Hathern Terra Cotta™ TERRA COTTA & FAIENCE

WELCOME TO HATHERN TERRA COTTA

Hathern terra Cotta is the UK's leading manufacturer of traditional handmade architectural terra Cotta & faience. Much has changed over the years but the enduring beauty of our products is testament to their quality.

We are pleased to be able to combine the traditional skills of the Hathern Station brick and terra Cotta Company, founded in 1874, with modern design and manufacturing techniques to produce quality terra Cotta and faience for restoration and new build projects. In recent years our specialist expertise has been called upon for projects as diverse as the new apple Store in Covent Garden, the Elite Cinema in nottingham, the florence Institute in liverpool and the V&a Museum in South Kensington.

Products are manufactured in accordance with the requirements of British Standards BS EN 771-1 and BS 4729, and in compliance with independently verified ISO 9001 Quality, ISO 14001 Environmental and ISO 50001 Energy Management Systems. Products also comply with the BES 6001 Responsible Sourcing standard. All of our products offer outstanding properties of total durability, being F2 rated and fully frost resistant.

Hathern Terra Cotta™

AUTHENTIC IN
EVERY DETAIL

We know that your project is one of a kind. That's why we undertake a meticulous survey of the colour, finish and details required to bring your building to life.

We have unrivalled technical ability to match details and develop clay bodies to meet your requirements. This clay is then hand pressed into plaster moulds and hand finished to ensure that the existing Terra Cotta is matched beautifully.

Architectural Faience blocks are sprayed or hand painted with glaze before firing. Each coat dries completely before another is added for a truly authentic finish. Finally, the blocks are fired in state of the art kilns for four days to temperatures in excess of 1100°C. Following a full quality inspection each piece is carefully packed for delivery to site.

Hathern Terra Cotta™

HERITAGE AND INNOVATION

Hathern Terra Cotta has always placed the greatest emphasis on quality, pride in workmanship and attention to detail. That's why we were a natural addition to the group of specialist brick makers at MBH PLC, Britain's Brick Specialists. Our customers gain more than the reputation and experience of one factory, site or clay working tradition. They receive the superb service, resources and flexibility that MBH PLC provides as standard. MBH PLC offer a huge selection of quality bricks and roof tiles from our sister companies - the optimum accompaniment to our bespoke Terra Cotta products. Most of all, you can rest easy in the knowledge that our expertise is second to none - and with it, the assurance of another successful project.

BUILDING MADE BETTER WITH BIMBRICKS.COM

Michelmersh remains at the forefront of industry innovation, by continuing to invest and evolve manufacturing processes. At the same time it leads the way in offering intuitive, informative and supportive product data through the most up-to-date construction technology procedures. Acting rapidly on the Government's Construction Strategy published in May 2011, Michelmersh responded with the first range of clay product files. As the first brick manufacturer to introduce Building Information Modelling (BIM) files in the UK, it is now delighted to see a surge in industry support, acceptance and participation.

Façade Designer

The Façade Designer is a fully customisable application tool featured on mbhplc.co.uk to give designers, architects and clients the ability to create their own multiple brick blended façade, choosing from the full core range. The Designer aims to inspire creativity, giving users the freedom to firstly choose brick types through colour, texture or size, proceeding onto a mortar colour, and lastly, selecting a bond to evolve the façade to their desired specification.

Once the design is complete, users are given the option to download their final façade design as a high-quality resolution image in multiple formats, and will also be sent the product recipe with relevant product page links, giving the chance to further download our BIM files or other technical data sheets.

BUILDING MADE EASIER WITH MBHPLC.CO.UK/FACADE-DESIGNER

THE benefits of brick

High Product Performance

-  Thermal Performance
-  Air Quality
-  Flood Resilience
-  Overheating
-  Non-combustible
-  Cavity Wall Construction
-  Class 0 Fire Rating above 18m

Sustainability

-  Longevity
-  Durability
-  Recycled Content
-  Low Operational Carbon
-  Adaptability
-  Reusable
-  Climate Resilience
-  Locally Sourced

Industry Preference

-  Matches UK Vernacular
-  Favoured By Planners
-  Product Quality Standards
-  Established Supply Chain
-  Aesthetics
-  Forgiving Of Tolerance
-  Variety Of Colours

Low Lifetime Cost

-  Low Cost & Strong Value
-  Low Maintenance
-  Financially Underwritten
-  Competitive Whole-Life Cost
