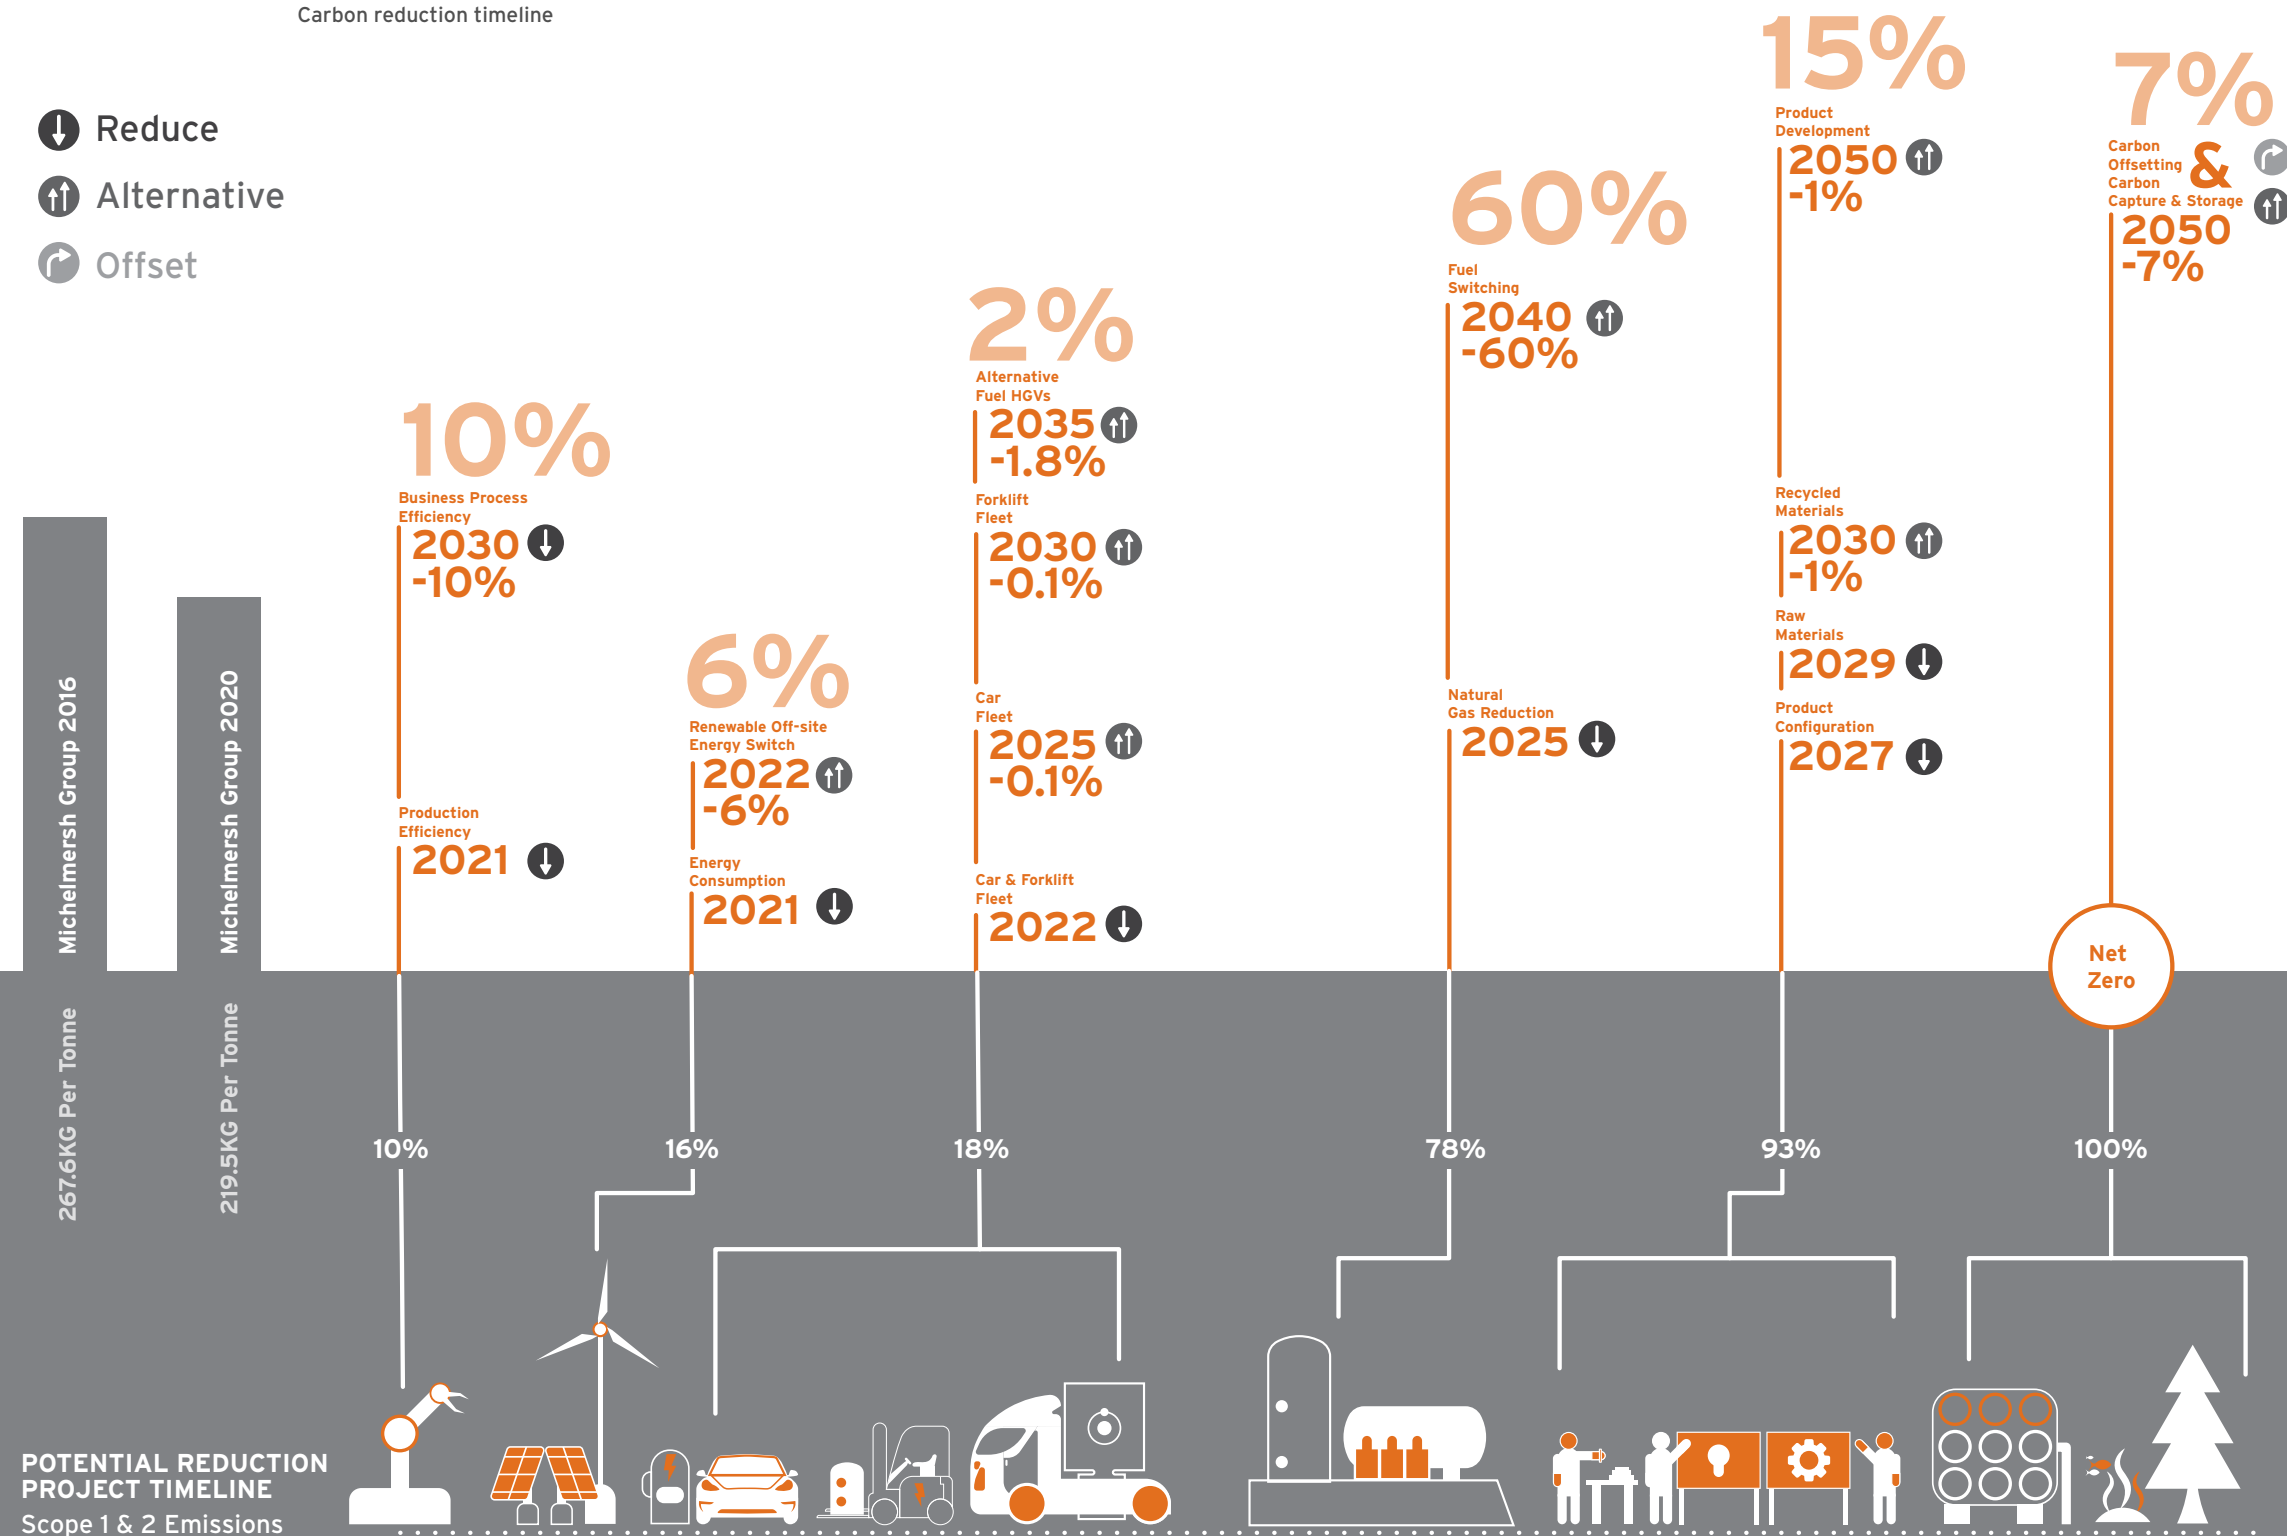

Frank Hanna, Joint CEO of Michelmersh, explains: "The Group is proud to stand at the forefront of such evolution for our industry. While we look forward to the challenges ahead of us, we are optimistic about the change we can inspire within the manufacturing sector. With decades of experience producing high-quality products and with the aid of our industry-leading partners, the Group is well suited to lead the UK with this flagship global first."

NET ZERO ROAD MAP

Carbon reduction timeline

- ↓ Reduce
- ↑↑ Alternative
- ↻ Offset

By the end of 2022 the Michelmersh Group has already achieved a significant reduction of **20.1%** CO₂ per tonne of production from the 2016 baseline year.

Michelmersh The brick façade specialists

Blockleys™ Carlton™ FabSpeed™ Floren.be™ Freshfield Lane™ Hathern Terra Cotta™ Michelmersh™

FabSpeed, the UK's largest independent brick fabricator was acquired by Michelmersh in 2022 to complement the Group's growing portfolio of premium products and services, increasing its ability to optimise and grow its off-site and modern methods of construction product offering in support of its sustainability centred ethos. FabSpeed are pioneers in prefabricated building components, utilising efficient solutions to complex masonry design specifications. With over 25 years of experience producing brick specials, arches, chimneys, facade systems, environmental products and more. Combining FabSpeed with Michelmersh's existing clay product manufacturing business will create a leading combined Group in clay and associated prefabricated products.

FUTURE FOCUS

Understanding prioritised and material topics sets the foundation on which the Group's ESG strategy can be developed. With the currently changing political, social and energy landscape, Michelmersh is aware that risks and opportunities can change and is therefore prepared to undertake a further materiality assessment, engaging with a wider range of the Group's stakeholders in the coming year.

Michelmersh will continue to develop its ESG strategy through complimentary data and business processes, continuing to achieve high standards against its existing rigorous management systems. These established methods and systems already embedded into the Michelmersh processes. These will contribute positively towards the ESG strategy through data collection. The Group will continuously engage in improving the integrity of its ESG performance, focusing on the consolidation of information and data collection methods or processes over the coming years. This will enable further abilities for forecasting decarbonisation projects or integrating future acquisitions.

According to the sustainability maturity and ESG strategy assessments undertaken by an independent sustainability consultant during 2021 and 2022, Michelmersh already follows a robust process for collecting, measuring and analysing data. The Group, however, is continuing to focus on improvements to the automation and forecasting of data with a key objective to collect Scope 3 in the coming years.

The next stage on the Group's ESG strategy journey will be to assess the relevant frameworks, certifications and commitments, which are best aligned to the business's needs and stakeholder demand.

The most material ESG impacts will continue to be embedded as a core focus for the business. The Sustainability Group and Net Zero Steering Group, sponsored by the board will continue to be the vehicle to evaluate and drive positive change for ESG amongst the senior leadership of Michelmersh. With a top-down approach to motivation and encouragement for innovative ideas to decarbonisation, biodiversity net gain, employee health, product development and many other wider far reaching and impactful initiatives, the company feels that employees will feel empowered to drive these company objectives throughout every department of the business.

ALIGNMENT

Michelmersh continues to be a partner of the Supply Chain Sustainability School and drive sustainability engagement and learning for its employees and wider supply chain stakeholders, which it hopes to increase further when the Michelmersh Supplier Charter is launched. The Group will continue to align its KPI goals to that of its core company values (IRIS) and the United Nations Sustainable Development Goals to ensure the relevancy of impactful targets.

INNOVATION

Showcased through Michelmersh's leading and innovative HyBrick world-first trials throughout 2022, the Group hopes to continue inspiring the industry to decarbonise. The Group promotes shaping genuine sustainability for the sector, focusing foremost on reducing emissions through efficiency, fuel switching or alternative technologies over offsetting, to encourage a reduction in absolute emissions.

By the end of 2022, Michelmersh has significantly reduced its CO₂ per tonne of production by 20.1% since the baseline year of 2016, further highlighting its longstanding focus on sustainability, efficiency and its continuous investment programme dedicated to improvements. Even though the Hydrogen studies proved to be 80-84% less gas emissions, the Michelmersh Group is aware that the commercial model for hydrogen production is not yet at a scale to make this proposition financially viable. It has, however, opened the door to further decarbonisation projects and trials for hydrogen, biofuels, electrification or alternative technologies to evolve. The Group is also aware that without carbon capture usage and storage, it would be impossible to achieve net zero, therefore it is prepared to focus resource to finding suitable solutions.

Due to such strong progress against current 2030 KPI targets, the Sustainability Group will continue to review the intensity of each target and amend these accordingly, to ensure they remain both relevant and impactful. The Net Zero Steering Group will also set out further mid to long-term ambitious targets to bridge the gap between 2030 and the future Group goal of achieving net zero by 2050.

BUSINESS MODEL

Objectives and strategies

The Group's principal activity is as a manufacturer and distributor of clay bricks used in the construction industry. It has previously operated a landfill site which generated income and fulfilled obligations of restitution of the land following clay extraction used in the manufacturing process. Landfill operations have been paused in order to protect mineral resources and hence maximise the long-term life of the brickworks. Ultimately, remediated land has alternative use potentially as a development site and the Group seeks to maximise long-term shareholder returns by ensuring appropriate remediation. The Board seeks to manage the four lifetime sources of revenue while recognising that each has a different cycle and is affected by different economic forces.

Clay products are produced at five manufacturing plants and four facilities and are locally distinctive. The products are largely sold to merchants and brick factors who distribute to the construction industry. The Group has a largely fixed capacity of manufacture from existing plant at each of its current brickworks. The Company seeks to maximise the return for products by ensuring high-quality output to meet specified demand and investment to improve yields and reduce input costs.

Sector risk is continuously analysed and balanced by ensuring broad cross market coverage of customers, products and order intake. The principal markets are defined as Repair, Maintenance and Improvement (RMI), Housing & Commercial sectors.

A robust structure of targets, key performance indicators ("KPIs") and internal measurement is set by the Board. This ensures delivery of a clearly defined and agreed set of sales, market & business objectives. The Board and a sub-board of senior managers continually monitor these objectives to ensure they are met by the collective teams within the Group.

We take a long-term approach to establishing value in a highly capital-intensive industry and ensure that all plants are well maintained, productive capacity is optimised, capital applied to improve efficiency and to reduce risks of interruption hence maximising shareholder value. It is paramount for investment to be supported by an extended return and, as such, that there is adequate long-term clay supply.

The key resources and relationships that the Group relies on are:

- the availability of adequate clay reserves;
- continued strong relationships with key customers and markets;
- skilled workforce;
- energy costs within steady and recoverable price structures; and
- financial resources through the banking and investment community.

The Board considers that its priority is to maintain and nurture the key resources and relationships identified above.

Trends and future developments

The Group has a strategy of maintaining a well-balanced forward order book. The product profiles available and the size of our plants helps us to ensure that as a business we always balance sector risk. Whilst, like others, we naturally benefit from the robust demand arising from a structural shortage of housing in the UK, we always seek to be well represented in the RMI and commercial sectors, and in this way are never overly reliant on one particular sector.

Economic conditions remain fragile with the world in the early stages of a post Covid-19 recovery and now further impacted by events in Ukraine. In the UK the government remains committed to construction as one of the key pillars in their determination to drive economic recovery. As a result, the construction industry remains buoyant with positive trading across the housebuilders and distributors. The government remains committed to supporting residential development and on promoting housebuilding and is expected to continue to provide incentives for housebuilders and homeowners through the help to buy scheme.

The annual shortfall in housing completions remains and, as a result, is contributing to demand in the wider property market remaining strong. As a consequence, we expect brick manufacturing businesses should see continued healthy activity. All of this is despite the significant input cost pressures that the Group has managed throughout 2022. Energy costs in particular have been volatile and the benefits of the Group's hedging arrangements have ensured that our results have been largely insulated from the increases in utilities. Whilst the market believes inflation peaked in low double digits, we expect the challenging cost environment to continue. We are in regular dialogue with our customers and we will work with them to ensure that our manufacturing margins are protected with appropriate price increases to offset any further input price increases.

Financial and non-financial indicators

The Directors monitor the business predominantly through review of financial results, including revenue, EBITDA and cash flow, as well as through quality control indicators such as health and safety reporting, employee welfare and efficiency reviews. The Directors are satisfied that these indicators adequately address the principal business risks faced by the Group which are outlined on page 41.

Revenue (£m)

Adjusted EBITDA (£m)

Net Cash (£m)

Gas Hedged % of following year

Proactive Reporting Rate (% per employee)

LTIR (lost days per employee)

The Directors scrutinise closely the average selling price of the range of products sold, the average cost of production and despatch and manufacturing outputs for short-term performance. Other production indicators include absenteeism, yield, energy usage and health and safety statistics. The Board also reviews prospects through energy indicators and construction trends together with the mineral reserves available at each site.

Section 172(1) Statement

The Directors continue to be fully committed to their duty under Section 172(1) of the Companies Act 2006, which requires them to act in the way that they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole, and in doing so have regard (amongst other matters) to:

- the likely consequences of any decision in the long term;
- the interests of the Company's employees;
- the need to foster the Company's business relationships with suppliers, customers and others;
- the impact of the Company's operations on the community and the environment;
- the desirability of the Company maintaining a reputation for high standards of business conduct; and
- the need to act fairly as between members of the Company.

BUSINESS MODEL CONTINUED

In this regard, the Directors identify:

- 1. **Key Issues and stakeholders:** Key issues include investment in key projects and acquisitions that affect the prospects and risk profile of all stakeholders. In all evaluations, health and safety, environmental and social impact are weighted heavily. The key stakeholders include shareholders, employees, customers, suppliers and local communities in which our businesses reside.
- 2. **Methods of engagement:** The Company uses a range of methods of engagement with stakeholders ranging from formal structures to informal, personal engagement. The Group has a flat management structure which allows personal interaction at all levels that facilitates communication both within the organisation and externally with suppliers and customers. Structures include staff Personal Development Programmes, whistleblower facilities, and formal scheduled meetings at appropriate intervals with all stakeholders.
- 3. **Effect on decisions and strategies:** Fostering an environment that our workforce is happy to work in and that best supports their wellbeing is always at the forefront of the Board's mind when making decisions. Our journey towards a net zero carbon future directly impacts the Company's goals and decisions made around potential technological pathways, investment and longer-term strategy. At a routine planning level, consideration is made to manage specific product output to timely delivery to ensure customers can operate efficiently.

Examples of stakeholder considerations in certain key Board decisions during the year

In discharging its duties, the Board considers the views of its stakeholders alongside information pertaining to key areas such as strategy, risk and legal and regulatory compliance.

The Board considers the following to be the key decisions it has made during the year to 31 December 2022, and has included the evidence of their regard for Section 172 duties in the explanations of their considerations:

BOARD DECISION	CONSIDERATIONS
Discussion following updates from the Sustainability Group.	As part of the Company's commitment to its ESG targets, the Directors agreed that a Sustainability Report would be regularly updated to reflect current activity and progress. This would enable the Company to improve its sustainability disclosures in its Annual Report and investor presentations.
Considering the use of electronic communications when communicating with shareholders, and approving the circulation of a Deemed Consent Letter.	The use of electronic communications would enable the Company to communicate with shareholders in an environmentally sustainable manner.
The Board agreed an interim dividend of 1.3 pence per share.	The need to address the interests of shareholders in the context of the long term, whilst maintaining appropriate levels of reserves to run the business effectively.
The Board considered Board succession planning during the year.	The Board was keen to maintain an appropriate balance between Executive and Independent Non-Executive Directors, and to ensure any succession plans support the long-term sustainable success of the Company's strategy and goals.
The Board reviewed its internal Board evaluation.	The need to ensure that the Board remained a high performing team for the benefit of our stakeholders.
The Board approved the launch of a share buyback programme.	The rationale behind the share buyback programme was to reduce the share capital of the Group in order to return value to shareholders.
The acquisition of FabSpeed Holdings Ltd.	The need to consider and take on growth opportunities for the long-term success of the Company and to support the strategy of the Group. The acquisition would enhance the Group's position as a leading provider in clay and associated pre-fabricated products.
The Board agreed the final dividend for 2022 of 2.95 pence per share.	The need to address the interests of shareholders in the context of the long term, whilst maintaining appropriate levels of reserves to run the business effectively.

RISK MANAGEMENT & PRINCIPAL RISKS

RISK OVERVIEW

Our overall approach to risk management is routed in the concept that risk is managed at all levels of our Group from our operational facilities through our support service functions and specialist teams. Our ability to effectively manage and mitigate risk through our business is the central pillar that supports our delivery of sustainable and long-term success for the benefit of all of our stakeholders.

The last financial year has once again been hugely challenging with a new and diverse set of challenges as a result of a more uncertain macroeconomic environment, associated elevated inflation levels and the far-reaching consequences of the ongoing devastating conflict in Ukraine, which has created unprecedented instability in the pricing of utilities. This of course has all swiftly followed the unique challenge of 2020 and 2021 with the unique impact of the global Covid-19 pandemic.

The broad landscape of external risks highlights the importance of embedding the appropriate risk management approach and culture in the Group.

RISK MANAGEMENT FRAMEWORK

The Board of Directors has the overall responsibility for the oversight of risk as well as maintaining a robust risk management framework and internal control system, with the Audit Committee reviewing the effectiveness of our risk management and internal control processes. Our risk management framework is designed to ensure the Board of Directors can clearly identify our risks, assess our risk profile and set our risk appetite, and ensure these risks are being managed and mitigated transparently and effectively.

The Board of Directors reviews risk as a standing agenda at each Board meeting. The Board considers risks from both a top-down perspective, which is primarily focused on strategic and emerging risks and opportunities as well as encouraging a culture of a bottom-up review of risks from the operational teams and specialist support teams. At each of the Board meetings, the Directors review and consider the appropriateness and categorisation of the principal risks facing the Group with particular consideration given to those risks that have the potential to fundamentally impact the core strategic objectives of the Group.

AUB University, Bournemouth. Photo © Design Engine

“Our overall approach to risk management is rooted in the concept that risk is managed at all levels of our Group.”

RISK MANAGEMENT FRAMEWORK

Board of Directors

The Group Board retains ultimate responsibility for owning and managing risk in the Group and setting the overall risk appetite.

The Group Risk Tracker is reviewed as a standing agenda item at every Board Meeting with particular focus on those risks that have had a change to their risk level through risk likelihood or risk impact.

TOP DOWN RISK REVIEW

Identify wide range of strategic and emerging risks.

Risk Management

Risk management and the overall assurance framework are overseen and challenged by the Group Board.

The risk register is included in every Board meeting to ensure the thorough tracking of risks which is owned and updated by the Executive team of the Joint CEOs and the CFO.

Group Policies and Controls

The Group operates a robust internal control environment which covers all areas of the business and ultimately underpins the effectiveness of risk management framework.

The Audit Committee consider the effectiveness of risk management and the internal control environment.

People and Culture

The success of risk management in the Group is dependent on an embedded culture through its people.

Risk management is cascaded through the organisation with operational and support service teams taking ownership of local risks and supporting the effectiveness of internal controls.

Risks are appropriately escalated to the Executive Team.

BOTTOM UP RISK REVIEW

Risks identified by operational management or support team specialists.

RISK APPETITE

The Group's risk appetite determines the level of risk that the Group is prepared to take in trying to achieve its strategic objectives. The risk appetite level is established by the Board of Directors and is designed as a guiding principle to cascade through the organisation to support effective decision making to support both sustainable growth, but also to mitigate risk in the organisation that has the potential to erode value. The risk appetite is designed to be deliberately straightforward and clear so all levels of the Group can support the delivery of the core strategic objectives.

RISK APPETITE LEVEL DEFINITIONS:

The risk appetite levels represent a simple categorisation of Group level targets and are designed to provide a balanced approach to risk which supports the core business strategic objectives.

Averse
We avoid risk and uncertainty as our key objective.

Cautious
We are willing to tolerate a degree of risk in selecting which activities to undertake to achieve key deliverables or initiatives where we have identified scope to achieve benefits or realise opportunities.

Flexible
We are willing to take justified and managed risks, considering all options and choose the one that is most likely to result in a successful delivery or outcome.

Open
We are willing to take our highest level of risk to maximise opportunities and potentially realise more significant benefits for the Group.

	Risk Area	Appetite	Description
1	Strategic		We are willing to take our highest level of risk to maximise strategic opportunities and potentially realise more significant benefits for the Group. We refresh our strategic initiatives annually to ensure our considered approach to strategic risk are in line with our core business objectives.
2	Operational		We have our lowest appetite for risk which compromises our ability to manufacture the highest quality product and deliver the best quality service to our customers
3	Production & input costs		We are willing to tolerate a degree of risk in order to manage our costs of production and the availability of our raw materials. We take a cautious approach to mitigating these risks by seeking to fix our prices alongside the acceptance of a degree of price volatility to achieve the best outcome for the Group.
4	Governance, Legal & Regulatory		We wish to avoid or otherwise mitigate risks which involve our compliance with our governance, legal or regulatory environments in which we operate across the Group.
5	Land, Property & Plant		We are focused on maintaining well invested, sustainable and efficient manufacturing operations and processes. We take a cautious approach to managing the risks in our land, property and plant to ensure we consider the lifespan of available onsite minerals alongside investment decisions into the property and plant.
6	Financial risk management		We accept our lowest levels of risk for financial risk management of our business-as-usual activity and are cautious in our approach to business transformation activity. We significantly evaluate our financial decisions with value for money and business rationale being key factors in decision making.
7	Control and assurance		We have our lowest appetite for risk for maintaining an effective control and assurance environment around the operation of our processes. We address these risks through maintaining effective controls, assurance, reporting and governance environment.
8	Commercial		We are open to higher levels of risk to ensure we maximise our commercial opportunities and deliver the highest possible benefits to all of our stakeholders.
9	Customer requirements & demand dynamics		We are willing to take managed risk in maintaining our differentiated proposition at the premium end of the brick market in the UK and Benelux. We recognise the need to maintain our history and longevity of our loyal customer relationships and we are focused on delivering an excellent product and service to those customers.
10	People and Culture		We are willing to take justified risks in order to build and maintain a team and culture with the right balance of skills and experiences to deliver our core strategic objectives in line with our company values of Integrity, Respect, Innovation and Sustainability.
11	IT & Technology		We take a cautious approach in managing the risks to our IT infrastructure and technology. We ensure that we have the right balance of investment in IT to reflect our lowest risk tolerance in order to continue to operate at all levels of the Group and are more open to risk in areas of investment that support efficiency in our processes.
12	Project/Programme investment		We are willing to take a balanced approach to risk in evaluating our investment decisions in projects or programmes which have the highest potential to deliver benefits for the Group. We have a low level of risk in managing the delivery of projects with significant focus on the positive delivery of our project investment pipeline.
13	Business continuity		We have our lowest appetite for risks which compromise our ability to run a continuous operation at full capacity to manufacture and deliver the highest quality product and service to our customers.
14	Sustainability & Net Zero		We have a high level of risk tolerance as we seek to continue to lead as the sustainable face of clay brick manufacturing and deliver against our road map to achieving net zero. We are willing to take risks in the pursuit of these objectives as we look to deliver measurable progress against this core strategic objective.
15	Health & Safety		We have our lowest appetite for health and safety risk and aim to achieve no health and safety incidents where we operate. We are focused on mitigating health and safety risk through effective operational controls and processes.
16	Environmental regulatory compliance		We wish to avoid or otherwise mitigate risks which involve our compliance with our environmental regulation and reporting frameworks in which we operate across the Group.

RISK MANAGEMENT CONTINUED

PRINCIPAL RISKS

We have an established process for the identification and management of risk across the Group. The Board has developed a risk register which is reviewed and updated at each Board meeting. The key risks to the business are identified and scored according to risk likelihood and risk impact to give a combined risk rating. This risk rating is set against a designed set of mitigations which are targeted at reducing the risk rating.

This register is used as a key strategic tool and framework to consider the Group's strategic objectives, mitigate risk balanced against reward to shareholders, and to ensure compliance with all statutory obligations including health and safety, financial compliance, staff wellbeing and environmental obligations.

The register is reviewed and updated regularly in conjunction with key personnel across the business. The Group's management structure is open with a flat profile that ensures free communication of risk as well as business ethics throughout the organisation. In addition, anonymous whistleblower and suggestion-box schemes are in place.

RISK HEAT MAP

CURRENT RISK RATING

1. Economic Climate and Cycle
2. Business Continuity
3. Climate Change and Sustainability
4. Financial Risk Management
5. Product Demand
6. Availability of Raw Materials
7. Customer Relationship
8. Major Project Delivery
9. Cyber and Information Security
10. Health and Safety
11. People and Culture

The current Group's principal risks are detailed in the tables below:

1 Economic Climate and Cycle (previously "general economy and fiscal environment")

Principal risk and relevance	Mitigation	What happened in 2022
<ul style="list-style-type: none"> The majority of the Group's products will be used in residential new housing schemes or repair, maintenance and improvement projects which will be affected by general economic conditions, government incentives and tax policies, and as such the demand for our products will be dependent on these factors. 	<ul style="list-style-type: none"> The Board continuously monitors all key business performance indicators for signs of changes in the economic climate and the potential impact on the cyclical in the construction sector. We are focused on maintaining a broad product portfolio that meets the needs of our diverse end markets to ensure that we maintain a balanced forward order book across our key markets of: new build, RMI, commercial regeneration and social and specification projects. 	<ul style="list-style-type: none"> Risk Likelihood Change - ↑ Risk Impact Change - ↔ <p>The global economy and macroeconomic environment continues to provide a more unstable backdrop for our sector and key end markets. This is largely as a result of the ongoing war in Ukraine and supply side instabilities as a result of Covid-19. As a result, the likelihood risk rating has increased this year.</p>
Risk Appetite Link 1 Strategic		

2 Business Continuity (previously "business interruption")

Principal risk and relevance	Mitigation	What happened in 2022
<ul style="list-style-type: none"> The production process is most efficient when in continuous operation at full capacity and any disruption impacts on our output and efficiency. 	<ul style="list-style-type: none"> Management is focused on maintaining well invested and efficient manufacturing facilities across all of its 8 operational sites. At an operational level routine and thorough maintenance programmes are maintained alongside alternative back-up facilities. Business interruption and continuity planning, alongside appropriate insurances, are in place to anticipate and mitigate any potential material operational interruption. 	<ul style="list-style-type: none"> Risk Likelihood Change - ↓ Risk Impact Change - ↔ <p>The risk likelihood has reduced in the year as there were no business interruption events in 2022 and the programme of routine maintenance and specific capital investment initiatives were all delivered effectively to support our confidence in our manufacturing facilities.</p>
Risk Appetite Link 13 Business Continuity		

3 Climate Change and Sustainability (previously "carbon profile and environmental challenges")

Principal risk and relevance	Mitigation	What happened in 2022
<ul style="list-style-type: none"> Growing external focus on environmental sustainability and the associated requirements to deliver a measurable roadmap to net zero will require evolving environmental reporting and performance evaluation. These factors will stimulate the requirement to deliver ongoing energy efficiency and continuous improvement in the environmental performance of our manufacturing facilities. The impact is an uncertainty on the associated quantum for cost implications given the current lack of proven technical energy alternatives. 	<ul style="list-style-type: none"> We prioritise investment in projects which will deliver long-term sustainability through enhanced reporting and a deliverable sustainable roadmap. We work with trade bodies and leading scientific institutions to provide innovative options and solutions in support of our energy related investment and decision making. We are focused on maintaining our ISO 14001, ISO 50001 and BES6001 compliance evidenced through rolling audit programmes and engaging with regulators. We work in conjunction with the British Ceramic Confederation to collaborate on broader sector and peer sustainable solutions. 	<ul style="list-style-type: none"> Risk Likelihood Change - ↔ Risk Impact Change - ↔ <p>The Group was proud to release our 2021 Sustainability Report. The Report offers an insightful and detailed account of our established practices and the plans for achieving Net Zero carbon emissions by 2050.</p> <p>We remain committed to delivering against our sustainability strategy. This year we won UK Government funding to investigate the potential use of hydrogen fuel and we launched the trial of HyBrick, the world's first 100% hydrogen fired product.</p>
Risk Appetite Link 14 Sustainability & Net Zero 16 Environmental Regulatory Compliance		

4 Financial Risk Management (previously "input prices")

Principal risk and relevance	Mitigation	What happened in 2022
<ul style="list-style-type: none"> The Group faces a broad spectrum of financial risks which could have a material impact on the financial performance of the Group, which include the following: Input prices - utilities and labour are amongst the most significant costs whose volatility could materially affect financial performance. Credit risk - the Group is exposed to counterparty risk in the event customers do not pay their invoices, which could lead to financial loss. Interest rate risk - in the event the Group has external borrowings, any changes in interest rates could adversely impact the Group through servicing costs. Liquidity risk - insufficient availability to cash and borrowing facilities or non-compliance with covenants could materially impact the Group. Internal control weakness - failure in the Groups internal control environment could lead to potential fines, loss of reputation or fraud. 	<ul style="list-style-type: none"> Input prices - we ensure we have supply agreements in place alongside, fixing of costs and utilities to ensure that short and medium-term effects of global prices and energy costs have less impact on the business. Staff are highly valued and remunerated in a reward structure that promotes efficiency and retention. Credit risk - the Group has deep, trusted and long standing relationships with our customers and alongside we operate a credit insurance policy to ensure any potential counterparty risk is mitigated. Interest rate risk - the Group has a Sterling and Euro denominated £20m RCF facility which is undrawn at the year end. In the event the Group borrows under the facility we would enter into interest rate swap arrangements to ensure volatility in rates is minimised. Liquidity risk - the Group is inherently cash generative and manages working capital carefully to ensure that there is available cash and borrowing headroom to operate the business. Internal control weakness - we believe the internal control environment operates effectively with close senior management oversight to mitigate reporting and control failure. 	<ul style="list-style-type: none"> Risk Likelihood Change - ↑ Risk Impact Change - ↑ <p>The risk likelihood and risk impacts both increased during the year largely as a result of the significant volatility in the macroenvironment as a result of inflationary pressure on production costs and energy costs.</p> <p>The Group continued to experience no bad debts from our loyal customer base and the strong focus on working capital management again delivered adjusted EBITDA to cash conversion of 117% to underpin a growing Group cash balance to provide flexibility to support capital investment initiatives and to swiftly pursue acquisition opportunities.</p> <p>The Audit Committee again concluded that the internal control environment had operated effectively during the year.</p>
Risk Appetite Link 14 Sustainability & Net Zero 16 Environmental Regulatory Compliance		

RISK MANAGEMENT CONTINUED

5 Product Demand (previously "quality")

Principal risk and relevance	Mitigation	What happened in 2022
<ul style="list-style-type: none"> • Maintaining a broad and high quality product portfolio is crucial to ensuring we continue to meet the premium standards expected of our customer base. • It is critical we produce a consistent output during the manufacturing processes and as a result product specification and quality are keenly monitored to ensure that the quality of the manufactured production output meets customer expectations. 	<ul style="list-style-type: none"> • We have close and long standing relationships with our customers to ensure we stay ahead of customer product requirements. • We maintain well invested manufacturing facilities to ensure that the output is maintained at the highest possible quality through a comprehensive programme of quality control. • We regularly test our products across all our sites against industry and product standards and utilise third party experts for independent verification. 	<ul style="list-style-type: none"> • Risk Likelihood Change -  • Risk Impact Change -  <p>Our order intake and order book were once again well ahead of our manufacturing capacity illustrating the strong demand for our premium portfolio and quality of our production processes. As a result, there was no change to our risk levels this year.</p>
Risk Appetite Link 2 Operational 8 Commercial		

6 Availability of Raw Materials (Previously "Mineral Resources")

Principal risk and relevance	Mitigation	What happened in 2022
<ul style="list-style-type: none"> • The manufacturing process relies on the availability of mineral resources and other raw materials to ensure we can continuously manufacture our products. • Future appraisals and investment considerations in our manufacturing plants and processes will always consider the lifespan of available mineral reserves. 	<ul style="list-style-type: none"> • We prioritise ensuring we have a material life of clay reserves available at our manufacturing sites or where appropriate cost-effective import solutions to supplement shorter mineral reserves. • We prioritise having greater than 3/6 months supply of other raw materials on site alongside operating annual supply agreements. 	<ul style="list-style-type: none"> • Risk Likelihood Change -  • Risk Impact Change -  <p>We took the decision to close brickmaking operations at our Charnwood site and repurpose the facility for alternative use. This was due to the high cost of manufacturing and due to clay reserves being below our threshold with no viable alternative.</p> <p>The Group has long-term reserves at all other sites supporting the reduction in the risk likelihood rating.</p>
Risk Appetite Link 5 Land, Property & Plant		

7 Customer Relationship (New)

Principal risk and relevance	Mitigation	What happened in 2022
<ul style="list-style-type: none"> • We generate significant revenues from key customers and distributors and it is central to our business strategy to maintain good relationships to avoid potential risks to our financial performance. 	<ul style="list-style-type: none"> • A core facet of our business strategy is to sell the majority of our premium product portfolio through key distribution partners. • We continuously monitor the competitive landscape to ensure that we are maintaining our premium product and service position as a key market differentiator. • Maintaining a broad portfolio targeted at the widest customer base and end markets ensures that we are not focused on any one sector of the market. 	<ul style="list-style-type: none"> • Risk Likelihood Change -  • Risk Impact Change -  <p>We once again undertook our customer service surveys and were delighted that we continued to score very high feedback scores for both product and service.</p> <p>We continue to prioritise a collaborative and supportive working relationship with our customers and, as a result, there is no change to our risk levels in the year.</p>
Risk Appetite Link 9 Customer Requirements & Demand Dynamics		

8 Major Project Delivery (New)

Principal risk and relevance	Mitigation	What happened in 2022
<ul style="list-style-type: none"> • Continuing to support appropriate capital allocation strategies through investment in capital initiatives is fundamental to the growth of the business. • Investing or failing to deliver the wrong project could distract or disrupt the core operations of the business with the associated risk to the financial performance of the Group. 	<ul style="list-style-type: none"> • All major capital allocation decisions are reserved for the Board. • The annual budget process establishes the rhythm of major projects for the following year which are appraised and approved in line with the Group's return on investment thresholds. • Management very closely monitor all aspects of project delivery to ensure it is timely and delivered to cost. 	<ul style="list-style-type: none"> • Risk Likelihood Change -  • Risk Impact Change -  <p>All major projects were delivered on time and to budget during the year which, was predominantly focused on additional drying capacity at our Carlton site and a new building and additional solar capacity at our Floren site. There has been no change to our risk levels this year.</p>
Risk Appetite Link 12 Project & Programme Investment		

9 Cyber & Information Security and IT Infrastructure (New)

Principal risk and relevance	Mitigation	What happened in 2022
<ul style="list-style-type: none"> • Our IT infrastructure is integral to maintaining our manufacturing and back office functionality. Disruption or unauthorised access to our IT infrastructure could materially impact our business operations and reputation. 	<ul style="list-style-type: none"> • We work with expert third party suppliers to support our IT infrastructure through the provision of secure cloud services, off-site back-up and hardware support. • We undertake regular system penetration testing and receive third party audit assurance as to the robustness of our IT systems from external threat. • For our offsite and flexible workers we operate a secure Citrix platform. • We utilise new applications like Microsoft Teams and OneDrive to support teamwork and cross departmental collaboration. 	<ul style="list-style-type: none"> • Risk Likelihood Change -  • Risk Impact Change -  <p>We undertook a full review of our sites' IT infrastructure and rolled out a series of improvements and upgrades during the year. Our third party partners continued to provide assurance as to the quality of our IT environment and, as a result, there has been a reduction in the risk likelihood rating this year.</p>
Risk Appetite Link 11 IT & Technology		

10 Health and Safety (New)

Principal risk and relevance	Mitigation	What happened in 2022
<ul style="list-style-type: none"> • Maintaining safe and secure manufacturing facilities for our people is our highest priority. • Failure to provide adequate Health and Safety for our people risks our ability to continuously operate and impact our output alongside the risk of fines and reputational damage. 	<ul style="list-style-type: none"> • As a Group we prioritise the safety of our people in all areas of the organisation. We target zero reportable incidents each year and we uphold the highest standards in our Health and Safety operating processes. • In conjunction with our Learning and Development team, we ensure all employees have the appropriate training each year to support their operational Health and Safety. • All Senior Managers are NEBOSH trained and we work closely with our regulators and engage appropriate support from professional advisors. 	<ul style="list-style-type: none"> • Risk Likelihood Change -  • Risk Impact Change -  <p>With the risk to Health and Safety as a result of Covid-19 appearing to reduce through the year, we remain confident that our working practices are fully embedded to cover potential future eventualities and, as a result, have reduced the likelihood risk rating.</p>
Risk Appetite Link 4 Governance, Legal & Regulatory 15 Health & Safety		

11 People and Culture (New)

Principal risk and relevance	Mitigation	What happened in 2022
<ul style="list-style-type: none"> • The quality and loyalty of our people remains our greatest asset. The loss of key personnel could have a material impact on our production output or operations. • Some of our locations are harder to recruit and retain talented people which has the potential to impact on our operational efficiency. • A poor people culture has the potential to create a loss of morale through the organisation. 	<ul style="list-style-type: none"> • The importance of the right culture is embedded in the ethos of the Group with the four core values of IRIS: Integrity, Respect, Innovation and Sustainability central to all our decision making. • We prioritise investment in our people to provide optimum training, security and safety alongside motivating career opportunities all underpinned by competitive remuneration policies. 	<ul style="list-style-type: none"> • Risk Likelihood Change -  • Risk Impact Change -  <p>The UK and Belgium are both at near full employment levels and as a result we are grateful for the ongoing loyalty of our key staff. We continue to operate in an elevated inflation environment and maintaining competitive remuneration packages is more challenging. As a result, we have increased the likelihood associated with our people and culture risk.</p>
Risk Appetite Link 10 People & Culture		

CHAIR'S INTRODUCTION

Alignment with QCA code

I am pleased to present Michelmersh Brick Holdings Plc's ("Michelmersh" or the "Company") Corporate Governance statement. The Board is committed to our undertaking at all times "to act as a responsible corporate citizen", and to demonstrating that commitment at Board level by supporting the application of high standards of corporate governance. This section of the Annual Report describes our governance framework, and our approach to ensuring good corporate governance throughout the Group.

The Company has adopted the Quoted Companies Alliance Corporate Governance Code 2018 (the "QCA Code"), and the board of the Company (the "Board"), continues to believe that this is the most appropriate corporate governance code for us as an AIM listed company. The Company supports all 10 principles of the QCA Code and applies these principles in its operations through the Board, and the following report is set out under headings showing how the Company has applied those 10 broad principles of the Code. The report should be read in conjunction our section 172 statement on page 41, which describes how the Board has considered the factors set out in section 172 of the Companies Act (including stakeholder interests and long-term consequences) in its decision making.

Through our employees, the Group acts fairly, openly, professionally and politely towards all stakeholders in all areas of activity. We always seek to provide the highest quality products and services, to protect the environment and to act ethically in all aspects of the business. In this way, business risk should be minimised, stakeholders can trust the Company and its employees are protected. It is expected that this approach will generate reciprocal attitudes from customers, suppliers, investors and employees.

MARTIN WARNER
Chair
28 March 2023

BOARD OF DIRECTORS

NON-EXECUTIVE DIRECTORS

EXECUTIVE DIRECTORS

DIRECTORS' BIOGRAPHIES

**MARTIN WARNER, CHAIR**

Martin Warner formed Michelmersh with the former Chair Eric Gadsden in 1997 and has served as Chief Executive and subsequently Non-Executive Chair from May 2017. Martin is a Fellow of the Royal Institute of Chartered Surveyors and is Chair of the Brick Development Association. He is a Non-Executive Director of Aberforth Smaller Companies Trust plc.

**PAULA HAY-PLUMB, SENIOR INDEPENDENT DIRECTOR**

Paula has extensive directorship experience and has sat on the Board of a number of prominent organisations in the property sector. Paula is currently a Board Counsellor at The Crown Estate, the £16.5 billion UK real estate business, and is a Trustee of Calthorpe Estates. In addition, Paula is a Non-Executive Director at Oxford University Hospitals NHS Foundation Trust and is a Trustee of the Mineworkers' Pension Scheme. In her executive career, Paula was Corporate Finance and Group Reporting Director at Marks & Spencer Plc, and Chief Executive of national regeneration agency English Partnerships. Paula is a Chartered Accountant (ACA) and is a Fellow of the Association of Corporate Treasurers.

**TONY MORRIS, NON-EXECUTIVE DIRECTOR**

Tony is the Co-Founder and a Director of Tessera Investment Management, a strategic advisory firm offering specialist transaction support to organisations undertaking corporate development activity. Prior to Tessera, Tony spent four years in the investment team at Marwyn Capital, an investment firm, having previously started his career within Leveraged Finance at Barclays Bank. Tony has significant experience as principal and advisor in M&A, equity capital markets and implementing controls and financial practices within organisations, all skills which the Directors believe will assist the Company as it continues to grow organically and through acquisition in the future. Tony was also formerly a Non-Executive Director of Summerway Capital Plc.

**FRANK HANNA, JOINT CHIEF EXECUTIVE**

Frank Hanna has over 33 years of brick industry experience. Frank joined Freshfield Lane Brickworks Limited ("FLB") in 1991 having formerly worked for Lesser D&B and Hanson Brick Ltd. Frank was appointed to the Board of FLB in 1996 as Sales & Technical Director before becoming a shareholder in 2000. He was appointed as a Director of the Company on 30 March 2010 and became Joint Chief Executive on 1 January 2016. Frank has chaired both the Brick Federation and PWP within the Brick Development Association and is currently a main board Director of the Brick Development Association.

**PETER SHARP, JOINT CHIEF EXECUTIVE**

Peter Sharp has been in the industry for over 35 years including 18 years with Michelmersh and 14 years with Ibstock Brick holding various senior positions. He is a Fellow of the Institute of Materials Minerals and Mining and a Member of the Institute of Directors. Peter is also on the Management Committee of the British Ceramic Confederation and serves as a Trustee for the Institute of Clay Workers Benevolent Fund and the Institute of Clay Technology Education and Training Trust. He joined the Board in May 2011 and became Joint Chief Executive on 1 January 2016.

**RYAN MAHONEY, CHIEF FINANCIAL OFFICER**

Ryan was appointed as Chief Financial Officer on 3 June 2021. Prior to joining the Company, he was previously Deputy Chief Financial Officer of Avon Rubber, the FTSE 250 defence engineering and manufacturing group, from April 2018. Prior to that Ryan had been Group Financial Controller for Unite Students, the FTSE 250 property group, from November 2015 having previously held other senior finance roles within the business. Ryan is a qualified Chartered Accountant and prior to joining Unite, Ryan worked for KPMG in both audit and advisory roles.

STRATEGY & BUSINESS MODEL

CORPORATE GOVERNANCE CODE

For the year ended 31 December 2022, and up to the date of this report, the Company has applied the QCA Corporate Governance Code (the “Code”). Full details of how we have complied fully with the Code throughout the year are provided below.

STRATEGY AND BUSINESS MODEL

Principle 1 of the Code requires that companies establish a strategy and business model which promote long-term value for shareholders. Our strategy and business model, including the key challenges in their execution, are set out in the Strategic Report on pages 40 to 42.

The Board regularly discusses the Group’s long-term goals, with maximising shareholder value at the core of those goals, and ensures that a business plan aligned to the delivery of the strategy is in place, and is executed effectively by the Executive Directors. A robust structure of targets, key performance indicators and internal measurement is set by the Board. This ensures delivery of a clearly defined and agreed set of sales, market & business objectives. The Board and a sub-board of senior managers continually monitor these objectives to ensure they are met by the collective teams within the Group.

The Board meets at least six times a year to review the Group’s performance and revised forecasts to discuss strategy and to ensure the business is on track to achieve its stated goals.

SHAREHOLDER RELATIONS

Principle 2 of the Code provides that the Board should seek to understand and meet the needs and expectations of shareholders. The Board recognises the importance of creating a clear flow of communication with all shareholders and the investment community. The key opportunity for engagement with shareholders, potential shareholders and analysts is on the announcement of the full-year and interim results. The Executives make presentations of those results, and feedback from the recipients of the presentations is shared with the Board ensuring that the Non-Executives are appraised of the views of major shareholders.

Claridge's Hotel, London Photo © Derek Whetton

There is regular dialogue between the Executive Directors and the Company’s brokers, including in respect of shareholder views, and an “Investor” email address is provided on our website through which shareholders can make contact with the Board. The Chair is available to shareholders if they have concerns that contact through the normal channels of communication to the Executives are inappropriate.

The AGM is an opportunity for shareholders to meet and put questions to the Board and Chairs of the Board Committees, we look forward to inviting shareholders to attend the AGM this year. We will welcome questions submitted by shareholders on the day of the AGM, and endeavour to publish responses to such questions on the Company’s website. Full details of our AGM arrangements are contained in the Notice of AGM.

OUR STAKEHOLDERS

Principle 3 of the Code, the Company should take into account wider stakeholder and social responsibilities and their implications for long-term success. The Board recognises the fundamental importance of stakeholders other than investors and their contribution to the long-term sustainable success of the business and therefore to ensuring their needs are met. Feedback from our stakeholders allows the Board to monitor the Company’s corporate culture, as well as the ethical values and behaviours within the business.

We consider our key stakeholders, other than our shareholders, to be our customers, staff, suppliers, the communities we operate in, and the environment. Further details of our stakeholders, methods of engagement with them as well as examples of stakeholder considerations in certain key Board decisions during the year can be found as part of the Section 172 Statement within the Strategic Report on page 41.

OUR CUSTOMERS

The Group aims to deal ethically and honestly with customers, building long-term relationships by delivering high quality, value and excellent customer service. Ongoing positive engagement with customers, distribution and stakeholders is at the forefront of the Board’s retail strategy. The strategy is constantly monitored. The Group distribution aims are clearly set out within the Approved Distributors Trading Policy and Terms of Business.

Quarterly and annual objectives are set in consultation with our key accounts and relevant buying groups. Objectives, performance and targets are regularly reviewed with call reports monitored by the Sales Directors. This is complemented by strong analytical data.

The volume of orders, quality of service and products made are monitored and recorded as a matter of course on a daily basis. Value and a strong process is at the forefront of the Group offering. A culture of open dialogue combined with strong customer relationships help to assess where the Group can make ongoing improvements in key areas for our customers and end users.

Key account review meetings are held throughout the year (attended when appropriate by a Board Director) where issues and performance are monitored, feedback received and follow up action can be taken if required.

OUR EMPLOYEES

The Board is dedicated to positive employee engagement; safety, well-being, training, security, and progression are at the forefront of the business ethos. The well-being of employees is addressed through training and health and safety management as a preventative process, and regular updates are provided to the Board. The Human Resources department oversees schemes to support employees through a range of medical and supportive facilities, including stress management, legal and social well-being helplines, along with a robust pension and life insurance cover package that provides financial support for the long term.

The Group seeks to align the interests of employees with the success of the Company through a range of share incentive schemes, including all employee sharesave schemes and, for senior staff, nil-cost option awards under the Group’s Long-Term Incentive Plan (“LTIP”).

The Company ensures that it complies with the requirements of the Immigration Act, anti-bribery and equality legislation and takes appropriate steps to ensure all senior staff are aware of their responsibilities and is committed to maintaining the highest standards for all business activities and ensuring these standards are set out in written policies.

OUR SUPPLIERS

The Group holds a diverse database of more than 2,500 suppliers, typically 30% of these will be engaged with annually. We strive to honour our payment term obligations and make a mid-month payment run as well as the monthly payments to ensure supplier terms are met. Our payment practices and reporting are in accordance with the recently implemented regulations and are published on the Government’s website. By adopting responsible sourcing and sustainable resource and energy planning, we minimise waste and ensure the efficient use of energy, resources, water and raw materials. Energy performance is a key factor in the design, purchase and operation of equipment, vehicles and services.

OUR COMMUNITY

The Company is committed to supporting the communities in which we operate, including providing financial support to registered local and national charities and youth sport. The main charitable budget is allocated at Head office under the direction of the Group’s Charity Committee and approved by the Board. This comprises of both small donations to local charities, across the Group’s areas of operation, as well as larger donations to national charities that the Group may choose to support each year. The Board is particularly keen to support charities with which our employees are personally involved, and the aim is to support causes which can make a real difference to local communities across the country.

The Group is also committed to helping meet the future needs of the construction industry. Education has become a key part of the Group’s culture and Board focus. The Group supports education in a number of ways, including student sponsorship, material donations, technical resources, and (where appropriate) providing funds through the Charity Committee.

THE ENVIRONMENT

The Board is fully committed to the protection of the environment, biodiversity, ecosystems and minimisation of pollution. We ensure compliance with all legal, regulatory and other obligations, have established procedures to ensure any breaches are reported transparently, and monitor, control and report our relevant greenhouse gas emissions in line with our regulated targets.

More information on the actions we take to mitigate our environmental impact and to ensure the sustainability of our business are set out in the ESG Strategy section of the Annual Report on pages 22 to 39.

RISK MANAGEMENT

Principle 4 of the Code requires that the Board ensures that effective risk management, including the consideration of both opportunities and threats, is embedded throughout the Group. The Board has an established risk register which is reviewed at each quarterly Board meeting. Key risks to the business, as well as controls and mitigating factors, have been identified, and the risks are categorised according to likelihood and impact. This allows the Board to assess the effectiveness of controls, and monitor emerging and changing risks on an ongoing basis.

The risk register is reviewed and updated regularly with key personnel across the business, and the Group’s open management structure ensures free communication of risk throughout the organisation.

Further information on the key risks faced by the business is set out on page 44 to 51 of the Strategic Report.

THE BOARD

Principle 5 of the Code requires that the Board is maintained as a well-functioning, balanced team led by the Chair.

Our Chair, Martin Warner, is responsible for leading the Board which also currently comprises three Executive Directors (Frank Hanna and Peter Sharp, the Joint Chief Executives, and Ryan Mahoney, the Chief Financial Officer) and two independent Non-Executive Directors (Paula Hay-Plumb and Tony Morris).

A summary of the roles and responsibilities of each Director are set out on the next page:

CHAIR:

The Chair is responsible for the leadership of the Board, ensuring its overall effectiveness through overseeing high standards of corporate governance, and allowing stakeholder views to be incorporated as part of the Board’s decision making. The Chair’s role is also to build collaborative relationships, and promote debate and openness so as to ensure the effective contribution by all Directors and Non-Executive Directors.

JOINT CHIEF EXECUTIVE OFFICERS:

The Joint Chief Executive Officers (“CEOs”) are responsible for the daily operation and running of the business of the Group, supported by the management team. The CEOs also lead the development and implementation of the strategy and business plan, maintain effective working relationships with the Chair and NEDs, whilst providing leadership in the Company’s commitment to its purpose, high business standards, culture and core values, and communication with key stakeholders.

CHIEF FINANCIAL OFFICER:

The Chief Financial Officer is responsible for helping to drive the direction and success of the Group using his knowledge and understanding of the financial position of the Company, as well as the requirements of the shareholders and market. The Chief Financial Officer ensures rigorous financial discipline whilst developing and delivering the strategic financial objectives agreed with the Board.

NON-EXECUTIVE DIRECTORS:

The Non-Executive Director role is to bring external perspective, independent judgement and objectivity to the Board’s decision making and discussion. The Non-Executive Directors bring a range of skills, expertise and knowledge to the Board, and constructively challenge the Executive management of the Company. The Non-Executive Directors are responsible for a range of activities, including monitoring the performance of the Executive Management, determining appropriate levels of remuneration, ensuring financial controls and risk management systems are robust, as well as challenging and supporting Executive Management in the development of the strategy and objectives of the Company. Following a review of the membership of the Board it was agreed that there was an appropriate mix of Executive and Non-Executive Directors, and that both Paula Hay-Plumb and Tony Morris continue to be considered independent.

The Non-Executives are committed to devoting adequate time to the business to discharge their responsibilities effectively. As set out in their appointment letters they are required to attend scheduled Board and Committee meetings, and to become more involved for periodic special activity if required. Before accepting any additional commitments that might affect the time that they devote to their roles as Non-Executive Directors of the Company, they must obtain agreement from the Board first.

There were six formally scheduled Board meetings during the year, with additional ad-hoc meetings convened when required. During 2022 additional Board meetings were convened to approve the launch of a share buyback programme, approve the application for the issue of a new block listing of shares in connection with the LTIP, the on-market share purchase by the Employee Benefit Trust, and to consider and approve of the acquisition of the entire share capital of FabSpeed Holdings Ltd.

Attendance at the formally scheduled Board and Committee meetings during the year was as follows:

Director	Board Meetings (6 Meetings)	Audit Committee (3 Meetings)	Remuneration Committee (3 Meetings)	Nominations Committee (2 Meetings)
M Warner	6/6	N/A	3/3	2/2
F Hanna	6/6	N/A	N/A	N/A
P Sharp	6/6	N/A	N/A	N/A
P Hay-Plumb	6/6	3/3	3/3	2/2
T Morris	6/6	3/3	3/3	2/2
R Mahoney	6/6	N/A	N/A	N/A

Outside the formal meetings, the Chair meets regularly with each of the Executives individually, promotes an open and constructive environment in the boardroom and actively invites the Non-Executives to express their views. The Non-Executives provide objective, rigorous and constructive challenge to management and hold meetings at which the Executive Directors are not present.

At each Board meeting, the Executives report on financial and operational performance along with upcoming expectations and strategic opportunities. The Non-Executives review the Executives’ reports with a balanced view against the Company’s business and risk model.

The Board periodically invites the Company's Joint Brokers and legal adviser to address Board meetings to provide comment on current market issues and specific developments. The Company Secretary coordinates internal procedures that relate to corporate governance issues and provide independent guidance to individual Board members.

DIRECTORS' EXPERIENCE, SKILLS AND CAPABILITIES

Principle 6 of the Code provides that between them the Directors should have the necessary up to date experience, skills and capabilities.

Our Chair and Executive Directors have extensive experience in the brick industry, and our Non-Executive Directors have broad experience in relevant sectors (including property, governance, finance and M&A), and Board level experience in the listed company environment, as highlighted in their biographies on page 52. The Board is satisfied that the composition of the Board and its Committees provides an appropriate balance of skills, experience, independence and knowledge.

Each Director maintains and updates their skillset by attending technical briefings from industry forums, and attends seminars and training offered by accounting, legal and financial organisations. These are augmented by interaction with the Company's professional advisers including legal, audit and tax, Nominated Adviser and Registrar. The Executives regularly attend meetings with the brick and ceramic trade body, government departments, the unions and industry regulators, covering a wide range of operational and business subjects.

BOARD PERFORMANCE EVALUATIONS AND SUCCESSION PLANNING

Principle 7 of the Code requires that the Board and Committees evaluate their own performance and seek continuous improvement.

As part of the process for monitoring Board performance, the Non-Executives meet to discuss and assess the performance of the Executives, and the Senior Independent Director facilitates a performance review to appraise the performance of the Chair.

During the year, the Board also undertook a formal evaluation process for Board and Committee performance. Questionnaires for the Board and each of its Committees comprised of questions covering Board and Committee effectiveness, leadership, strategy, composition, diversity, skills and processes. These were circulated to all Directors to complete, and the results were collated by the Company Secretary with a summary report tabled to the Board for discussion at its meeting in February 2023. Given the level of change in the composition of the Board in 2021, it was very pleasing that the responses recognised that the relationships had developed over the last 12 months and the universal view was that the Board is operating effectively.

During the year, the Board discussed succession planning for both the Non-Executive Directors and the Executive Directors. The Board understands that this is a vital task so as to ensure that they are able to support the Company in its long-term goals and strategy. The composition of the Board and its Committees is reviewed on an annual basis. The membership of the Board was considered and it was agreed that the current composition of the Board and its Committees was appropriate. The Company's Articles of Association require that any Director who has been in office for three years or more since their last election or re-election by shareholders must retire and, being eligible, may stand for re-election at the AGM. Due to there being no no changes to the Board during the year, and all Directors successfully elected or re-elected at the 2021 and 2022 AGMs there will be no Directors standing for re-election at the 2023 AGM.

NOMINATION COMMITTEE

The Nomination Committee reviews the structure and constitution of the Board and plans for succession issues. The balance of the Board is kept under regular review and, following the significant change to Board composition over the last 24 months, the Nomination Committee has agreed that the current composition of the Board and its Committees is appropriate. The Committee is mindful that the Board does not currently comply with developing guidance on diversity, and will ensure that diversity considerations are included as part of future Board appointment processes.

The Nomination Committee also ensures that newly appointed Non-Executive Directors undergo an induction programme which includes visits to Group plants, the introduction to the business's productions and manufacturing operations and meeting key members of the team. The induction programme also includes meetings with each of the other Board members as well as the Company's Nominated Adviser and Broker.

CORPORATE CULTURE

Principle 8 of the Code requires that the Company promotes a corporate culture that is based on ethical values and behaviours.

The Group undertakes to at all times act as a responsible corporate citizen. Through our employees, we aim to act fairly, openly, professionally and politely with all stakeholders in all areas of activity. We seek to provide the highest quality products and services, to protect the environment and to act ethically in all aspects of the business. In this way, business risk should be minimised, stakeholders can trust the Company and its employees are protected.

The Company ensures that it complies with all relevant legislation (including the Immigration Act, Bribery Act and equality legislation) and takes appropriate steps to ensure staff are aware of their responsibilities. We are committed to maintaining the highest standards for all business activities and ensuring that these standards are set out in written policies.

Feedback from stakeholders (in particular employees, customers and suppliers) allows the Board to monitor the Company's corporate culture, as well as the ethical values and behaviours within the business, and the Non-Executive Directors further test the extent to which this culture is embedded across the organisation in their interactions with employees during site visits.

GOVERNANCE STRUCTURE

Principle 9 of the Code requires that the Company maintains governance structures and processes that are fit for purpose and support good decision-making by the Board.

The Chair is responsible for effectively leading the Board and ensuring that the Group's corporate governance framework is appropriate and effective. The Board has adopted the Code as a guide by which to measure its corporate governance procedures, and regularly reviews all aspects of its corporate governance policies and procedures. Each of the Committees' terms of reference and the schedule of matters reserved for the Board were reviewed during the year by the Board, with minor updates approved.

The schedule of matters reserved for the Board includes:

- Approval of the Group's long-term objectives and commercial strategy
- Budget and forecast adoption
- Approval of annual and interim accounts
- Acquisitions and disposals
- Capital projects
- Dividend policy
- Share issues
- Appointment and removal of professional advisers.

Details of the roles and responsibilities of the Chair, Joint Chief Executive Officers, Chief Financial Officer and Non-Executive Directors are described on the Company's website, along with the terms of reference of the Committees. The Company's Corporate Governance Statement, setting out how it has applied the principles of the Code is also available on the website: (www.mbhplc.co.uk/investor-relations/corporate-governance).

BOARD COMMITTEES

Principle 10 of the Code requires the Company to communicate how it is governed and is performing by maintaining a dialogue with shareholders and other relevant stakeholders. There are three Board Committees: the Audit Committee, the Remuneration Committee and the Nomination Committee. The Remuneration and Audit Committees each meet as required but at least twice a year; and the Nominations Committee meets at least once a year. More information on the activities of the Audit Committee and Remuneration Committee is set out in their respective reports. Each of the Committees has formal terms of reference, in line with corporate guidelines, and reports back to the Board and to shareholders through the Annual Report as a matter of course. A separate report from each of the Committees can be found in the Corporate Governance section.

AUDIT COMMITTEE REPORT

On behalf of the Board, I am pleased to present the Audit Committee Report for the year ended 31 December 2022.

MAIN RESPONSIBILITIES OF THE AUDIT COMMITTEE

The Audit Committee has delegated authority from the Board set out in its written terms of reference, which are available at www.mbhplc.co.uk/corporate-governance.

The key responsibilities of the Audit Committee are:

- To advise the Board on whether the Committee believes the Annual Report and Accounts, taken as a whole, is true and fair and provides the information necessary for shareholders to assess the Company’s performance, business model and strategy;
- To provide effective governance over the integrity of the Group’s financial reporting and review the significant financial reporting judgements;
- To monitor the effectiveness of the Group’s internal controls and risk management systems;
- To oversee the relationship with the external auditor, monitor the external auditor’s objectivity and independence and make recommendations to the Board in relation to the reappointment of the external auditor; and
- To review the adequacy of the Company’s whistleblowing arrangements and ensure they allow appropriate investigation of any matters raised.

MEMBERS OF THE AUDIT COMMITTEE

The members of the Committee are Paula Hay-Plumb (Chair) and Tony Morris who are both independent Non-Executive Directors. The Board considers that the members of the Committee, individually and as a whole, have sufficient recent and relevant financial and commercial experience to discharge its function.

ACTIVITIES DURING THE YEAR

The Audit Committee met on three occasions during 2022, and once following the year end to consider the annual financial statements. Attendance at the meetings held during the year is set out in the Corporate Governance statement on page 59.

During the year the Audit Committee discharged its responsibilities by:

- Annual and interim financial statements: Reviewing the full year and interim financial statements, including consideration of significant audit risks identified by the external auditor, and the key accounting judgements and estimates (see further details on page 63). The Committee also reviewed the principal risks and uncertainties disclosures;
- External auditor: approving the external auditor’s plan for the audit of the Group’s annual financial statements, including the key audit matters and key risks, and confirming the auditor’s independence and terms of engagement (including fees) and recommending the external auditor’s reappointment;
- Accounting policies: considering the appropriateness of accounting policies and practices, in particular the presentation of adjusted performance measures and the accounting judgements and presentation of the acquisition of FabSpeed Holdings Ltd which was completed during the year;
- Dividends: reviewing management’s proposals relating to the interim and final dividends, including confirming that the proposed amounts were supported by the Company’s distributable reserves;

- challenging management on the effectiveness of those controls (see further details below);
- Committee governance: reviewing its terms of reference, and reviewing its own performance by way of a formal questionnaire completed by all regular attendees; and
- Whistleblowing: continuing the oversight of the Group’s whistleblowing policies and procedures. Following the successful launch in 2021 of the new whistleblowing policy, the Committee was able to recommend to the Board that the whistleblowing procedures and policies are appropriate and well embedded in the business.

SIGNIFICANT ISSUES CONSIDERED IN RELATION TO THE FINANCIAL STATEMENTS

The Committee reviewed the financial statements, with particular attention to accounting policies and areas of judgement. The key matters considered by the Committee in respect of the year ended 31 December 2022 are set out in the table below:

SIGNIFICANT ISSUES AND JUDGEMENTS	HOW THE ISSUES WERE ADDRESSED
Property valuations - the Group’s principal assets are tangible assets including a significant element of land and buildings. The valuation of the tangible assets involves significant judgement and changes in the underlying valuation assumptions could have a significant impact on the carrying value of the assets.	<p>The Committee reviewed a report outlining the key issues and detailing the valuation process and the assumptions and methodology, and was satisfied that this had resulted in an effective valuation and that disclosures were appropriate and concurred with management that carrying values were appropriate.</p> <p>There were no inconsistencies or misstatements that were material in the context of the financial statements as a whole.</p>
Intangible asset valuation and impairment - the valuation of intangible assets, including the determination of CGU, involves significant judgement and changes in the underlying assumptions could have a significant impact on the carrying value of these assets. The Group’s intangible assets are the result of acquisitions and are classified under 2 categories: goodwill and acquired intangibles.	<p>The Group assesses whether goodwill and intangible assets are impaired on an annual basis and this requires an estimation of the value in use of the cash generating unit to which the intangible assets are allocated. For the purposes of assessing impairment, assets are grouped at their lowest levels for which there are currently separately identifiable cash flows (cash generating units). The Directors consider that at the year end date FabSpeed is a separate cash generating unit to the rest of the Group as it is still early in the integration process following the acquisition at the end of November. This assessment involves estimation of future cash flows, estimating a growth rate for extrapolation purposes and choosing a suitable discount rate leveraging from the weighted average cost of capital and useful lives.</p> <p>The Committee reviewed a report outlining the key issues and detailing the valuation process and assumptions, including the new intangible additions recognised as a result of the FabSpeed acquisition. The Committee also discussed management’s assessment of the applicable life of the intangible assets and any changes in circumstances that might impact their value, and was satisfied that this had resulted in an effective valuation and that disclosures were appropriate.</p> <p>The were no inconsistencies or misstatements that were material in the context of the financial statements as a whole.</p>
Going concern.	<p>The Committee reviewed the forecast cash flows of the Group, together with existing and potential funding facilities, and examined underlying risks and sensitivities. The Committee was satisfied that the financial statements should be prepared on a going concern basis.</p> <p>There were no reported inconsistencies or misstatements that were material in the context of preparing the financial statements on a going concern basis.</p>
Deferred consideration - the valuation of the deferred consideration recognised following the FabSpeed acquisition is based on achieving future adjusted EBITDA growth targets over the two financial years following the acquisition. The estimation of the potential additional consideration requires significant judgement regarding future performance which is inherently uncertain due to potential changes in the business both internally and externally.	<p>The Committee reviewed a report outlining the key issues detailing the deferred consideration valuation process and discussed management’s assumptions for the forecast performance expectations of FabSpeed and was satisfied that this had resulted in an effective valuation and that disclosures were appropriate.</p> <p>There were no inconsistencies or misstatements that were material in the context of the financial statements as a whole.</p>

EXTERNAL AUDITORS

The Audit Committee oversees the relationship with the external auditor CLA Evelyn Partners Limited, to ensure that auditor independence and objectivity are maintained, and this includes monitoring the nature and extent of any non-audit services that the external auditor is engaged to provide. The breakdown of fees for audit and non-audit work paid to CLA Evelyn Partners Limited during 2022 is set out in Note 10 to the financial statements on page 94.

At the outset of the audit process, the Committee receives from the auditors a detailed audit plan, identifying their assessment of the key audit risks and their intended areas of focus. The Committee also reviews the effectiveness of the external process on an annual basis, including considering the views of both the external audit team, and the CFO and finance team, as well as assessing the Committee's own interactions with the external auditor. The Committee reviewed the effectiveness of the 2021 year-end audit process during the year, and concluded that it was effective. It will review the 2022 year-end audit process during the course of 2023.

The Committee has recommended to the Board that CLA Evelyn Partners Limited be reappointed as the external auditors, and a resolution for their reappointment will be proposed at the 2023 Annual General Meeting.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board has overall responsibility for maintaining sound internal control and risk management systems and has delegated to the Committee responsibility for monitoring their effectiveness. The Group risk register and principal risks are regularly reviewed by the Board together with mitigating actions, which aim to provide reasonable, but not absolute, assurance against material misstatement or loss. The key features of the internal control systems in place are:

- a Group organisational structure with clear lines of responsibility;
- detailed business planning procedures, including the annual preparation of detailed budgets for the year ahead and projections for future years;
- weekly review meetings between the Executive Directors focused on KPIs and significant business matters and the risk landscape;
- comprehensive daily, weekly and monthly financial reporting systems, highlighting operational performance against agreed budgets and setting out regularly updated forecasts;
- monthly Group management accounts packs prepared by the Executive Directors, and circulated to the Board;
- monthly balance sheet reviews by the Finance Director;
- monthly reviews by the Finance Director and CFO of the journal report; and
- regular review of the detailed risk register and principal risks ongoing assessment of risk levels and the effectiveness of mitigating actions or controls.

The Committee has discussed and challenged the internal controls framework during the year, and received detailed updates from the CFO on developments to continually strengthen and improve the framework. Activity during the year has included:

- a full review of the Delegated Authority Matrix (which was reviewed by the Audit Committee and approved by the Board). In support of the review of the matrix, management conducted a review of underlying processes, including customer approval and credit control, purchase ledger control and payment approval process, stock control and valuation and bank controls.
- monitoring the continued integration of the Floren operations with the wider group, including the completion of moving all current account banking onto the Group banking platform;
- supporting the strengthening of the wider finance team to accommodate the focus of integrating FabSpeed into the Group systems and processes in 2023; and
- challenging management to continue to develop the internal controls framework, ensuring that all relevant controls are appropriately documented and that a detailed Risk & Controls Matrix is fully embedded.

WHISTLEBLOWING

The Committee reviews the whistleblowing policy which the Group has in place to set out the formal process by which an employee of the Group may, in confidence, raise concerns about possible improprieties in financial reporting or other matters.

ANTI-BRIBERY & CORRUPTION POLICY

The Committee also reviewed the Group's Anti-Bribery & Corruption Policy during the year, and agreed that no changes to the policy (which states the company's commitment to open and transparent conduct of business, and zero-tolerance approach towards bribery) were required.

PAULA HAY-PLUMB
Audit Committee Chair
28 March 2023

REMUNERATION COMMITTEE REPORT

On behalf of the Board, I am pleased to present our Remuneration Committee report for the financial year ended 31 December 2022. The report summarises our approach to Director remuneration, the remuneration paid to the Directors with respect to the year under review, and indicates how remuneration will operate in 2023.

The principles underlying our remuneration policy remain in line with prior period. Specifically, our remuneration policy aims to:

- attract, retain, motivate and develop the best talent and align the interests of Group employees (including the Executive Directors) to the strategic goals of the Group and the long-term interests of our shareholders;
- support a culture of high achievement and delivery of performance;
- reward without incentivising the taking of unnecessary risks; and
- present as transparent and understandable.

MEMBERS OF THE REMUNERATION COMMITTEE (THE "COMMITTEE")

The members of the Committee are Tony Morris (Chair), Paula Hay-Plumb and Martin Warner. Both Tony Morris and Paula Hay-Plumb are considered independent Directors by the Board.

The QCA Corporate Governance Code notes that members of a remuneration committee should be independent. Although Martin Warner is not considered independent by the Board (due to his previous executive roles with the business and significant shareholding), the Committee believes it is both appropriate and beneficial to the Company and shareholders that he remains a member of the Committee. This view reflects both Martin's significant knowledge and experience in our business and the brick making industry as a whole.

DUTIES AND RESPONSIBILITIES

The responsibilities of the Remuneration Committee are set out in its terms of reference which are available at www.mbhplc.co.uk/investor-relations/corporate-governance and are reviewed annually. The Committee's core responsibilities include:

- determining the policy for the remuneration of the Executive Directors and other key members of senior management;
- determining the policy for remuneration of the Chair of the Board;
- recommending the total remuneration packages (including bonus payments, long-term incentive awards, and outturns as applicable) for the Executive Directors and Chair of the Board;
- ensuring that no Director or senior manager is involved in any decisions as to their own remuneration (the Chair recuses himself from meetings of the Committee at which his remuneration is discussed, and Non-Executive Director remuneration is determined by the Board); and
- ensuring that remuneration policies and practices support the long-term strategy of the Company.

The Committee meets at least twice annually, and met formally on three occasions during 2022. All Committee members attended each meeting, and attendance is set out in the table in the Corporate Governance Statement on page 59.

KEY REMUNERATION DECISIONS

The Committee considered, and amongst other items, made proposals and recommendations in respect of the following matters:

Base salaries	<ul style="list-style-type: none">••	Performed an annual Executive Director remuneration benchmarking exercise supported by a specialist third-party remuneration adviser Approved an increase in base salaries for the Executive Directors of 6 per cent. with effect from 1 January 2023 in line with the percentage increases awarded to the wider Group workforce
Bonus outturn	<ul style="list-style-type: none">•	Approved the 2022 bonus outturn for the Executive Directors based on the Group's profit before tax performance for the financial year ended 31 December
Pensions	<ul style="list-style-type: none">•	Aligned the gross value of the Joint Chief Executive Officers' pension contributions made by the Company
Share plans and awards	<ul style="list-style-type: none">••••	Approved an options grant to senior employees of the Group Implemented a new LTIP plan (the "2022 LTIP"), replacing the Group's existing LTIP plan (the "2017 LTIP") Cancelled and agreed the cash settlement of 2017 LTIP Tranche option grant awarded under the 2017 LTIP Approved the inaugural option grant to Executive Directors under the 2022 LTIP

LONG-TERM INCENTIVE PLANS
2022 LTIP

During the year, the Committee completed its review of the Company's existing LTIP arrangements in place under the 2017 LTIP, which have been in operation since 2017. This review was performed in conjunction with the Group's specialist remuneration advisers. As a result of this review, in October 2022 the Committee designed and implemented the new 2022 LTIP under which inaugural grants were made to the Executive Directors. As a result, no further option grants under the Company's existing 2017 LTIP arrangements will be made and all new option grants will be under the 2022 LTIP.

The purpose of introducing the new 2022 LTIP was to create a long-term incentivisation structure which has closer alignment to industry standard practices with regards to frequency of Executive Director awards, performance measurement, retention and Executive Director incentivisation linked to the delivery of corporate strategy. A summary of the key terms of the 2022 LTIP are provided below:

Frequency of award	Annually at the discretion of the Committee
Awards	Nil-cost options equivalent to 125 per cent. of base salary
Performance period and vesting	Awards vest after three years based on the delivery of financial, operational and strategic performance over a three year period from the year of grant
Performance metrics	<div>For 2022 awards:<ul style="list-style-type: none">• Delivery of EPS growth (75% weighting)• Total Shareholder Return performance when benchmarked against a UK industry peer group (25% weighting)</div> <div>For 2023 awards:<ul style="list-style-type: none">• Delivery of EPS growth (65% weighting)• Total Shareholder Return Performance when benchmarked against a UK industry peer group (25% weighting)• Delivery of ESG strategy performance objectives (10% weighting)</div>
	The Committee has discretion to amend these terms to ensure that any performance targets remain appropriate
Other	<div>Awards are subject to:<ul style="list-style-type: none">• good leaver, malus and claw back provisions• two year post vesting hold conditions (save for those shares sold to settle tax liabilities arising on exercise)• two year post employment hold conditions• dividend equivalents• pro rated accelerated vesting on a change of control</div>

2017 LTIP

On 24 November 2022, following consultation with the Company's Nominated Adviser, the Committee elected to cash settle 2,000,000 nil-cost options granted to Peter Sharp and Frank Hanna in 2017 under the 2017 LTIP (the "2017 LTIP Tranche"). As a result of the agreed cash settlement, the 2,000,000 options in the 2017 LTIP Tranche were cancelled. Following completion of the 2017 LTIP Tranche vesting period which concluded on 28 March 2023, all original performance criteria were successfully achieved and as such, the Company cash settled the 2017 LTIP Tranche at a total gross value of £1.58 million, which was calculated using a five trading day volume-weighted average price per share of 79 pence as at 23 November 2022.

The cancellation and cash settlement of the 2017 LTIP Tranche enabled the Company to mitigate the dilutive effects from full vesting of the 2017 LTIP Tranche by removing the requirement to issue 2,000,000 new ordinary shares of the Company.

2022 PERFORMANCE

Despite some challenging trading conditions where the Group, and industry as a whole, experienced unprecedented increases in raw material and energy costs, careful and considered management of these inflation risks enabled the Group to deliver an exceptionally strong set of results for the financial year ended 31 December 2022.

Revenue in the period was up 15.0% on the prior year, with profit before tax increasing by 17.5% and Adjusted EBITDA also up 13.6%. Strong cash flow from operations in the period also meant the Group finished the year with net cash of over £10 million after taking into account the initial £6.4 million cash consideration paid to acquire FabSpeed in November 2022. The Company's £20 million committed banking facilities with HSBC remain undrawn.

As a result of this performance, the Company has been able to announce a full year dividend of 4.25 pence per share, up 16.4% on 2021, demonstrating the Company's commitment to its progressive dividend policy and the resilient outlook for the Group.

DIRECTORS' REMUNERATION

The total remuneration paid to each of the Directors who served during the year is set out in the table below:

	Basic Salary 2022 £000	Annual Bonus 2022 £000	Other Benefits 2022 £000	Pension 2022 £000	Total Emoluments 2022 £000	Total Emoluments 2021 £000
MR Warner	100	-	1	-	101	101
P Hay-Plumb	44	-	-	-	44	40
A Morris	40	-	-	-	40	36
FJ Hanna	250	250	25	47	572	546
PN Sharp	250	250	22	26	548	542
RM Mahoney	195	114	13	6	328	480
R Carlton-Porter*	n/a	n/a	n/a	n/a	n/a	40
SHP Morgan*	n/a	n/a	n/a	n/a	n/a	1,317
	879	614	61	79	1,633	3,102

*Stephen Morgan and Bob Carlton-Porter retired from the Board on 3rd June 2021.
Total emoluments including Employer's NI amounted to £1,849,000 (2021: £3,506,000).

REMUNERATION REPORT CONTINUED

The fees payable to the Non-Executive Directors in the year increased by £4,000 each. This reflected an incremental fee for performing the roles of Senior Independent Director and Committee chair.

Other benefits include motor expenses, medical cover and sundry benefits.

PENSION

Peter Sharp is a member of the Michelmersh Group Pension Scheme and the Company contributes 5% of his salary and bonus.

Frank Hanna has opted out of the Michelmersh Group Pension Scheme and instead the Company pays Frank a cash amount equivalent to 5% of his base salary and bonus, which is processed monthly through PAYE.

Ryan Mahoney has also opted out of the Michelmersh Group Pension Scheme and instead the Company pays Ryan a cash amount equivalent to 3% of his base salary, which is processed monthly through PAYE.

PERPETUAL BONUS SCHEME (“PBS”)

The Committee established the PBS in 2017. This scheme is based on the Board approved budget in each year. In order for the Executive Directors to trigger a bonus payout under the PBS, the Group is required to deliver an audited profit before tax at least in line with its internal budget for the financial year of performance as approved by the Board. If budgeted profit before tax is achieved, the Executive Directors will each be entitled to a bonus equivalent to 50 per cent. of base salary.

For the Executive Directors to achieve a bonus in excess of 50 per cent. of base salary, the Company must outperform the Board approved profit before tax budget for the year of performance. If outperformance is achieved, one third of the difference between actual audited profit before tax and budget profit before tax is allocated into the PBS pool for Executive Directors, which can proportionately increase their bonus payout for delivering outperformance (subject always to a bonus payout cap equivalent to 100 per cent. of base salary for each Executive Director).

For 2022, the Group delivered a profit before tax of £11.4 million, which was up 17.5% on 2021. As a result, the Executive Directors achieved the maximum payout under the PBS equivalent to 100 percent of base salary.

LONG-TERM INCENTIVE PLAN

2017 LTIP SUMMARY

The options disclosed in the table below reflect the options under the 2017 LTIP (which include two awards made in 2017 and in 2019 (2017 LTIP Tranche and 2019 LTIP Tranche respectively), that have accrued based on EPS performance in each year from 2018 to 2022, and remain outstanding at the period end after taking into account the cancellation of the 2017 LTIP Tranche announced on 24 November 2022.

	2017 LTIP Tranche No.	2019 LTIP Tranche No.	2017 LTIP Tranche Cancellation No.	Total 2017 LTIP Options 2022 No.	Total 2017 LTIP Options 2021 No.
FJ Hanna	1,000,000	400,000	(1,000,000)	400,000	1,000,000
PN Sharp	1,000,000	400,000	(1,000,000)	400,000	1,000,000
RM Mahoney	-	316,712	-	316,712	116,712
	2,000,000	1,116,712	(2,000,000)	1,116,712	2,116,712

2017 LTIP TRANCHE

The EPS target for the 2017 LTIP Tranche for the financial year ended 31 December 2022 was met and therefore a total of 2,000,000 2017 LTIP options were accrued for each of Frank Hanna and Peter Sharp as at the period end. Based on their continued employment, both Frank Hanna and Peter Sharp achieved the final vesting conditions on the 2017 LTIP Tranche on 28 March 2023, and as such the full 2,000,000 2017 LTIP Tranche options became exercisable. In November 2022 the Committee agreed with the participants to cancel and cash settle all vested options under the 2017 LTIP Tranche and as a result, the 2,000,000 exercisable options under this tranche have been

cancelled with the participants receiving a one-time gross cash payment each taxable as income through PAYE equivalent to a price per share of 79 pence.

There are no further options outstanding under the 2017 LTIP Tranche.

2019 LTIP TRANCHE

In December 2019, a further grant of 1,000,000 options each was made to Frank Hanna and Peter Sharp, and in September 2021 the Committee approved the grant of 916,712 options to Ryan Mahoney (all under the 2019 LTIP Tranche). All of these options are exercisable at nil cost, and accrue in incremental annual tranches over 5 years commencing in 2022 provided EPS targets (for the financial years ending 2021, 2022, 2023, 2024 and 2025) are achieved and the relevant Executive Director remains in office through the five years.

The EPS target for the 2019 LTIP Tranche for the financial year ended 31 December 2022 was met and therefore a total of 1,116,712 options were accrued for each of Frank Hanna, Peter Sharp and Ryan Mahoney in relation to 2019 LTIP Tranche at the period end.

2022 LTIP

On 12 October 2022, the Company announced the implementation of the Group's new LTIP (2022 LTIP) (as further described on page 66) and granted inaugural awards to the Executive Directors. Under the 2022 LTIP, the following option grants (the “2022 Grant”) have been made and remain outstanding.

	2022 Grant No.	Total 2022 LTIP Options 2022 No.	Total 2022 LTIP Options 2021 No.
FJ Hanna	388,681	388,681	-
PN Sharp	388,681	388,681	-
RM Mahoney	303,171	303,171	-
	1,080,533	1,080,533	-

Under the 2022 Grant, options will vest based on the achievement of three year performance targets linked to EPS growth (75% weighting) and Total Shareholder Return performance (25% weighting) when benchmarked against a UK based industry peer group. The 2022 Grant equates to 125% of the base salary of each Executive Director.

SUMMARY

Options outstanding under both the 2022 LTIP and 2017 LTIP were valued using the principles of the Black Scholes Model. This valuation is amortised to the income statement over the vesting period. The charge for the year relating to Executive Directors amounted to £791,000 (2021: £882,000)

2023 REMUNERATION

SALARY & FEES

Following the annual review of the Executive Director remuneration packages, the Committee has agreed that the Executive Directors' salaries would be increased by 6 per cent. effective 1 January 2023. This increase is in line with the increases awarded to the wider Group workforce.

For 2023, the Executive Director base salaries will therefore be as set out below:

Executive Director	2023 Salary £'000	Non-Executive Director	2023 Fees £'000
FJ Hanna	265	Martin Warner	106
PN Sharp	265	Paula Hay-Plumb	48
RM Mahoney	207	Tony Morris	44

REMUNERATION REPORT CONTINUED

The Committee resolved to apply the wider Group workforce increase of 6% to the Chair’s salary and the Board resolved to apply £4,000 increases to the Non-Executive Directors following a benchmarking exercise, and to take into account the scope of the roles performed by the Non-Executive Directors. These fee changes are effective from 1 January 2023.

For 2023, the Chair and Non-Executive Director fees will therefore be as set out above.

PBS

The maximum bonus opportunity under the PBS for each Executive Director in 2023 will remain at 100 percent of base salary, and the outturn will be determined by Group performance against a profit before tax target as set by the Board approved budget. As the specific profit before tax target is both price and commercially sensitive, the specific thresholds are not disclosed in this report.

LTIP

The Committee expects to make its annual options grant under the 2022 LTIP to Executive Directors in April 2023, with the value of any grant and performance criteria substantively in line with the 2022 Grant, save for that 10% of the performance criteria will be aligned to continued delivery of the Group's ESG strategy.

REMUNERATION POLICY TABLE

The table below summarises the key elements of the remuneration policy for Executive Directors:

PURPOSE & LINK TO STRATEGY	OPERATION	MAXIMUM POTENTIAL VALUE	PERFORMANCE CONDITIONS & ASSESSMENT
Base salary	To be reviewed on an annual basis having regard to the experience of the individual and their performance and contribution, market and industry pay levels, remuneration practices as well as pay levels elsewhere within the Group, and the size and complexity of the role performed.	Total salaries paid during each year are determined by the Remuneration Committee in line with the Group's review and implementation cycle.	Not applicable, although individual performance is considered when determining base salary increases.
The provision of competitive fixed salary supports the recruitment and retention of Executive Directors, reflecting their role, skills and experience.	Changes in roles / responsibilities may require an adjustment to salary levels.		
Benefits	Benefits offered include car allowance, private medical insurance and life assurance.	While no maximum level has been provided, it is based on the value of the benefits, which is set at a level that the Committee considers appropriate when taking into account typical market rates for such benefits.	Not applicable.
To provide market benefits on a cost-effective basis.	Other benefits may be offered in line with market practice if it is considered appropriate to do so.		
Pension	The Company's policy is to provide a contribution (or cash allowance in lieu) to a personal pension plan as a capped proportion of basic salary if it is appropriate to do so.	Peter Sharp receives a contribution of 5% of base salary and bonus to the Group pension scheme.	Not applicable.
To assist Executive Directors in providing for retirement where this is considered an aid in attracting and retaining the individual.	Frank Hanna and Ryan Mahoney have opted out of the Group pension scheme and instead receive a cash payment equivalent to 5% of base salary and bonus and 3% of base salary, respectively, paid through PAYE.		
Perpetual Bonus Scheme	Financial performance measures are set annually to incentivise on-target performance and outperformance, with bonus outcomes determined against those targets. Awards are made in cash.	100% of base salary.	Performance conditions are set and reviewed by the Committee.
To recognise an Executive Director’s achievement of annual objectives that support the Group's strategy and financial performance.			The Committee retains discretion to adjust pay-out in cases where it believes that the bonus outcomes are not a fair and accurate reflection of business performance.
			The Committee considers that the detailed performance targets used for the annual bonus awards are commercially sensitive and that disclosing precise targets for the annual bonus plan in advance would not be in shareholder interests.

PURPOSE & LINK TO STRATEGY	OPERATION	MAXIMUM POTENTIAL VALUE	PERFORMANCE CONDITIONS & ASSESSMENT
Long-Term Incentive Plan (2017 LTIP)	Awards granted at the discretion of the Committee in the form of nil-cost or par value options.	No maximum potential value but the volume of shares awarded is limited to achieving full vesting of the initial full grant award.	Awards are subject to performance conditions measured over a five year period and divided equally between EPS performance and continued employment.
To encourage value creation and executive retention, by way of share price growth through the delivery of shares.	Awards vest annually in equal tranches over a five year period based on financial performance in each year and subject to continued employment.		
The purpose of the LTIP is to provide meaningful awards based upon criteria that provide a significant incentive to participants, and align their interests with those of our shareholders.	Vested awards become exercisable at the end of the five year period.		
No further grants will be made under the 2017 LTIP	Awards are subject to discretionary good leaver/bad leaver provisions.		
Long-Term Incentive Plan (2022 LTIP)	Awards granted annually at the discretion of the Remuneration Committee in the form of nil-cost options.	Annual awards equivalent to 125% of base salary.	Awards are subject to performance conditions measured over a three year period.
To encourage value creation and executive retention, by way of share price growth through the delivery of shares with appropriate hold periods post vesting.	Awards vest after three years based on financial, operational and strategic performance over a three year period from the year of grant.		Performance metrics include the delivery of EPS growth (75% weighting), and Total Shareholder Return performance when benchmarked against a UK industry peer group (25% weighting).
The purpose of the 2022 LTIP is to provide meaningful awards based upon criteria that provide a significant incentive to participants, and align their interests with those of our shareholders.	Awards are subject to good leaver, malus and claw back provisions, as well as two year post vesting hold conditions (save for those shares sold to settle tax liabilities arising on exercise) and a two year post employment hold condition.		For grants issued in 2023, an additional ESG performance objective will be introduced.
All future grants will continue to be made under the 2022 LTIP			The Committee has discretion to amend key terms to ensure that any performance targets remain appropriate.
Executive Director shareholding guidelines	From January 2022, any newly appointed Executive Directors are expected to build up and retain a beneficial holding of at least 1x base salary over a five year period.	N/A	N/A
To increase long-term alignment between Executive Directors and shareholders.			

The table summaries the key elements of the remuneration policy for Non-Executive Directors:

PURPOSE & LINK TO STRATEGY	OPERATION	MAXIMUM POTENTIAL VALUE	PERFORMANCE CONDITIONS & ASSESSMENT
Fees	Non-Executive Directors fees to be reviewed on an annual basis by the Board, with no Non-Executive Director involved in the decision as to their own fees.	Total fees paid during each year for the Non-Executive Directors are determined by the Board (and for the Chair, determined by the Committee) in line with the Group's review and implementation cycle.	N/A
Non-Executive Director remuneration is based solely on fees, which are set at a level that reflects market conditions and are sufficient to attract and retain individuals with appropriate knowledge and experience.	Chair fees to be reviewed on an annual basis by the Committee with the Chair not involved in the decision as to their own fees.	Changes in roles/responsibilities may require an adjustment to fee levels.	
	Non-Executive Directors (excluding the Chair) are paid a base fee plus a fee for performing a role as a Senior Independent Director and / or chair of a committee.		

TONY MORRIS

Remuneration Committee Chair
28 March 2023

DIRECTORS' REPORT

The Directors present their report and consolidated financial statements of the Group for the year ended 31 December 2022. The Corporate Governance Statement on pages 52 to 76 also forms part of this Directors' Report.

FINANCIAL RESULTS AND DIVIDENDS

The Group's profit before taxation for the year was £11,395,000 (2021: £9,697,000). More information about the Group's financial performance can be found in the financial review on pages 18 to 21 and in the financial statements on pages 82 to 119.

The Board has recommended a final dividend for the year of 2.95 pence per share, to be paid on 12 July 2023 to shareholders whose names appear of the register of members at the close of business on 9 June 2023. More information about dividends can be found in the Chair's Statement on page 12.

Review of Business and Future Developments

The Chair's Statement on page 12, the Joint CEO's Report on pages 14 to 17 and the Strategic Report on pages 18 to 51 provide a review of the business, the Group's trading for the year ended 31 December 2022, key performance indicators and an indication of future developments and risks, and form part of this Directors' Report. Details of the Board's engagement with suppliers, customers and other key stakeholders in a business relationship with the Group are set out in the Strategic Report on pages 40 to 41.

Directors and their interests in shares of the Company

The Directors who served the Company during the year together with their beneficial interests in the shares of the Company were as follows:

	31 December 2022 Ordinary Shares of 20p each	31 December 2021 Ordinary Shares of 20p each
M R Warner	4,129,732	4,179,732
R M Mahoney	-	-
P Hay-Plumb	17,300	17,300
A Morris	22,658	22,658
F Hanna	591,000	591,000
P N Sharp	104,157	104,157

Analysis of Directors' emoluments for the year and their interest in options in shares in the Company is shown in the Remuneration Committee Report on pages 67 to 68.

Articles of Association

The rules governing the appointment and replacement of Directors are set out in the Company's Articles of Association and the Companies Act 2006. The Articles of Association may be amended by a special resolution of the Company's shareholders. A copy of the Articles of Association can be found on the Company's website www.mbhplc.co.uk/investor-relations/

DIRECTORS' INDEMNITY PROVISIONS

As permitted by the Articles of Association, the Directors may have the benefit of an indemnity, which would be a qualifying third-party indemnity provision as defined by Section 234 of the Companies Act 2006.

The Company has purchased and maintained throughout the financial period Directors' and Officers' liability insurance in respect of itself and its Directors.

SHARE CAPITAL

As at 31 December 2022, the Company's issued share capital was £19,180,716 (2021: £19,126,564) divided into Ordinary shares of 20p each, of which 60,000 were held in Treasury and accordingly have no voting rights. The holders of Ordinary shares are entitled to one vote per share at the Company's general meetings. Ordinary shareholders are entitled to receive notice of, and to attend and speak at, any general meeting of the Company. On a show of hands, every shareholder present in person or by proxy (or being a corporation represented by a duly authorised representative) shall have one vote, and on a poll every shareholder who is present in person or by proxy shall have one vote for every share of which he or she is the holder. The Notice of Annual General Meeting specifies deadlines for exercising voting rights and appointing a proxy or proxies.

Other than the general provisions of the Articles of Association (and prevailing legislation), there are no specific restrictions on the size of a holding or on the transfer of the Ordinary shares.

The Directors are not aware of any agreements between holders of the Company's shares that may result in the restriction of the transfer of securities or of voting rights. No shareholder holds securities carrying any special rights or control over the Company's share capital. Shares held by the Company's Employee Benefit Trust rank pari passu with the shares in issue and have no special rights, but voting rights and rights of acceptance of any offer relating to the shares rest with the plan's Trustees and are not exercisable by employees.

Significant Share Holdings	Number of Ordinary Shares of 20p each	% of Total Voting Rights
Mr Eric John Spencer Gadsden	22,658,274	23.6%
Hosking and Co	13,044,338	13.6%
Interactive Investor	6,771,941	7.1%
Hargreaves Lansdown	4,824,124	5.0%
Telworth Investments	4,695,249	4.9%
Canaccord Genuity Group Inc	4,140,637	4.3%
Octopus Investments	3,600,389	3.8%
Sanford Deland Asset Management	2,941,000	3.0%

Authority for the Company to Purchase its own Shares

Subject to authorisation by shareholder resolution, the Company may purchase its own shares in accordance with the Companies Act 2006. Any shares which have been bought back may be held as treasury shares or cancelled immediately upon completion of the purchase.

At the Company's AGM held on 12 May 2022, the Company was generally and unconditionally authorised by its shareholders to make market purchases (within the meaning of section 693(4) of the Companies Act 2006) of up to a maximum of 9,563,282 of its Ordinary shares. On 24 November 2022 the Company announced the launch of a share buyback programme in respect of its Ordinary shares up to a maximum consideration of £3 million. As at 31 December 2022 the Company has repurchased 60,000 of its Ordinary shares under this authority, which is due to expire at the AGM to be held on 18 May 2023. The 60,000 Ordinary shares that were repurchased are currently held in Treasury.

Share Options

Details of share option schemes which the Company operates are included on pages 103 to 104.

INTERNAL CONTROL

The Directors acknowledge their responsibilities for the Group's system of internal control. The Audit Committee undertakes regular reviews of the Group's system of internal controls and provides updates to the Board where appropriate. More information on the Audit Committee's review of internal controls during the year can be found in the Audit Committee report on page 64. The Board has continued to review the effectiveness of the systems and has considered major business and financial risks. The Directors believe that the established systems of internal control continue to be appropriate for the business.

RELATED PARTY TRANSACTIONS

There are no related party transactions required to be disclosed under the AIM rules.

FINANCIAL INSTRUMENTS

The Group's policy is to finance working capital through cash balances, appropriate bank facilities and retained earnings. The Group is exposed to the usual credit and cash flow risk associated with selling on credit and manages this through credit control procedures. For further details refer to note 20 in the financial statements.

HEALTH AND SAFETY

The Group has established a documented health and safety management system with arrangements and procedures based around the Health and Safety Executive guidance HSG65. Workplace health and safety audits and inspections are carried out both internally and externally by external consultants at various levels of the business ranging from our quarries to product delivery. The results of health and safety inspections are reviewed by our management teams and any corrective actions taken accordingly.

We consult regularly with our employees on health and safety matters holding quarterly health and safety meetings at each of our locations, as well as additional meetings and briefings covering specific health and safety matters. All of our employees are part of an ongoing health and safety training programme that starts with an initial induction programme and expands to include all the relevant training needs required for them to carry out their work safely. We encourage the CPD of our employees on a range of health and safety subjects across the business from the annual quarry managers' CPD awards to our HGV drivers' development programme.

All accidents and near misses are fully investigated and discussed at our health and safety meetings. Where appropriate, changes are made to our processes in order to minimise the chances of any recurrence.

Health and safety updates were regularly presented to the Directors at Board meetings throughout 2022. This provided them with a chance to understand matters affecting employees, such as Covid-19, and discuss any incidents or investigations that arose during the course of the year.

EMPLOYEES

The Group's loyal and skilled workforce is essential for its future prosperity. Where appropriate, employees are provided with information on matters of interest and concern to them. The Group encourages contact and interaction between members of staff at all levels.

At 31 December 2022, the Group employed 390 male and 45 female members of staff. The Board comprised 1 female and 5 male Directors as at 31 December 2022. 4 of the Group's 16 senior managers were female.

It is the policy of the Group to give full and fair consideration to the employment of disabled persons in jobs suited to their individual circumstances and, as appropriate, to consider them for recruitment opportunities, career development and training. Where possible, arrangements are made for continuing employment of employees who have become disabled whilst in the Group's employment. Michelmersh values diversity and seeks to provide all employees with the opportunity for employment, career and personal development on the basis of ability, qualifications and suitability for the work as well as their potential to be developed into the job.

The Group also believes that all employees should be treated with respect, dignity and fairness at work. We are committed to creating an environment where all our employees can feel comfortable and able to fulfil their potential.

MODERN SLAVERY ACT

The Group is committed to ensuring best practice to combat slavery and human trafficking. In June the Board approved the Company's Modern Slavery Act Statement and Anti-Slavery Policy. Our Anti-Slavery Policy demonstrates our commitment to acting ethically and with integrity in all our business relationships and to implementing and enforcing effective systems and controls to ensure slavery and human trafficking is not taking place anywhere in our supply chains. Both documents can be found on the Company's website (www.mbhplc.co.uk/about/corporate-responsibility/).

POLITICAL DONATIONS

The Company does not make any political donations and does not incur any political expenditure.

CHARITABLE DONATIONS

Supporting industry education and training remains a core policy and the Group continued its supply of free product, resources and seminars to various colleges around the UK. We are building a special relationship with Brooklands Ashford Campus bricklaying department and continue to support the CITB Skillbuild programme.

The Group has continued to support community based charities local to our operations. Total donations during the year amounted to £19,000.

ANNUAL GENERAL MEETING

The Annual General Meeting will be held on 18 May 2023 at the offices of Burges Salmon LLP in London.

Further information relating to the AGM is set out in the AGM Notice which will be sent to shareholders separately and is available on the Company's website (www.mbhplc.co.uk/investor-relations/). Where appropriate, if any changes are required to be made to the AGM arrangements, these will be communicated by an announcement via a Regulatory Information Service.

GOING CONCERN

After making enquiries, the Directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the financial statements. Further information can be found on page 21.

PROVISION OF INFORMATION TO AUDITORS

So far as each of the Directors who held office at the date of this Director's Report is aware:

- There is no relevant audit information of which the Company's auditors are unaware; and
- Each Director has taken all steps that they ought to have taken as a Director to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

AUDITORS

A resolution to re-appoint CLA Evelyn Partners Limited as auditor for the ensuing year will be put to the Annual General Meeting.

DIRECTORS RESPONSIBILITIES

The Directors are responsible for preparing the Group Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the group and parent company financial statements in accordance with UK-adopted international accounting standards. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the group and of the profit or loss of the group for that period.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether international accounting standards have been followed subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and the group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are also responsible for ensuring that they meet their responsibilities under the AIM Rules. The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Signed by order of the Board

MARTIN WARNER

Chair

Approved by the Directors on 28 March 2023

Michelmersh Brick Holdings Plc

Registered in England and Wales No. 03462378

OPINION

We have audited the group financial statements of Michelmersh Brick Holdings plc (the 'Group') for the year ended 31 December 2022 which comprise the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity, the consolidated balance sheet, the consolidated statement of cash flows and the notes to the group financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and UK-adopted international accounting standards.

INDEPENDENT AUDITOR'S REPORT

In our opinion, the group financial statements:

- give a true and fair view of the state of the Group's affairs as at 31 December 2022 and of its profit for the year then ended;
- have been properly prepared in accordance with UK-adopted international accounting standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the group financial statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the group financial statements in the UK, including the FRC's Ethical Standard as applied to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

OUR APPROACH TO THE AUDIT

Of the Group's 18 reporting components, we subjected 3 to full component audits. 7 components were subject to audit procedures based on group materiality to form an opinion on the overall group but not subject to individual audits. 1 component was based in Belgium and that audit was carried out by a component auditor in Belgium. The remaining 7 components were non-trading.

The components within the scope of audit work covered: 100% of Group revenue, 100% of Group profit before tax and 100% of Group net assets.

The Group audit team held a video conference meeting with the component auditors in Belgium. At this meeting, the Group audit team discussed the component auditors' risk assessments and planned audit approach. Once the audit work was completed, the findings reported to the Group audit team were challenged in more detail. In addition to this meeting and communications, the Group audit team sent detailed instructions to the component audit team and reviewed some of their working papers.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period, and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team.

These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Directors and Professional Advisors

PRINCIPAL BANKERS	HSBC Bank plc 1st Floor, First Point, Buckingham Gate London Gatwick Airport RH6 0NT

KEY AUDIT MATTER	DESCRIPTION OF RISK	HOW THE MATTER WAS ADDRESSED IN THE AUDIT
Valuation of land and buildings (Note 14)	Land and buildings are measured at fair value based upon their highest and best use. Fair value measurement is inherently judgemental as is the highest and best use of each site.	<div>In order to address this key audit matter, the audit team have performed the following procedures:</div> <ul style="list-style-type: none">Reviewed third party valuation obtained by the Directors in the year, considering the independence and competence of the expert engaged by management to prepare the valuation;Considered the appropriateness of the valuation approach with reference to past experience and the broader nature of the business; andReviewed and challenged the assumptions used.
Valuation of finished goods (Note 16)	Finished goods inventory is measured based on production costs and attributable overheads incurred during the period and attributed across the number of bricks produced at each site, as adjusted for any non-standard products which are typically more labour intensive. As a result, the valuation of finished goods inventory incorporates a degree of judgement over the allocation of costs.	<div>In order to address this key audit matter, the audit team has performed the following procedures:</div> <ul style="list-style-type: none">Substantive testing of production and overhead costs incurred in the year;Substantive testing of a sample of sales invoices to ensure finished goods are held at the lower of cost and net realisable value; andConsideration of slow-moving inventory and reasonableness of provision recognised.
Intangible asset valuation (Note 13)	Intangible assets include Goodwill, Customer Lists and Brand Names. The Directors obtained external valuations following the purchase of Carlton in FY17, to which a large proportion of the intangible assets relate. The carrying value of these assets is considered for impairment on an annual basis by directors which requires significant judgment, in particular regarding future cash flows, growth rates, discount rates, determination of CGUs and other assumptions.	<div>In order to address this key audit matter, the audit team has performed the following procedures:</div> <ul style="list-style-type: none">Considered trading performance of the CGU;Challenged the determination of CGUs;Our internal experts assessed the appropriateness of the assumptions concerning growth rates and the discount rate; andPerformed sensitivity analysis on the future free cash flow calculations.
Acquisition of FabSpeed Holdings Limited (Note 30)	The group acquired 100% of the FabSpeed Group during the year. IFRS 3 requires that consideration is given to the existence and measurement of separable, identifiable intangible assets that have been acquired. Management are also required to determine the fair value of the consideration paid and also the fair value of the net assets acquired.	<div>In order to address this key audit matter, the audit team has performed the following procedures:</div> <ul style="list-style-type: none">Reviewed the underlying agreements relating to the acquisition;Our internal experts reviewed the purchase price allocation report prepared by a third party who were engaged by management. Our internal experts also assessed the recognition and valuation of the intangibles as well as the determination of the purchase price;Performed audit procedures on the acquisition balance sheet;Assessed the appropriateness of fair value adjustments to the acquisition balance sheet;Assessed the appropriateness of the assumptions used to calculate the earn out element of the consideration;Challenged the treatment of the earn out payment as consideration vs remuneration; andConsidering the appropriateness of the disclosures made in the financial statements in respect of the acquisition.

OUR APPLICATION OF MATERIALITY

The materiality for the group financial statements as a whole (“group FS materiality”) was set at £4,448,000. This has been determined with reference to the benchmark of the groups net assets, which we consider to be most appropriate given the significance of the assets held. Group FS Materiality represents 5% of the group's net assets as presented on the face of the consolidated balance sheet.

The consolidated income statement is underpinned by the activity of the trading subsidiary, Michelmersh Brick UK Limited. The principal consideration for this company is the trading performance and accordingly, materiality has been calculated at 2% of turnover of the trading subsidiaries, being £1,186,000. This has been treated as an element materiality for profit and loss affecting items in the audit of the Group. Thus, a lower level of trading materiality has been factored into our overall conclusions on the consolidated income statement.

Performance materiality for the group financial statements was set at £3,558,400, being 80% of group FS materiality, for purposes of assessing the risks of material misstatement and determining the nature, timing and extent of further audit procedures. We have set it at this amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds group FS materiality. We judged this level to be appropriate based on our understanding of the group and its financial statements, as updated by our risk assessment procedures and our expectation regarding current period misstatements including considering experience from previous audits. It was set at 80% to reflect the fact that few misstatements were expected in the current period and that there are few judgements. Also, management utilise experts in a number of areas requiring estimation supporting them in making their assessment. Element performance materiality was set at £948,800 being 80% of group element materiality.

CONCLUSIONS RELATING TO GOING CONCERN

In auditing the group financial statements, we have concluded that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the Directors' assessment of the Group's ability to continue to adopt the going concern basis of accounting included:

- Challenging key assumptions used in the detailed budgets prepared by management to March 2024;
- Considering historical accuracy of budgeting;
- Comparing the actual results to budget for 2022 and post year end results to 2023 budget; and
- Considering the sensitivity of the key assumptions and re-assessing headroom after sensitivity analysis performed.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Group's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this Report.

OTHER INFORMATION

The other information comprises the information included in the Annual Report, other than the group and parent company financial statements and our auditor's report thereon. The Directors are responsible for the other information contained within the Annual Report. Our opinion on the group financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the group financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the group financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

OPINIONS ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the Directors' report for the financial year for which the group financial statements are prepared is consistent with the group financial statements; and
- the strategic report and the Directors' report have been prepared in accordance with applicable legal requirements.

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

In the light of the knowledge and understanding of the Group and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the Directors' Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

RESPONSIBILITIES OF DIRECTORS

As explained more fully in the Directors' responsibilities statement set out on page 75, the Directors are responsible for the preparation of the group financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of group financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the group financial statements, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the group or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE GROUP FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Group financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below. Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud.

We obtained a general understanding of the Group's legal and regulatory framework through enquiry of management in respect of their understanding of the relevant laws and regulations. We also drew on our existing understanding of the Group's industry and regulation.

We understand that the Group complies with requirements of the framework through:

- Engaging with independent advisors to perform regular reviews of procedures in place at sites operated by the Group.
- Making note of relevant updates from external experts and updating internal procedures and controls as necessary as legal and regulatory requirements change.
- Given the management structure and reporting lines, any litigation or claims would come to the Directors' attention and are considered at Board meetings.

In the context of the audit, we considered those laws and regulations which determine the form and content of the financial statements, which are central to the Group's ability to conduct its business, and/or where there is a risk that failure to comply could result in material penalties. We have identified the following laws and regulations as being of significance in the context of the Group:

- The Companies Act 2006 and IFRS in respect of the preparation and presentation of the financial statements;
- AIM rules and the Market Abuse Regulations; and
- Health and safety, Environmental and Pollution regulations, due to the nature of the Group's operations.

We performed the following specific procedures to gain evidence about compliance with the significant laws and regulations identified above:

- Reviewed the procedures management has implemented over compliance with the regulations.
- Inspected internal health and safety records and external site audit reports.
- Reviewed response from component auditor.

The senior statutory auditor led a discussion with senior members of the engagement team regarding the susceptibility of the Group's financial statements to material misstatement, including how fraud might occur.

The key areas identified as part of the discussion were:

- Manipulation of the financial statements, especially revenue, through manual journal entries.
- Valuation of stock, land and buildings and intangible assets where estimates are made by management.

These areas were communicated to the other members of the engagement team who were not present at the discussion.

The procedures we carried out to gain evidence in the above areas included;

- Testing of a sample of revenue transactions to underlying documentation;
- Testing of a sample of journal entries, selected through applying specific risk assessments based on the processes and controls surrounding journal entries;
- Challenging management regarding the assumptions used in the estimates identified above, and comparison to post-year-end data and third-party correspondence as appropriate. Refer to the Key Audit Matters noted above for further detail of work around this area.

A further description of our responsibilities is available on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our Auditor's Report.

OTHER MATTER

We have reported separately on the parent company's financial statements of Michelmersh Brick Holdings plc for the year ended 31 December 2022.

USE OF OUR REPORT

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an Auditor's Report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

GENERAL INFORMATION & ACCOUNTING POLICIES

1. INTRODUCTION

Michelmersh Brick Holdings Plc (“the Company”) is a public limited company incorporated in the United Kingdom under the Companies Act 2006 and is listed on AIM.

The principal activity of the Company during the year was the management and administration of its subsidiary companies. The main activity of the trading subsidiary companies was the manufacture of bricks and brick pre-fabricated products.

These financial statements cover the financial year from 1 January to 31 December 2022, with comparative figures for the year 1 January to 31 December 2021.

The companies within the Group during the financial year ended 31 December 2022 are disclosed in note 15.

2. ACCOUNTING POLICIES

BASIS OF PREPARATION

The financial statements have been prepared in accordance with UK-adopted international accounting standards and with those parts of the Companies Act 2006 applicable to companies reporting under accounting standards as adopted for use in the UK. The consolidated financial statements for the financial years ended 31 December 2022 and 31 December 2021 have been prepared under the historical cost convention, as modified by the revaluation of certain items as stated in the accounting policies.

The consolidated financial statements are presented in sterling and all values are rounded to the nearest thousand (“£000”) except where otherwise indicated.

The financial statements of the parent company are prepared under FRS 102 and its subsidiary undertakings are prepared under FRS101, all to the same reporting date. Adjustments are made to remove any differences that may exist between UK GAAP and IFRS for consolidation purposes.

The preparation of the financial statements, in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. Although these results are based on management’s best knowledge of the amounts, events or actions, actual results ultimately may differ from those estimates.

NEW STANDARDS AND INTERPRETATIONS

New and amended Standards and Interpretations effective from 1 January 2023

Amendments have been made to IAS 8 Provisions, Definitions of Accounting Estimates. The changes focus on the distinction between accounting estimates and accounting policies, and make the following key clarifications:

- The definition of a change in accounting estimate has been deleted and replaced with a definition of an accounting estimate, which is now “monetary amounts in the financial statements that are subject to measurement uncertainty”.
- A change in an accounting estimate arises from new information or new developments and is applied prospectively. A change in an accounting estimate differs from a correction of a prior period error, with the latter arising from information which should have been known at the prior period end.

Amendments to IAS 1 and IFRS Practice Statement 2 – Disclosure of Accounting Policies This amendment applies the concept of materiality to the disclosure of accounting policies. Consequently, all instances of “significant accounting policies” within IAS 1 Presentation of

financial statements has been replaced with “material accounting policy information”. Information in an accounting policy is material if, when considered together with other information included in an entity’s financial statements, it can reasonably be expected to influence decisions that the primary users of general-purpose financial statements make based on those financial statements. Immaterial accounting policies can still be presented if these do not obscure material accounting policy information.

BASIS OF CONSOLIDATION

The financial statements comprise a consolidation of the financial statements of Michelmersh Brick Holdings Plc and all its subsidiaries. Control is achieved where the Company is exposed to, or has the rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which the Group has the power to control. When control of a subsidiary is lost, a disposal occurs and the subsidiary is no longer consolidated from that date.

On consolidation, inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

GOING CONCERN

The Group’s business activities, together with the factors likely to affect its future development, performance and position are set out the Chair’s Statement and the Chief Executives’ Review.

The Group meets its day-to-day working capital requirements principally through bank loans and cash balances. Additional facilities are in place including an undrawn revolving credit facility provided by HSBC Bank Plc.

The Group’s forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Group should be able to operate within its facilities.

The Directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing these financial statements.

REVENUE

Revenue is measured at the fair value of the consideration received or receivable for the sale of goods and provision of services (principally haulage) in the ordinary course of the Group’s activities. Revenue is shown net of value added tax, returns, rebates and discounts and after eliminating sales within the Group.

Revenue is recognised in accordance with the transfer of promised goods or services to customers (i.e. when the customer gains control of the goods/service on delivery) and is measured as the consideration which the Group expects to be entitled to in exchange for the goods and services. Consideration is typically fixed on the agreement of a contract. Payment terms are agreed on a contract-by-contract basis.

BUSINESS COMBINATIONS AND GOODWILL

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. The consideration transferred for the acquisition of a subsidiary is the fair value of the assets transferred, the liabilities incurred, and the equity interests issued by the Group. Identifiable assets acquired or liabilities and contingent liabilities assumed in the business combination are measured initially at their fair value at the acquisition date.

Purchased goodwill, representing the difference between the fair value of the consideration and the underlying assets and liabilities acquired, is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses. See note 13 for further details.

Intangible assets are stated at cost less impairments and amortisation. Amortisation is charged at the following rates:

Customer relationships	-	15 years
Brands	-	7 - 25 years

LICENCES

The costs of preparing and submitting applications for licences have been capitalised as an intangible fixed asset. Amortisation is calculated so as to write off the cost of the licence on a straight-line basis, through cost of sales, over the operational life of the landfill site to which it relates.

FOREIGN CURRENCY

Transactions in foreign currency are recorded at the rates of exchange prevailing on the dates of the transactions. Where consideration is received in advance of revenue being recognised, the date of the transaction reflects the date the consideration is received. At each year end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing at the year-end date. Exchange gains and losses on short-term foreign currency borrowings and deposits are included within net interest payable. Exchange differences on all other transactions are taken to operating profit.

The assets and liabilities of foreign operations are translated to the Group's presentational currency, sterling, at foreign exchange rates ruling at the statement of financial position date. The revenues and expenses of foreign operations are translated at an average rate for the year where this rate approximates to the foreign exchange rates ruling at the dates of the transactions. Exchange differences arising from this translation of foreign operations are reported as an item of other comprehensive income and accumulated within other reserves.

PROPERTY, PLANT AND EQUIPMENT

Plant and equipment are stated at cost or deemed cost less accumulated depreciation and impairment losses. Land and buildings are carried at appropriate valuation for the land and buildings concerned. Further details are disclosed in note 14 to the financial statements.

Freehold buildings are revalued annually.

Depreciation is calculated so as to write off the cost or valuation of an asset, less its estimated residual value based on current prices at the balance sheet date, over the useful economic life of the asset as follows:

Freehold buildings	-	life of brickworks site
Plant, equipment and machinery	-	3% - 25%
Motor vehicles	-	25%

Right-of-use assets are depreciated over the term of the lease. Freehold land used in landfill activities is amortised over the life of the site on a usage basis. Mineral reserves are included within freehold land and buildings and are amortised on a usage basis. All other freehold land is not depreciated.

Site development costs are capitalised. These costs are written off over the operational life of the site as and when the void space created as a result of this expenditure is consumed. Provision for site restoration costs is made and capitalised once the Group creates a legal or constructive obligation in respect of restoration work on landfill sites. This is deemed to be a cost of disposal and is recognised in the income statement within profit or loss on disposal when disposal occurs. Provision is made, where material, for the net present value of the Group's estimated unavoidable costs in relation to the restoration and aftercare of landfill sites operated by the Group. Provision is not made where no significant cost is expected, or where costs are not deemed reliably measurable.

An amount equal to the excess of the annual depreciation charge on certain revalued assets over the notional historical cost depreciation charge on those assets is transferred from the revaluation reserve to retained earnings.

IMPAIRMENT OF ASSETS

At each balance sheet date, the Group reviews the carrying amount of its assets other than inventories to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. The review is assessed using a discounted cash flow model using a terminal growth rate of 2% and applying a pre-tax discount factor utilising the Group's Weighted Average Cost of Capital.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount is reduced to its recoverable amount. An impairment loss is recognised as an expense in the income statement, except to the extent that it represents the reversal of a previous valuation, where it is recognised directly in other comprehensive income.

The recoverable amount of assets is the greater of their fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

INVENTORIES

Inventories are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow-moving items. Cost is calculated using the average cost formula on the basis of direct cost plus attributable overheads based on a normal level of activity and includes as part of the deemed cost an element of clay in respect of mineral reserves, which have been extracted at valuation and transferred from the freehold land. No element of profit is included in work in progress and no revaluations of inventories are made after recognition.

FINANCIAL INSTRUMENTS

Financial Instruments are recognised when the Group becomes a party to the contractual provisions of the instrument. The principal financial assets and liabilities of the Group are as follows:

INTEREST-BEARING BORROWINGS

Interest-bearing borrowings are recognised initially at fair values less attributable transaction costs which are amortised over the life of the facility. Subsequent to initial recognition, borrowing costs are measured at amortised cost, using the effective interest rate method. The effective interest rate method is a method of calculating the amortised cost of a financial asset or liability and allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial asset or liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

TRADE AND OTHER RECEIVABLES

Trade receivables do not carry interest and are initially measured at their fair value, and subsequently at their amortised cost, as reduced by appropriate allowances for estimated irrecoverable amounts. Trade receivables are impaired when credit losses are expected on an asset. Any loss allowance relating to trade receivables has been calculated with reference to historical experience in the recoverability of such receivables, taking into consideration current conditions and forecasts of future economic conditions.

TRADE AND OTHER PAYABLES

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

CASH AND CASH EQUIVALENTS

For the purposes of the cash flow statement, cash and cash equivalents comprise cash at bank and in hand, including bank deposits with original maturities of three months or less.

SHARE BASED PAYMENT TRANSACTIONS

An expense for equity instruments granted under employee share schemes and the Save-As-You-Earn Schemes is recognised in the financial statements based on the fair value at the date of the grant. This expense is recognised over the vesting period of the scheme. The cumulative expense recognised at each reporting date, until the vesting date, reflects the extent to which the vesting period has expired and the Directors' best estimate of the number of equity instruments that will ultimately vest. The Group has adopted the principles of the Black Scholes Model for the purposes of computing fair value.

LEASES

A right of use asset and a lease liability has been recognised for all leases except leases of low value assets. These are further explained in note 19. The right-of-use asset has been measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date. The Group will depreciate the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. Where impairment indicators exist, the right of use asset will be assessed for impairment. The lease liabilities are measured at the present value of the lease payments due to the lessor over the lease term, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate. After initial measurement, any payments made will reduce the liability and the interest accrued will increase it. Any reassessment or modification will lead to a remeasurement of the liability. In such case, the corresponding adjustment will be reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

TAXATION

Income tax on the profit for the year comprises current and deferred tax. Income tax and deferred tax are recognised in the income statement except to the extent that tax relates to items recognised directly in equity, in which case, this element of the tax charge is recognised in equity.

Current tax is the expected tax payable on the taxable profit for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years. Taxable profit differs from net profit as reported in the Consolidated Income Statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are neither taxable nor deductible.

Deferred tax is provided using the balance sheet liability method and is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled, or the assets is realised based on tax rates enacted or substantively enacted at the balance sheet date.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current assets and liabilities on a net basis.

PENSION COSTS

The Group operates defined contribution pension schemes for employees. The assets of the schemes are held separately from those of the companies. Contributions are charged to the income statement in the year in which they are incurred.

CARBON EMISSIONS ALLOWANCES POLICY

Unused and acquired carbon emission quotas held at the Balance Sheet date are recognised as intangible assets and are valued at open market value. Any gain or loss arising is recognised in the Income Statement.

DIVIDENDS

Dividend distributions to the Company's shareholders are recognised as a liability in the Group's financial statements in the period in which the dividends are approved by the Company's shareholders.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS

Under IAS 1 paragraph 122, the Company is required to disclose judgements, other than those involving estimation, that have been made in the process of applying our accounting policies where that judgement has had a significant effect on the amounts recognised in the financial statements.

The Board has reviewed areas where judgement has been applied, including deferred tax, provisions and impairment but do not consider that the judgement may have a significant impact on the amounts recognised in the financial statements for the years ended 31 December 2021 and 2022.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2022

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

The key sources of estimation uncertainty employed in the preparation of these financial statements are as follows:

Area of estimation	Effect on Financial Statement	Period of impact	Change noted from previous financial statements
Intangible asset impairment	Within the Intangibles calculation we undertake an exercise to estimate future cashflows from the CGUs associated with intangible assets. We have key assumptions on the growth rates of revenue and gross margin which impacts the profit assumed and hence cashflow generation at each relevant site. These assumptions are key to calculation of the net present value of cashflows. The further key assumptions are the perpetuity growth rate and discount rate. Details of the impairment calculation, including key assumptions, are set out in note 13.	Whilst trading patterns remain robust at the relevant CGU, there is a low likelihood of a reduction in the cash flows relating to intangible assets over a longer period.	No changes
Land and buildings valuation including mineral and landfill assets	The Board value land assets and buildings with guidance from external valuers on an annual basis. Changes in circumstances both internal to the business and externally can impact the values ascribed in the accounts. Details of the revaluation are set out in note 14.	It is possible that factors can arise in the short term that impact the values included in the accounts.	No changes
Useful lives of plant and machinery	Depreciation is charged on plant to reflect its useful life. The Group makes significant effort to maintain the plant in good working order, but factors may change that could impact on the charges made in the financial statements including market and technology changes. Details of the depreciation charged within each asset category are set out in note 14.	The impact may be sudden if circumstances change.	No changes
Contingent liabilities	The Board assess annually whether any provision or contingent liability is required to be recognised or disclosed in the accounts in relation to its future obligations under restoration conditions attached to its land and building sites by the local council authorities.	It is possible that factors can arise in the medium term that impact the disclosures required in the accounts.	No changes
Deferred Consideration	There is potential for an additional deferred consideration of up to £2m under the terms of the FabSpeed acquisition which is payable in cash and is based on achieving future adjusted EBITDA growth targets over the two financial years following the acquisition. The estimation of the potential additional consideration requires the Board to estimate future performance which is inherently uncertain due to potential changes in the business both internally and externally.	It is possible that factors can arise in the short term that impact the values included in the accounts	New area of estimation following the acquisition of FabSpeed in November 2022.

5. SEGMENTAL REPORTING

Segment information is presented in respect of the Group's business segments, which are based on the Group's management and internal reporting structure during the year. Segment information has been prepared in accordance with the accounting policies of the Group as set out on pages 86 to 90.

The chief operating decision-maker has been identified as the Board of Directors (the "Board"). The Board reviews the Group's internal reporting in order to assess performance and allocate resources. Management have determined the operating segments based on these reports and on the internal report's structure. The Group has one clearly defined reportable segment and operates out of the UK and Europe due to the very close alignment of customers, markets manufacturing processes, distribution methods and regulatory environment across the underlying manufacturing facilities.

NOTES TO FINANCIAL STATEMENTS

	Notes	12 months ended 31 Dec 2022 £'000	12 months ended 31 Dec 2021 £'000
Revenue	5	68,375	59,524
Cost of sales		(41,463)	(35,369)
Gross profit		26,912	24,155
Administrative expenses		(14,225)	(13,398)
Amortisation of intangibles		(1,133)	(1,198)
		(15,358)	(14,596)
Other income	6	55	361
Operating profit	8	11,609	9,920
Finance expense	7	(214)	(223)
Profit before taxation		11,395	9,697
Taxation	12	(2,518)	(3,568)
Profit for the financial year		8,877	6,129
Segment assets		123,306	112,695
Segment liabilities		(34,337)	(27,571)

REVENUE BY GEOGRAPHICAL DESTINATION

	2022 £'000	2021 £'000
Revenue by geographical destination		
United Kingdom	63,704	54,573
Europe	4,671	4,791
Rest of the World	-	160
	68,375	59,524
Revenue by geographical origination		
United Kingdom	59,964	53,756
Belgium	8,411	5,768
	68,375	59,524

Total assets including property, plant and equipment and intangible assets are all held in the UK except £19.5 million (2021: £17.6 million) of assets relating to Floren in Belgium.

Sales of £6,813,000 (2021: £6,209,000) were made to a single customer of the Group. Total Group revenue made to the top five customers amounted to £24,401,000 (2021: £22,279,000). No other customers were individually material in revenue value.

6. OTHER INCOME

	2022 £'000	2021 £'000
Rents receivable	11	4
Other	44	357
	55	361

7. FINANCE (EXPENSE)/INCOME

	2022 £'000	2021 £'000
Interest expense		
Bank loans	(132)	(170)
Amortisation of bank fees	(36)	-
In respect of lease liabilities	(61)	(57)
	(229)	(227)
Less interest earned	15	4
	(214)	(223)

8. OPERATING PROFIT

	2022 £'000	2021 £'000
Operating profit is stated after charging:		
Amortisation	1,133	1,198
Depreciation	3,915	3,583

9. DIVIDEND

During the year the Company paid a dividend of 3.65 pence per share in relation to 2021, an interim dividend of 1.15 pence per share on 13 January 2022 and a final dividend of 2.50 pence per share on 13 July 2022, amounting in total to £3,471,000 (2021: £2,349,000). In relation to 2022, the Company paid an interim dividend per share of 1.30 pence per share on 11 January 2023 and recommends a final dividend of 2.95 pence per share. The proposed final dividend will be paid on 12 July 2023 to members on the register on 9 June 2023 with shares being marked ex-div on 8 June 2023.

10. AUDITOR'S REMUNERATION

	2022 £'000	2021 £'000
Fees payable to the Group's auditor for the audit of the Group's annual financial statements	77	57
Fees payable to the Group's auditor and its associates for other services - the audit of the Group's subsidiaries, pursuant to legislation	100	70

Services provided to the Group by the auditors are reviewed by the Board of Directors to ensure that the independence of the auditors is not compromised.

11. PARTICULARS OF EMPLOYEES

The average number of staff employed by the Group during the year amounted to:

	2022	2021
Manufacture and supply of bricks	318	325
Administration	62	46
	380	371

	2022 £'000	2021 £'000
Wages and salaries	15,153	15,220
Social security costs	2,042	1,851
Other pension costs	590	636
	17,785	17,707

Details of Directors' emoluments are shown in the Remuneration Committee Report on page 67.

12. TAXATION

a)	2022 £'000	2021 £'000
Recognised in the income statement		
Current tax expense		
Current year	2,868	2,171
Prior year	33	(78)
	2,901	2,093
Overseas tax	-	-
Deferred tax	-	-
Origination and reversal of temporary differences:	(383)	1,475
Total income tax charge in the income statement	2,518	3,568

b) Factors affecting the tax charge for the year

The tax assessed for the year is higher (2021 higher) than the standard rate of corporation tax in the UK of 19% (2021: 19%). The differences are explained below.

	2022 £'000	2021 £'000
Reconciliation of effective tax rate		
Profit before taxation	11,395	9,697
Income tax using the domestic corporation tax rate	2,165	1,842
Effects of:		
Expenses disallowed	264	227
Rate changes	(29)	1,472
Fixed asset differences	(42)	(65)
Change to prior year estimate	(11)	4
Difference in overseas tax	125	88
Deferred tax not recognised previously	46	-
	2,518	3,568

c) Factors affecting future tax charges

The Finance Act 2021 includes legislation to increase the main rate of corporation tax from 19% to 25% from 1 April 2023. This rate was substantively enacted at the balance sheet date and deferred tax has been calculated at 25%.

As at 31 December 2022, the Group had £785,000 further tax losses carried forward (2021: £785,000). A deferred tax asset has not been recognised in respect of £127,000 (2021: £127,000) of these tax losses, as the Directors do not consider their recovery to be sufficiently certain in the near future.

13. INTANGIBLE ASSETS

	Goodwill £'000	Customer lists, order book and brand £'000	PPC license £'000	Total £'000
Cost or valuation				
As at 1 January 2021	6,891	18,994	75	25,960
As at 31 December 2021	6,891	18,994	75	25,960
Additions	3,285	2,917	-	6,202
As at 31 December 2022	10,176	21,911	75	32,162
Amortisation				
As at 1 January 2021	-	4,504	36	4,540
Charge for the year	-	1,159	39	1,198
As at 31 December 2021	-	5,663	75	5,738
Charge for the year	-	1,133	-	1,133
As at 31 December 2022	-	6,796	75	6,871
Net book value				
As at 31 December 2022	10,176	15,115	-	25,291
As at 31 December 2021	6,891	13,331	-	20,222

GOODWILL

The goodwill brought forward relates to the acquisition of Freshfield Lane Brickworks Limited in 2010 and of Carlton Brick in 2017 and the addition relates to the acquisition of FabSpeed in November 2022. In accordance with accounting standards, the Group annually tests the carrying value of goodwill for impairment. At 31 December 2022, the review was undertaken on a value in use basis, assessing whether the carrying value of goodwill was supported by the net present value of future cash flows derived from those assets, using cash flow projections of the cash generating units discounted at the Group's weighted average cost of capital. Customer lists, order book and brand values originated in the fair value exercises associated with the acquisitions of Carlton, Floren and FabSpeed are amortised over their expected useful lives.

The key assumptions used in the value in use calculations are those regarding pre-tax discount rates of 16% (2021: 12%) and revenue and cost growth rates of 2% (2021: 3%). The Group prepares cash flow forecasts as part of the budget and three-year plan process, and these are extrapolated forward at a terminal growth of 2% for the business.

Other than goodwill which arose as a result of a fair value exercise, the values ascribed to the various intangible assets was determined by a third party expert based on the business attributes of the acquired companies. The Directors have assessed the assumptions made at the time of the acquisitions and consider that they are still appropriate and that the life of those assets is similar to that anticipated at acquisition such that current amortisation rates are unchanged.

There were no impairment losses recognised on goodwill or other intangible assets during the year (2021: £nil)

14. PROPERTY, PLANT AND EQUIPMENT

	Freehold land and buildings £'000	Site develop- ment £'000	Motor vehicles £'000	Right-of- use assets £'000	Plant and machinery £'000	Office equipment £'000	Total

Charge for the year	1,175	-	27	614	1,760	7	3,583
Disposals	-	-	-	(133)	-	-	(133)
As at 31 December 2021	10,996	-	267	1,811	26,796	7	39,877
Charge for the year	1,271	-	36	700	1,893	15	3,915
Disposals	-	-	-	(1,067)	-	-	(1,067)
As at 31 December 2022	12,267	-	303	1,444	28,689	22	42,725
Net book value							
As at 31 December 2022	49,719	-	169	1,268	14,167	609	65,932
As at 31 December 2021	48,875	-	11	571	13,235	513	63,205

The Group's freehold land and buildings were valued by the Directors at £49,719,000 at 31 December 2022 (2021: £48,875,000), resulting in a net increase in the revaluation reserve of £1,601,000 (2021: £1,270,000). Deferred tax liabilities were increased by £429,000 (2021: £1,444,000) and have been debited to the revaluation reserve. The Directors' valuation was guided by review of depreciated replacement cost.

14. PROPERTY, PLANT AND EQUIPMENT

IFRS13

Under IFRS13 companies must disclose greater detail about the assets held at fair value and the valuation methodology. Michelmersh 'fair values' its land and buildings on a range of bases described below depending on the nature of the asset. Fair value is defined as the price that would be received on sale of the asset in an orderly transaction between market participants at the measurement date.

The assets have been valued individually consistent with the principles of IFRS13. Valuations have been made on the basis of highest and best use which involves consideration of a potential alternative use given current market conditions.

METHODOLOGY

IFRS13 requires the fair values to be categorised in a three level 'fair value hierarchy' based on the inputs used in the valuation.

Level 1 - Quoted prices in active markets for identical assets or liabilities that the entity can access at measurement date.

Level 2 - Use of a model with inputs (other than quoted prices as in Level 1) that are directly or indirectly observable market data.

Level 3 - Use of a model with inputs that are not based on observable market data.

The fair value of Land and Buildings above of £49,719,000 are all derived using Level 3 inputs and there have been no transfers between Levels during the period.

VALUATION TECHNIQUES

Brickwork properties have been fair valued using a cost approach, by assessing the rebuild cost provided by external professional valuers in 2022, ascribing a construction industry price inflation factor and applying a remaining life period over the total life of each manufacturing plant asset of between 15 and 50 years. These values were confirmed by a third-party valuation in 2022 across all of our brickwork properties. Mineral reserves were assessed during 2021 and the volumes of 4.7 million tonnes and market rate less extraction costs have been reviewed and subjected to net present value assessments to arrive at current fair value. Similarly, the fair value of landfill assets has been assessed by updating external third-party valuations from 2016 based on available landfill voids of 1.9 million tonnes.

The Directors have reviewed the third-party professional valuations conducted in 2022 updating them where they consider conditions have changed in the year.

SENSITIVITY

The fair value of brickworks land and buildings will be sensitive to changes in construction costs and expected life of the buildings. The net present value of the landfill and mineral deposits uses inputs relating to the market value of landfill and clay and usage levels available that would determine market participants evaluation.

The open market value of the other properties is sensitive to general economic conditions but changes in value will be most highly affected by change in planning status and the period of time estimated to ultimately developed alternative use.

15. SUBSIDIARIES

The following subsidiaries have been included within the consolidated financial statements:

Company Name	Country of Incorporation	Class of Shares held	% of holding	Company No.	Nature of business
Blockleys Brick Limited	England	Ordinary	100	07445630	Non trading
Carlton Main Brickworks Limited	England	Ordinary	100	00479716	Non trading
Charnwood Forest Brick Limited	England	Ordinary	100	03690069	Non trading
Dunton Brothers Limited	England	Ordinary	100	03239979	Non trading
Floren & Cie NV	Belgium	Ordinary	100	n/a	Manufacture Bricks
Freshfield Lane Brickworks Limited	England	Ordinary	100	00804219	Non trading
Michelmersh Brick and Tile Company Limited	England	Ordinary	100	03433257	Non trading
Michelmersh Brick UK Limited	England	Ordinary	100	02527552	Manufacture Bricks
New Acres Limited	England	Ordinary	100	02600118	Non Trading Landfill Operations

LiteSpeed Limited ^{a b}	England	Ordinary	100	10468462	Pre-fabrication Products

^a These companies were acquired following the acquisition of FabSpeed Holdings Ltd and its subsidiaries on 23 November 2022.

^b Company is exempt from the requirements of the Companies Act relating to the audit of individual financial statements by virtue of s479A for the financial year ended 31 December 2022

16. INVENTORIES

	2022 £'000	2021 £'000
Raw materials	3,069	2,846
Work in progress	2,697	2,175
Finished goods	3,918	5,039
	9,684	10,060

The cost of inventories expensed during the year is £41,151,000 (2021: £32,079,000). The inventory cost disclosed above is used for security of previous borrowings as disclosed in note 20.

17. TRADE AND OTHER RECEIVABLES

Amounts falling due within one year	2022 £'000	2021 £'000
Trade receivables	10,860	9,229
Prepayments and accrued income	941	1,322
	11,801	10,551

The fair value of the trade and other receivables are approximate to their carrying value. The trade receivables disclosed above are used for security of previous borrowings as disclosed in note 20.

NOTES TO FINANCIAL STATEMENTS CONTINUED

Included within trade receivables is £543,000 (2021: £449,000) of receivables past due but not impaired. The Directors do not feel that there is any deterioration of credit quality of these receivables. The age analysis of receivables past due but not impaired is as follows.

	2022 £'000	2021 £'000
1 - 30 days overdue	396	324
31 - 60 days overdue	42	99
61+ days overdue	105	26
	543	449

The carrying amount of the Group's trade and other receivables are predominantly denominated in sterling. The total cash and receivables category comprises trade and other receivables above together with cash of £10,598,000 (2021: £8,467,000) as shown in the balance sheet, totalling £21,458,000 (2021: £17,696,000).

During the year no provisions were made against any debtors (2021: nil). Despite the current economic uncertainty the Directors do not feel that it is necessary to provide against any of the receivables balances at the year end given the quality and longevity of its customer relationships.

18. TRADE AND OTHER PAYABLES

Amounts falling due within one year	2022 £'000	2021 £'000
Trade payables	3,623	2,609
Other taxation and social security	1,845	1,585
Other payables	1,273	154
Accruals	8,096	7,118
Deferred contingent consideration	852	-
Pension	171	170
	15,860	11,636

The fair values of trade and other payables are approximate to their carrying value. The total financial liabilities at amortised cost category comprises the above payables excluding other taxation and social security totalling £1,845,000 (2021: £1,585,000).

Trade payables are not interest bearing and are generally settled within terms. Other payables are non-interest bearing.

19. BORROWINGS

INTEREST RATE RISK OF FINANCIAL ASSETS AND LIABILITIES

The Group did not have any floating rate borrowings (2021: £nil).

The Group's financial assets at 31 December 2022 and 31 December 2021 included cash at bank and in hand for which minimal interest is earned.

The Group did not have any Euro denominated indebtedness as at 31 December 2022 (2021: €935,000).

The lease liabilities are derived from a fixed rate established on inception of each new lease agreement.

BORROWING FACILITIES

The Group has undrawn committed borrowing facilities at 31 December 2022 of £20,000,000 (2021: £20,000,000). The facilities are committed until 2025.

The Group currently operates with positive cash reserves. The Group has a £20 million committed Revolving Credit Facility with HSBC which was extended in December 2021. If utilised, interest is payable on the borrowing facilities at a margin above SONIA per annum and the Group is subject to a non-utilisation fee. The facilities are secured by a floating charge over all property and assets of the Group both present and future, in favour of HSBC Bank plc.

BANK LOANS

Bank loans in the balance sheet are due for repayment as follows:

	2022 £'000	2021 £'000
In one year or less	-	143
Between one and two years	-	143
Between two and five years	-	428
Over five years	-	71
	-	785

LEASE LIABILITIES

Under IFRS16, contract lease agreements for motor cars, lorries and fork-lifts used by the business are presented as assets and a corresponding liability. The balance outstanding at 31 December 2022 in respect of the right-of-use assets is as follows:

	2022 £'000	2021 £'000
In one year or less	761	491
Between one and two years	214	86
Between two and five years	309	31
	1,284	608

20. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

CURRENCY RISK

As the Group predominantly operates within the United Kingdom, and the majority of overseas sales are conducted in sterling, the Directors consider there is minimal exposure to currency risk.

FINANCIAL RISK FACTORS

The Group's activities expose it to a variety of financial risks: market risk (including cash flow interest rate risk and price risk) and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

Risk management is carried out by the Operations Board under policies approved by the Board of Directors. The Operations Board identifies, evaluates and takes measures to adequately mitigate financial risks in close co-operation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

MARKET RISK
CASH FLOW AND FAIR VALUE INTEREST RATE RISK

Given that the Group has no current borrowings, and expects that potential utilisation of facilities will be limited in amount and time periods, the Group's interest rate risk is restricted.

LIQUIDITY RISK

Prudent liquidity risk management implies maintaining sufficient cash and availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying businesses, Group treasury aims to maintain flexibility in funding by keeping committed credit lines available.

CAPITAL MANAGEMENT

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefit other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

FAIR VALUE ESTIMATION

The carrying value of trade receivables and payables are assumed to approximate to their fair values due to their short-term nature. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar instruments.

21. PENSIONS

DEFINED CONTRIBUTION SCHEME

The Group operates a defined contribution scheme for its employees. The assets of the scheme are held separately from those of the Group in trustee administered funds. The pension charge for contributions made by the Group to the defined contribution scheme amounted to £590,000 (2021: £636,000). Amounts unpaid at the year end in respect of contributions amounted to £171,000 (2021: £170,000).

22. DEFERRED TAXATION

Deferred tax at 31 December 2022 relates to the following:

	Losses £'000	Roll-over gain £'000	Intangibles £'000	Property plant and equipment £'000	Other items £'000	Total £'000
Cost						
As at 31 December 2020	(54)	806	2,803	8,592	(484)	11,663
Recognised in income	(16)	28	535	909	19	1,475
Recognised in other comprehensive income	-	(37)	(13)	1,444	-	1,394
Credited to equity	-	-	-	-	10	10
As at 31 December 2021	(70)	797	3,325	10,945	(455)	14,542
On acquisition			729	147	-	876
Recognised in income	(1)	(53)	(283)	366	(412)	(383)
Recognised in other comprehensive income	-	23	14	429	-	466
Credited to equity	-	-	-	-	533	533
As at 31 December 2022	(71)	767	3,785	11,887	(334)	16,034

Deferred tax assets included above are deemed recoverable against future taxable profits in certain Group companies. In addition to the above, the Group has un-provided deferred tax assets of £127,000 (2021: £127,000) in respect of unrelieved tax losses.

23. SHARE CAPITAL

	2022 Number	2022 £'000	2021 Number	2021 £'000
Authorised share capital Ordinary shares of 20p each	110,000,000	22,000	110,000,000	22,000
Allotted, called up and fully paid: Ordinary shares of 20p each	95,903,579	19,181	95,632,818	19,127

During the year, the Company issued 270,761 new shares (2021: 1,689,437). A total of 147,884 (2021: 319,382) shares were issued in lieu of dividend under the Scrip Dividend scheme, with the remainder issued under Group share option schemes.

During the year, the Company acquired 1,335,114 (2021 - nil) Ordinary shares through the Employee Benefit Trust (the "EBT"). The EBT is a discretionary trust for the benefit of the Company's employees, including the Directors of the Company. The EBT shares are excluded from the weighted average share calculations and the dividends on these shares have been waived. Following the announcement of a share buyback programme, 60,000 shares had been bought up to the 31 December 2022 and are held in treasury and excluded from the weighted average share calculations and the dividends on these shares have been waived.

There were no unusual rights or restrictions attaching to the Ordinary shares of the company.

24. SHARE BASED PAYMENTS

	£'000
Share option reserve as at 1 January 2022	2,474
Current taxation credit	18
Charge for the year	980
Released on maturity of options	(1,661)
Deferred taxation on share options	(533)
As at 31 December 2022	1,278

A) MICHELMERSH BRICK HOLDINGS PLC GROUP SHARE OPTION SCHEMES

Year of Grant	Exercise price per share	Period of exercise	No. of options as at 31 December 2021	Options exercised in the year	Options granted	Options forfeited/ lapsed in the year	No. of options as at 31 December 2022
2017	nil	December 2022 - December 2023	2,000,000	-	-	(2,000,000)	-
2019	nil	March 2022 - March 2023	79,037	(79,037)	-	-	-
2019	nil	March 2026 - March 2027	2,916,712	-	-	-	2,916,712
2020	nil	March 2023 - March 2024	95,776	-	-	-	95,776
2021	nil	March 2024 - March 2025	107,274	-	-	-	107,274
2022	nil	March 2025 - March 2026	-	-	141,315	-	141,315
2022	nil	December 2027 - December 2028	-	-	1,080,533	-	1,080,533

The options granted in the year were made under the “Long-Term Incentive Plans” and are subject to performance conditions. The conditions relate to EPS and TSR targets in respect of the award grants (see Directors Remuneration Committee Report on page 66).

B) MICHELMERSH BRICK HOLDINGS PLC SAYE SCHEME

Year of Grant	Exercise price per share	Period of exercise	No. of options as at 31 December 2021	Options exercised in the year	Options granted	Options forfeited/ lapsed in the year	No. of options as at 31 December 2022
2018	75.1p	August 2018 - August 2021	48,653	(43,860)	-	(4,793)	-
2018	75.1p	August 2018 - August 2023	134,217	-	-	-	134,217
2021	112p	March 2023 - March 2024	738,898	-	-	(125,671)	613,227
2021	112p	March 2025 - March 2026	165,527	-	-	(26,785)	138,742

NOTES TO FINANCIAL STATEMENTS CONTINUED

Vesting conditions under the scheme include a three- or five-year vesting period but do not include any performance criteria.

Options were valued using the principles of the Black Scholes Model. This valuation is amortised to the income statement over the vesting period.

The following key inputs have been used in the valuation of the SAYE share options using the Black Scholes Model, as deemed applicable at the grant date.

	2021	2018
Weighted average share price	£1.48	£0.82
Expected volatility	27%	30%
Expected dividend yield	3.0%	1.8%
Risk free rate	1.045%	5.000%

Expected volatility is derived from historic share price of the Group.

THE WEIGHTED AVERAGE EXERCISE PRICES FOR BOTH SCHEMES COMBINED WERE AS SET OUT BELOW:

	2022 No	2022 Weighted average exercise price	2021 No	2021 Weighted average exercise price
Outstanding as at 1 January	6,286,095	18.3p	6,942,093	8.1p
Exercised	(122,877)	26.8p	(1,370,199)	30.6p
Lapsed and forfeited	(2,157,269)	8.1p	(1,254,494)	4.0p
Granted	1,221,848	-	1,968,695	53.7p
Outstanding as at 31 December	5,227,797	18.0p	6,286,095	18.3p

The weighted average contractual life for the share options outstanding at 31 December 2022 is 3 years (2021: 3 years).

25. EQUITY ATTRIBUTABLE TO EQUITY HOLDERS

SHARE PREMIUM ACCOUNT

The share premium account relates to the excess of issue price over nominal value of shares issued.

OTHER RESERVE

Other reserve is made up of the three items below:

Share option reserve

The share option reserve relates to the Group Share Option and SAYE Share Option Schemes. Additional details are disclosed in notes 24 and 26 to the financial statements.

Revaluation reserve

The revaluation reserve relates to revaluation of property as disclosed in notes 14 and 26.

Currency reserve

The currency reserve relates to the impact of changes in currency rates used in the translation of opening balances of assets and liabilities of the Belgian subsidiary whose accounts are denominated in Euros. Additional details are disclosed in note 26 to the financial statements.

26. OTHER RESERVES

	Revaluation reserve £'000	Share option reserve £'000	Foreign exchange reserve £'000	Total £'000
As at 1 January 2022	19,372	2,474	(83)	21,763
Revaluation deficit	(1,115)	-	-	(1,115)
Revaluation surplus	2,716	-	-	2,716
Current taxation credit	(10)	18	-	8
Deferred taxation on revaluation	(466)	-	-	(466)
Currency difference	-	-	(257)	(257)
Total comprehensive income	1,125	18	(257)	886
Share based payments charge for the year	-	980	-	980
Released on maturity of options	-	(1,661)	-	(1,661)
Deferred taxation on share options	-	(533)	-	(533)
As at 31 December 2022	20,497	1,278	(340)	21,435

27. EARNINGS PER SHARE

	2022 £'000	2021 £'000
Earnings for the purposes of basic and diluted earnings per share being net profit attributable to equity shareholders	8,877	6,129
Number of shares		
Weighted average number of ordinary shares for the purposes of basic earnings per share	94,467,688	94,305,964
Number of dilutive shares under option	1,976,771	3,378,137
Weighted average number of ordinary shares for the purposes of dilutive earnings per share	96,444,459	97,684,101

The calculation of diluted earnings per share assumes conversion of all potentially dilutive ordinary shares, all of which arise from share options. A calculation is performed to determine the number of share options that are potentially dilutive based on the number of shares that could have been acquired at fair value, considering the monetary value of the subscription rights attached to outstanding share options.

28. RECOGNITION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

	As at 31 December 2020 £'000	Currency adjustment £'000	Drawn during the year £'000	Repaid during the year £'000	As at 31 December 2021 £'000
Term Loans	3,076	(62)	-	(2,229)	785
Revolving credit facility drawn during the year	8,397	(240)	-	(8,157)	-
Lease liabilities	770	-	368	(530)	608
	12,243	(302)	368	(10,916)	1,393

	As at 31 December 2021 £'000	Currency adjustment £'000	Drawn during the year £'000	Repaid during the year £'000	As at 31 December 2022 £'000
Term Loans	785	8	-	(793)	-
Lease liabilities	608	-	1,396	(720)	1,284
	1,393	8	1,396	(1,513)	1,284

29. CONTINGENCIES

There are specific performance guarantees granted by HSBC amounting to £417,000 (2021: £1,683,000).

30. ACQUISITION OF FABSPEED HOLDINGS LTD

The results of the FabSpeed business are consolidated for the first time in the current period’s financial statements as the acquisition was completed and control passed on 23 November 2022. The Group acquired 100% of the equity for a total consideration of £6.5 million, being the £6.25 million initial consideration and purchase price adjustments of £0.25 million reflecting the cash and working capital position at close. The net assets acquired had a book value of £1.9 million before fair value adjustments.

Set out below is an analysis of the assigned fair values of the assets acquired and liabilities assumed relating to this acquisition:

	Fair Value £'000
Customer relationships	2,720
Brand	197
Property, plant and equipment	739
Inventories	618
Trade and other receivables	1,558
Cash	341
Lease liabilities	(69)
Trade and other payables	(1,154)
Deferred tax liability	(867)
Net assets acquired	4,074
Goodwill	3,285
Total consideration	7,359
Initial cash consideration and working capital estimate	6,414
Post completion working capital adjustment	93
Deferred contingent consideration payable	852
Total consideration	7,359

Goodwill of £3.3 million was recognised in respect of the acquisition, representing the amount paid for future sales growth from both new customers and new products, operating cost synergies and employee know-how. From the date of acquisition to 31 December 2022, FabSpeed generated £0.7 million of revenue (including and reported an operating profit of £0.1 million. Had FabSpeed been acquired on the first day of the financial year the estimated contribution to revenue would have been £8.5 million and operating profit of £0.7 million.

MICHELMERSH BRICK
HOLDINGS PLC
PARENT COMPANY
FINANCIAL STATEMENTS
Year ended 31 December 2022

INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF MICHELMERSH

OPINION

We have audited the financial statements of Michelmersh Brick Holdings plc (the ‘parent company’) for the year ended 31 December 2022 which comprise the balance sheet, the statement of changes in equity and the parent company notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 “The Financial Reporting Standard applicable in the UK and Republic of Ireland” (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the parent company financial statements:

- give a true and fair view of the state of the parent company’s affairs as at 31 December 2022
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor’s responsibilities for the audit of the parent company financial statements section of our report. We are independent of the parent company in accordance with the ethical requirements that are relevant to our audit of the parent company financial statements in the UK, including the FRC’s Ethical Standard as applied to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period, and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

KEY AUDIT MATTER	DESCRIPTION OF RISK	HOW THE MATTER WAS ADDRESSED IN THE AUDIT
Investment Properties (Note 2)	Investment properties are measured at fair value at each reporting date. Fair value measurement is inherently judgemental.	<div>In order to address this key audit matter, the audit team have performed the following procedures:</div> <ul style="list-style-type: none">• Reviewed third party valuation obtained by the Directors in the year, considering the independence and competence of the expert engaged by management to prepare the valuation;• Considered the appropriateness of the valuation approach with reference to past experience and the broader nature of the business; and• Reviewed and challenged the assumptions used.
Investment value (Note 3)	Investment value in the accounts is significant and relates to the purchase of subsidiary companies. The carrying value of these investments is considered for impairment on an annual basis by the Directors which requires significant judgment, in particular regarding cash flows, growth rates, discount rates and sensitivity analysis.	<div>In order to address this key audit matter, the audit team has performed the following procedures:</div> <ul style="list-style-type: none">• Considered trading performance of the underlying companies;• our internal experts assessed the appropriateness of the model and the assumptions concerning growth rates and the discount rate; and• performed sensitivity analysis to stress the future free cash flow calculations.

KEY AUDIT MATTER	DESCRIPTION OF RISK	HOW THE MATTER WAS ADDRESSED IN THE AUDIT
Acquisition of FabSpeed Holdings Limited (Note 30 in the notes to the Group financial statements)	The company acquired 100% of the FabSpeed Group during the year. IFRS 3 requires that consideration is given to the fair value of the consideration paid which requires judgment.	<div>In order to address this key audit matter, the audit team have performed the following procedures:</div> <ul style="list-style-type: none">• Reviewed the underlying agreement relating to the acquisition;• assessed the appropriateness of the assumptions used to calculate the earn out element of the consideration;• challenged the treatment of the earn out payment as consideration vs remuneration; and• considered the appropriateness of the disclosures made in the financial statements in respect of the consideration.

OUR APPLICATION OF MATERIALITY

The materiality for the parent company financial statements as a whole (“parent FS materiality”) was set at £3,558,400. This has been determined with reference to the benchmark of the parent company’s net assets, as it is a holding company for the group and carries on no trade in its own right. Parent FS materiality represents 4% of the parent company’s net assets as presented on the face of the parent company balance sheet. This materiality level was capped at performance materiality for the Group.

Performance materiality for the parent company financial statements was set at £2,846,720, being 80% of parent FS materiality. It was set at 80% to reflect the fact that few misstatements were expected in the current period and that there are few judgements. Also, management utilise experts in a number of areas requiring estimation supporting them in making their assessment.

CONCLUSIONS RELATING TO GOING CONCERN

In auditing the parent company financial statements, we have concluded that the Directors’ use of the going concern basis of accounting in the preparation of the parent company financial statements is appropriate.

Our evaluation of the Directors’ assessment of the parent company’s ability to continue to adopt the going concern basis of accounting included:

- Challenging key assumptions used in the detailed budgets prepared by management to March 2024;
- Considering historical accuracy of budgeting;
- Comparing the actual results to budget for 2022 and post year end results to 2023 budget;
- Considering the sensitivity of the key assumptions and re-assessing headroom after sensitivity analysis performed.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the parent company’s ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

OTHER INFORMATION

The other information comprises the information included in the Annual Report, other than the Group and parent company financial statements and our Auditor’s Report thereon. The Directors are responsible for the other information contained within the Annual Report. Our opinion on the parent company financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the parent company financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the parent company financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

OPINIONS ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the Directors' Report for the financial year for which the parent company financial statements are prepared is consistent with the parent company financial statements; and
- the strategic report and the Directors' Report have been prepared in accordance with applicable legal requirements.

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

In the light of the knowledge and understanding of the parent company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the Directors' Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

RESPONSIBILITIES OF DIRECTORS

As explained more fully in the Directors' responsibilities statement set out on page 75, the Directors are responsible for the preparation of the parent company financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company financial statements, the Directors are responsible for assessing the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the parent company or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE PARENT COMPANY FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company financial statements.

The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below. Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud.

We obtained a general understanding of the Company's legal and regulatory framework through enquiry of management in respect of their understanding of the relevant laws and regulations. We also drew on our existing understanding of the Company's industry and regulation.

We understand that the Company complies with requirements of the framework through:

- Engaging with independent advisors to perform regular reviews of procedures in place at sites operated by the Group.
- Making note of relevant updates from external experts and updating internal procedures and controls as necessary as legal and regulatory requirements change.
- Given the management structure and reporting lines, any litigation or claims would come to the Directors' attention and are considered at Board meetings.

In the context of the audit, we considered those laws and regulations which determine the form and content of the financial statements, which are central to the Company's ability to conduct its business, and/or where there is a risk that failure to comply could result in material penalties. We have identified the following laws and regulations as being of significance in the context of the Company:

- The Companies Act 2006 and FRS 102 in respect of the preparation and presentation of the financial statements.
- AIM rules and the Market Abuse Regulations; and
- Health and safety, Environmental and Pollution regulations, due to the nature of the Group's operations.

We performed the following specific procedures to gain evidence about compliance with the significant laws and regulations identified above:

- Reviewed the procedures management has implemented over compliance with the regulations.
- Inspected internal health and safety records and external site audit reports.

The senior statutory auditor led a discussion with senior members of the engagement team regarding the susceptibility of the parent company's financial statements to material misstatement, including how fraud might occur. The key areas identified as part of the discussion were:

- Manipulation of the financial statements through manual journal entries.
- Valuation of the investment properties and investments where estimates are made by management.

These areas were communicated to the other members of the engagement team who were not present at the discussion.

The procedures we carried out to gain evidence in the above areas included;

- Testing of a sample of journal entries, selected through applying specific risk assessments based on the parent company's processes and controls surrounding journal entries.
- Challenging management regarding the key assumptions used in the estimates identified above, and comparison to post-year-end data and third-party correspondence as appropriate. Refer to the work performed over our Key Audit Matters above for procedures performed.

A further description of our responsibilities is available on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our Auditor's Report.

OTHER MATTER

We have reported separately on the group financial statements of Michelmersh Brick Holdings plc for the year ended 31 December 2022.

USE OF OUR REPORT

This report is made solely to the parent company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the parent company's members those matters we are required to state to them in an Auditor's Report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the parent Company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO COMPANY FINANCIAL STATEMENTS

for the year ended 31 December 2022

ACCOUNTING POLICIES - YEAR ENDED 31 DECEMBER 2022

BASIS OF PREPARATION

Michelmersh Brick Holdings plc is a public limited company incorporated in the United Kingdom. The registered office is Freshfield Lane, Danehill, Haywards Heath, West Sussex, RH17 7HH.

The financial statements have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland' ('FRS 102') and the Companies Act 2006.

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets in accordance with the company's accounting policies.

Advantage has been taken of the s408 Companies Act 2006 exemption from publishing the parent company's individual statement of profit or loss and other comprehensive income.

PROPERTY, PLANT AND EQUIPMENT

Plant and equipment are stated at cost or deemed cost less accumulated depreciation and impairment losses.

Depreciation is calculated so as to write off the cost or valuation of an asset, less its estimated value based on current prices at the balance sheet date, over the useful economic life of the asset as follows:

Office equipment - 10% - 33%

NOTES TO COMPANY FINANCIAL STATEMENTS

INVESTMENT PROPERTIES

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value. Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the period in which they arise.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of investment property, is recognised in the profit and loss account in the period of de-recognition.

INVESTMENTS IN SUBSIDIARIES

Investments are stated at cost less any provision for impairment in value.

SHARE BASED PAYMENT TRANSACTIONS

An expense for equity instruments granted under employee share schemes and the Save-As-You-Earn Schemes is recognised in the financial statements based on their fair value at the date of grant. This expense is recognised over the vesting period of the scheme. The cumulative expense recognised at each reporting date, until the vesting date, reflects the extent to which the vesting period has expired and the Directors' best estimate of the number of equity instruments that will ultimately vest. The Company has adopted the principles of the Black-Scholes Model for the purposes of computing fair value.

OPERATING LEASE AGREEMENTS

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight-line basis over the period of the lease.

DEFERRED TAXATION

Deferred taxation is provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on the tax rates and laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that their recovery is considered more likely than not.

FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised in the balance sheet when the Company becomes a party to the contractual provisions of the instrument.

Cash and cash equivalents are classified as basic financial instruments and comprise cash in hand and at bank, short-term bank deposits with an original maturity of three months or less.

Financial liabilities and equity instruments issued by the Company are classified in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Interest bearing bank loans, overdrafts and other loans which meet the criteria to be classified as basic financial instruments are initially recorded at the present value of cash payable to the bank, which is ordinarily equal to the proceeds received net of direct issue costs. These liabilities are subsequently measured at amortised cost, using the effective interest rate method.

PENSION COSTS

The Company operates a defined contribution pension schemes for employees. The assets of the schemes are held separately from those of the Company. Contributions are charged to the profit and loss account in the year in which they are incurred.

CARBON EMISSIONS ALLOWANCES

Unused and acquired carbon emissions quotas held at the balance sheet date are recognised as intangible assets and are valued at open market value. Any gain or loss arising is recognised in the profit and loss account.

The asset and liability at the end of the year are offset and recorded as a single line item in the profit and loss account, offset against any disposals (or purchases) of excess quotas in the year.

DIVIDENDS

Dividend distribution to the Company's shareholders is recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders

1. PROPERTY, PLANT AND EQUIPMENT

	Office Equipment £'000
Cost	
As at 1 January 2022	520
Additions	104
As at 31 December 2022	624

As at 1 January 2022	7
Charge for the year	15
As at 31 December 2022	22
Net book value	
As at 31 December 2022	602
As at 31 December 2021	513

2. INVESTMENT PROPERTIES

	£'000
Cost or valuation	
As at 1 January 2021	36,453
Additions	2,647
Revaluation deficit	(3,224)
Revaluation surplus	1,706
Transfer	(26)
As at 31 December 2021	37,556
Additions	554
Revaluation deficit	(1,246)
Revaluation surplus	1,614
Transfer	(29)
As at 31 December 2022	38,449

REVALUATION OF FIXED ASSETS

The Company's investment property was valued by the Directors on 31 December 2022 at fair value.

The Directors have valued the properties on a range of bases including depreciated replacement cost and market value bases consistent with the methodologies utilised by external valuers.

NOTES TO COMPANY FINANCIAL STATEMENTS CONTINUED

3. INVESTMENTS IN SUBSIDIARIES

	2022 £'000	2021 £'000
Cost		
As at 1 January	58,314	57,990
Additions	7,359	324
As at 31 December	65,673	58,314

The addition in the year relates to the acquisition of FabSpeed Holdings Ltd as of 23 November 2022.

The company's investment in the ordinary share capital of unlisted subsidiary companies at the balance sheet date include the following:

Company Name	Country of Incorporation	Class of Shares held	% of holding	Company No.	Nature of business
Blockleys Brick Limited	England	Ordinary	100	07445630	Non trading
Carlton Main Brickworks Limited	England	Ordinary	100	00479716	Non trading
Charnwood Forest Brick Limited	England	Ordinary	100	03690069	Non trading

LiteSpeed Limited ^{a b}	England	Ordinary	100	10468462	Pre-fabrication Products

^a These companies were acquired following the acquisition of FabSpeed Holdings Ltd and its subsidiaries on 23 November 2022.

^b Company is exempt from the requirements of the Companies Act relating to the audit of individual financial statements by virtue of s479A for the financial year ended 31 December 2022

The registered office of the UK subsidiaries is at Freshfield Lane, Danehill, Haywards Heath RH17 7HH. Floren's registered office is at Vaartkant Rechts 4, B 2960 Brecht, Belgium.

4. DEBTORS - AMOUNTS FALLING DUE WITHIN ONE YEAR

	2022 £'000	2021 £'000
Prepayments	507	433
	507	433

5. CREDITORS - AMOUNTS FALLING DUE WITHIN ONE YEAR

	2022 £'000	2021 £'000
Amounts owed by Group undertakings	1,279	966
Accruals and deferred income	3,325	1,468
Deferred consideration	852	-
	5,456	2,434

6. PROVISIONS FOR LIABILITIES

The movement in the deferred taxation provision during the year was:

	2022 £'000	2021 £'000
At 1 January	5,716	4,524
Prior year adjustment	(44)	(5)
Revaluation	625	862
Increase in deferred taxation	47	335
At 31 December	6,344	5,716

The provision for deferred taxation consists of the tax effect of temporary differences in respect of excess of taxation allowances over depreciation on fixed assets and revaluation surpluses, as well as the impact of the changes in UK tax rates.

7. DIVIDEND

During the year, the Company paid a dividend of 3.65 pence per share in relation to 2021, an interim dividend of 1.15 pence per share on 13 January 2022 and a final dividend of 2.50 pence per share on 13 July 2022, amounting in total to £3,471,000 (2021: £2,349,000). In relation to 2022, the Company paid an interim dividend per share of 1.30 pence per share in 11 January 2023 and recommends a final dividend of 2.95 pence per share. The proposed final dividend will be paid on 12 July 2023 to members on the register on 9 June 2023 with shares being marked ex on 6 June 2023.

NOTES TO COMPANY FINANCIAL STATEMENTS CONTINUED

8. PARTICULARS OF EMPLOYEES

The average number of staff employed by the Company during the year amounted to:

Details of Directors' emoluments are shown in the Remuneration Committee Report on page 67.

	2022 No	2021 No
Management and Administration	15	23
	£'000	£'000
Wages and salaries	1,399	3,035
Social security costs	318	362
Other pension costs	54	81
	1,771	3,478

9. CONTINGENCIES

The bank holds a cross guarantee between the Company and its subsidiaries dated December 2022. At the end of the year total Group bank borrowings were £nil (2021: £nil).

10. SHARE CAPITAL

Group disclosures on page 103 of the Group accounts are appropriate to the Company.

	2022 Number	2022 £'000	2021 Number	2021 £'000
Authorised share capital Ordinary shares of 20p each	110,000,000	22,000	110,000,000	22,000
Allotted, called up and fully paid: Ordinary shares of 20p each	95,903,579	19,181	95,632,818	19,127

There were no unusual rights or restrictions attaching to the Ordinary shares of the company.

11. RESERVES**SHARE PREMIUM ACCOUNT**

The share premium account relates to the excess of issue price over nominal value of shares issued.

OTHER RESERVE

Other reserve is made up of the following three items:

Share option reserve

The share option reserve relates to the Group Share Option and SAYE Share Option Schemes. Additional details are disclosed in notes 24 and 26 of the financial statements.

Merger reserve

The merger reserve relates to the premium of fair value of ordinary shares issued on acquisition of a subsidiary over the par value of the shares. Additional details are disclosed in note 25 and 26 of the financial statements.

Revaluation reserve

The revaluation reserve relates to revaluation of property as disclosed in notes 26 and 2 to the financial statements.

12. OTHER RESERVES

	Revaluation reserve £'000	Share option reserve £'000	Merger reserve £'000	Total £'000
As at 1 January 2022	19,864	2,415	3,571	25,850
Taxation credit on exercise of options	-	-	-	-
Total comprehensive income	-	-	-	-
Revaluation deficit	(1,246)	-	-	(1,246)
